What has changed at Skellerup?

Strong customer focus

- Long relationships based on solving real (OEM) customer problems to deliver often critical and essential products.

Improving operational execution

- New Wigram facility, investment in people and process.
- Productivity gains and reduced waste at our sites across the world.

Enhanced and faster capability

- Investment in complimentary technologies including heat cured silicone rubber and liquid silicone rubber.
- Investment to accelerate development of products and to optimise processing times in production.

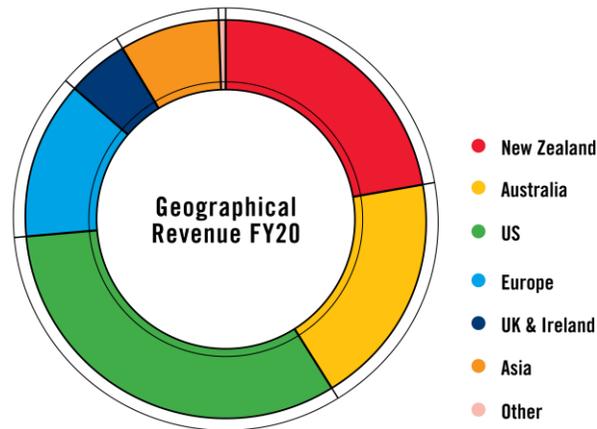

Less cyclical earnings driving improved shareholder returns

- Growth in earnings from products critical to the safe transportation of water and milk.
- Reduced proportion of earnings from more cyclical applications such as oil, gas and mining.
- Five-year cumulative total shareholder return (share price gain plus dividends) > 200%
