Skellerup upgrades NPAT guidance for the first half of FY22

Skellerup announced today an upgrade to its guidance for its net profit after tax (NPAT) for first half of FY22.

Chair Liz Coutts said “At our AGM in late October 2021 we highlighted that demand remained strong across the Group and we expected NPAT for the first half of FY22 to be in excess of 10% above the prior comparative period (pcp). This demand was sustained throughout the first half particularly for our potable water, marine, roofing and construction products. As a result, we now expect NPAT for the six months ended 31 December 2021 to be circa \$23 million, up 18% on pcp.”

Skellerup will report its unaudited results for the first half of FY22 on 17 February 2022.
