

Xped Limited

Xped releases native Device Browser App

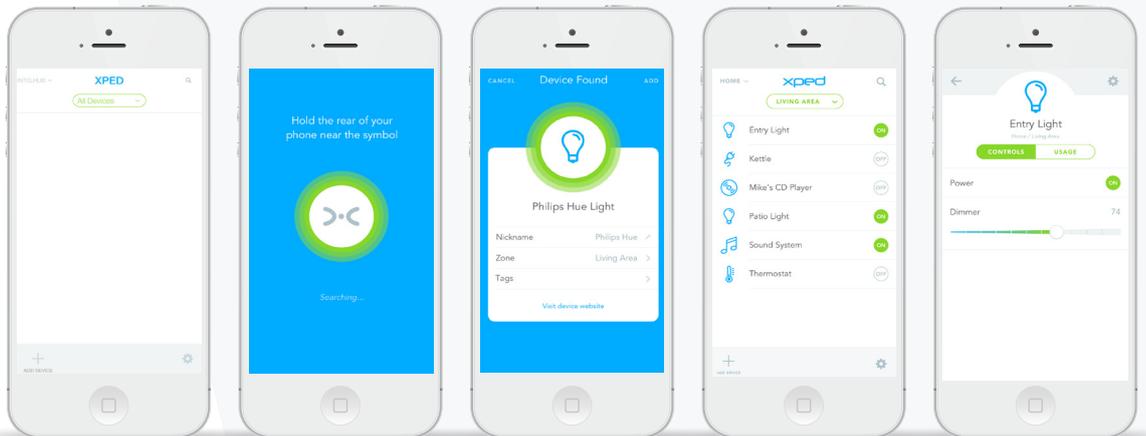

Highlights

Xped APP released to Google Play™ Store with verification underway for release on Apple App Store

Available in English with Chinese language translation under way to cater for Xped's target markets.

The Xped App

Available for both Apple and Android devices - September 2016

Add new device with just **One Tap**

One App to control any Thing

Xped Limited (**ASX: XPE**) ("**Xped**" or "**the Company**") wishes to advise that its new Device Browser App has been released to the Google Play™ Store for Android devices. The App has been released in English with a Chinese language translation underway given these two languages represent the main core targets for the Company at the present time.

Apple and the Apple logo are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc. Google Play™ Store is a trademark of Google Inc.

Xped Limited

The Company awaits Apple's verification and authorisation to release the Xped App on the Apple App Store. This release can take between 2 to 5 weeks depending on Apple's backlog of processing and verification which is unusually long due in part to the new iOS 10 release and the fact that the Xped App needs to be tested against hardware (IoT Gateway) which requires Xped to provide evidence via a video that the software works correctly.

Martin Despain Managing Director commented, "Xped has been working quickly to deliver a native version release of its Device Browser App which is an essential piece of the ADRC technology solution. The release of the native App will assist the Company working towards opportunities to commercialise ADRC."

Martin Despain
Managing Director

ABOUT XPED

Xped has developed revolutionary and patent protected technology that allows any consumer, regardless of their technical capability, to connect, monitor and control devices and appliances found in our everyday environment. It's as simple as two people shaking hands. By enabling the Internet of Things, Xped's ADRC platform will bring benefit to Manufacturers, Retailers, Service Providers and Consumers.

At Xped, we're ***Making Technology Easy Again.***
