**Re : Price Query**

We note there has been a significant change in the price of the Company's Securities. This is largely due to the fact that it has been over 4 years since the last on-market trade. In the interim there has been some off-market trades at 1.96 cents per share, which the market is aware of.

The Company is not aware of any other information that would affect its share price. The Company remains compliant with NSX Listing Rules.

Yours sincerely

Stephen Mason  
Company Secretary
