## **POT – Interim Decision of the Environment Court**

Port of Tauranga Limited this afternoon received an interim decision of the Environment Court granting resource consent for Stage 1 of its planned Sulphur Point wharf extension, subject to conditions. Stage 1 involves building 285 metres of additional berth to the south of the Port's existing container berths.

Decisions on whether to grant consents for Stage 2 of the Sulphur Point wharf extension, and for proposed works at the Mount Maunganui wharves, are reserved pending the provision of further information.
