

[Templeton Emerging Markets Investment Trust PLC \('Temit'\)](#)

On behalf of Temit, Franklin Templeton Investment Trust Management Limited reports the unaudited cum-income net asset value ('NAV') of Temit as at

**27 March 2024** was £2026.491m, representing a NAV of 181.77 pence per share.

The unaudited ex-income NAV of Temit as at **27 March 2024** was £1990.951m, representing a NAV of 178.58 pence per share.

In accordance with the Association of Investment Companies recommendations, the cum-income NAV has been calculated based on the total value of underlying assets,

including accumulated or accrued income, and using bid price information relating to the underlying assets.

The ex-income NAV has been calculated based on the total value of underlying assets, excluding these income elements, and using bid price information relating to the underlying assets.

[Portfolio data for Temit can be found on the website \*\*www.Temit.co.uk\*\*](#)

If the long-term debt was valued at cost, the cum-income NAV would decrease by -0.35p
