

23 April 2021

Probiotic strains approved in India

Blis Technologies Limited announces the Food Safety and Standards Authority of India (FSSAI) has granted approval of both BLIS M18™ and BLIS K12™ probiotic strains for use in health supplements.

Brian Watson, CEO of Blis Technologies, said “The COVID pandemic has caused delays in the normal approval timelines for this approval in India but we are delighted to have finally reached this milestone and look forward to continuing commercialisation plans with our agent for the India market.”

Blis Technologies have an existing relationship with RNA Nutrition who have supported this approval process and will act as our agent for the commercialisation of BLIS Ingredients™ in India. RNA Nutrition is an established selling agent for science based novel ingredients for human and animal health in India with a strong customer base.
