ANNOUNCEMENT: Green Cross Health - Chief Operating Officer

Green Cross Health (GXH) advises that Alison Van Wyk, Chief Operating Officer, has tendered her resignation. Her last day with the company will be 19 May 2023.

The company thanks Alison for her contribution over the last 13 years. Alison's role included leading the pharmacy division where she is well known within the sector for her advocacy efforts. Prior to being appointed as Chief Operating Officer, Alison held the role of CEO Community Health for GXH where she led the turnaround of the division from mid-2018 to the end of 2021. Last month GXH announced the sale of that division to Anchorage Capital Partners.

The company wishes Alison all the best for her next move.
