Collaborate Corporation Limited

About Collaborate Corporation Limited

Collaborate Corporation Limited is listed on the Australian Securities Exchange (ASX:CL8). It is Australia's leading listed company focused on 'collaborative consumption', 'peer-to-peer' or 'sharing economy' businesses. Collaborate currently has three core business segments: www.DriveMyCar.com.au Australia's leading peer-to-peer car rental business; www.MyCaravan.com.au Australia's leading peer-to-peer caravan rental business and www.Rentoid.com, one of Australia's leading peer-to-peer 'rent anything' platforms. Collaborate has a material investment in FundX, a peer-to-peer invoice discounting and SME lending platform. Through our proprietary trust and reputation platform, www.peerpass.com.au we create 'trust' between individuals and make it possible for people to safely transact with each other in the sharing economy.

Collaborative Consumption

Collaborate Corporation Limited (ASX: CL8) is a leading ASX listed player in the sharing economy. Collaborate has created **platform technology** to operate **online marketplaces** where the 'trust' it creates allows individuals and companies to transact with each other for mutual benefit.

Collaborate enables asset owners to generate income from idle assets by safely and easily renting them to others who require temporary access to the assets. Renting assets is no longer the exclusive domain of dedicated rental companies. We are embracing the **trend from ownership to access** and reinventing the way that **assets are owned, monetised and used**.

Collaborate is **disrupting** traditional business models to build a **scalable, high gross margin** business.

Collaborate operates online marketplaces in the **car, caravan and equipment rental industries**. Growing from an initial focus on consumer transactions, the marketplaces are pursuing higher growth from business transactions through relationships with Australian and multinational companies such as **InterLeasing** and **Uber**.

Through our proprietary **PeerPass**[®] verification platform we create trust by managing ID verification, credit checks, payments and feedback – maximising the potential for safe and efficient transactions.

Collaborate is also disrupting the **finance and banking industry** through an investment in a peer-to-peer SME lending business FundX, allowing businesses to bypass banks and access funds directly from investors.

The industry we operate in is called collaborative consumption, peer-to-peer or the sharing economy.
We just call it ***a smart way to create value.***

The Value of Trust & Reputation

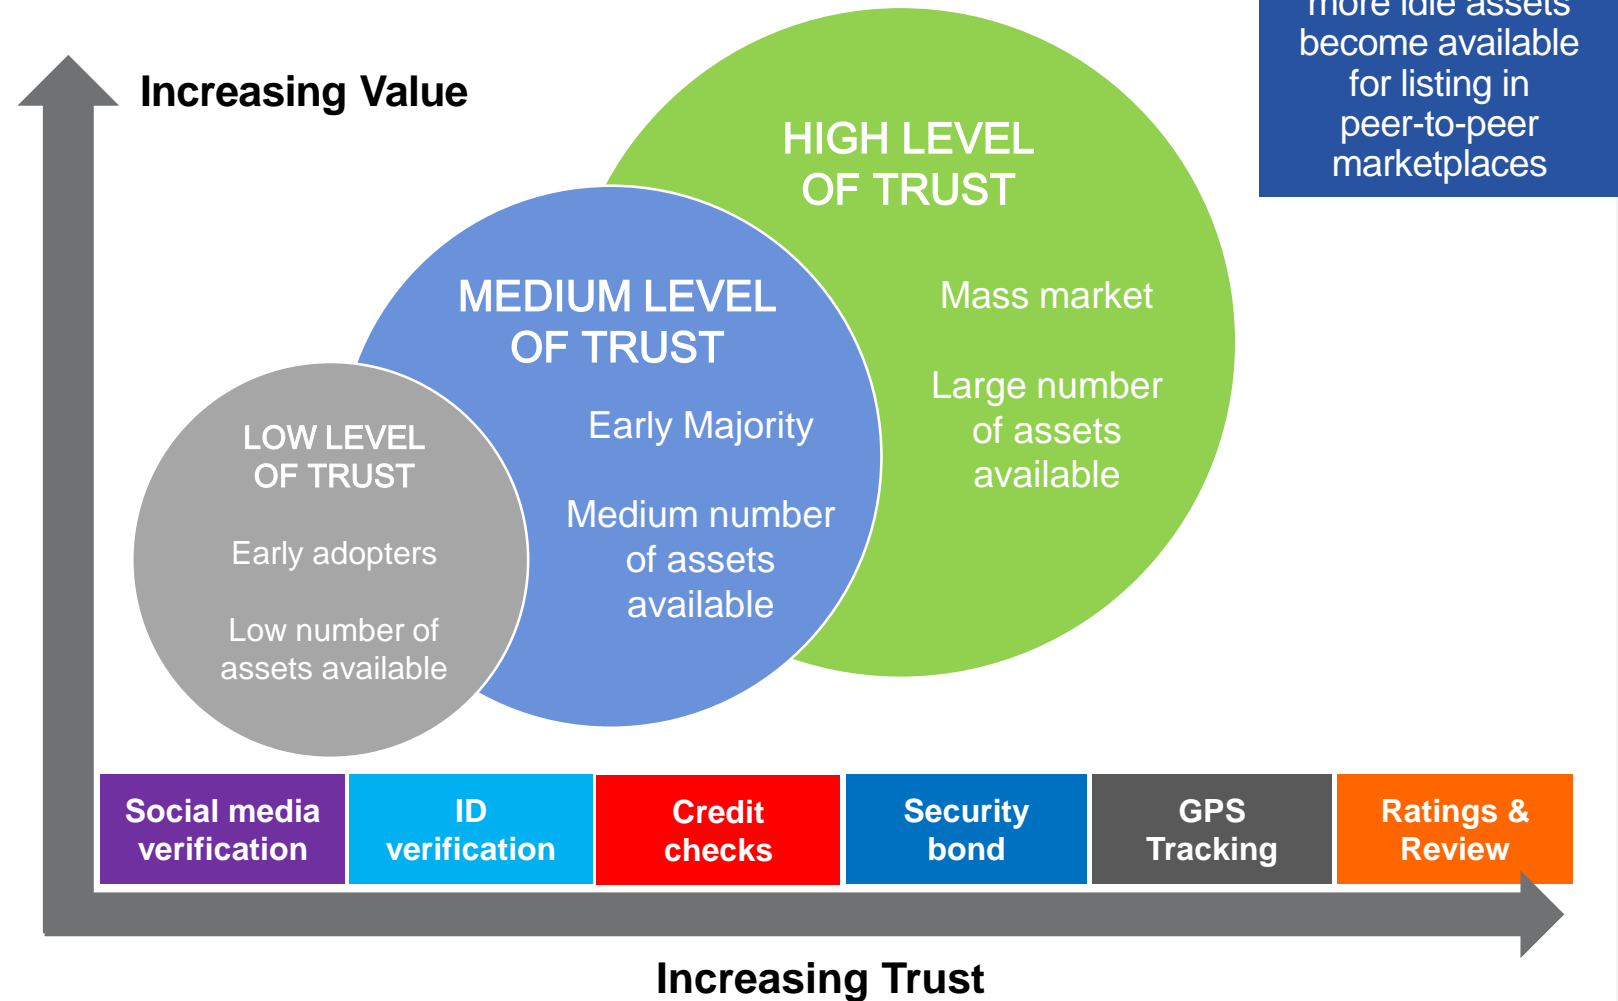

The company that will dominate the peer-to-peer market will optimise **trust** and maximise the **value** and **number** of transactions

Collaborate builds **trust** by screening customers **before** the first transaction and recording feedback **after** each transaction, building a pool of high reputation customers

As the level of trust increases, the risk profiles of asset owners will be satisfied and **more assets will enter the marketplaces**.

Collaborate can charge a premium for access to its **high reputation customer base** because asset owners are confident they will receive a return and their assets will be secure

Collaborate aims to
‘dominate trust and maximise returns’

PeerPass® : The Future of Trust & Reputation Management

PeerPass® was developed by Collaborate to verify users before a transaction proceeds and reduce risks associated with peer-to-peer transactions

- PeerPass was conceived to differentiate Collaborate's marketplaces from competitors by performing a higher level of verification and thus creating a higher value customer base
- Customers will be able leverage their online trust profile across Collaborate's marketplaces, increasing ease of access for customers and reducing verification costs for Collaborate

Third party licensing opportunities

- Reduce verification costs for marketplaces
- Allow consumers to build an online trust profile that enables easy access to multiple marketplaces, without having to perform multiple verifications

- Dealer sites are the ideal location for rental car handovers and the Dealer Rental service has significant growth potential
- These vehicles are also suitable for targeting corporate and government rentals

DriveMyCar Accelerating Growth

The growth of DriveMyCar is driven by its ability to secure the highest number of quality, well priced vehicles and generate rental demand to ensure maximum utilisation. DriveMyCar has identified methods that have accelerated supply and demand and are scalable to deliver continued growth.

DriveMyCar provides rental opportunities for vehicles owned by private and corporate owners. The overall size of the fleet has **grown by over 100%**.

Corporate fleet vehicles generate **71% more revenue** per vehicle than private vehicles. Continued growth in supply of vehicles from new and existing corporate deals will considerably increase the size and quality of the available fleet and thus revenue potential. These deals take time, but the benefit is significant.

Corporate owners which include automotive manufacturers, leasing companies and automotive dealers provide the most easily scalable and consistent supply of vehicles, which achieve higher utilisation rates than private vehicles. Growing the corporate fleet is the primary focus for business development activities while marketing and PR continue to grow the private fleet.

Aussies are using online car rental services to make money as Uber Drivers

SEPTEMBER 6, 2016 3:30PM

AUSTRALIANS looking for flexible work are using peer-to-peer car sharing services to allow them to sign up to become an UberX driver and earn some extra cash.

Popular car hiring platform DriveMyCar has expanded its rental service to Uber drivers in Queensland and Victoria this week following moves by both state governments to legalise ride sharing apps.

Since launching the ride sharing component of their service in NSW two months ago, DriveMyCar CEO Chris Noone said a "fairly significant portion" of the company's business now comes from those looking to make money by operating as an Uber driver.

The newly introduced "Rideshare Rentals" designated for aspiring Uber drivers made up 16 per cent of the company's NSW bookings in July, and that number grew to 24 per cent in August.

"We're growing at around 100 per cent per month" in that area of the business, Mr Noone said.

Owned by ASX-listed Collaborate Corporation, it's no surprise the company has sought to take advantage of all facets of the sharing economy.

The NSW government wants to build a 'collaborative economy'

HARRY TUCKER
JAN 19, 2016, 10:39 AM

With the likes of Uber and AirBnB gaining popularity across the country, rather than resisting change, the New South Wales government is looking to embrace it.

The NSW Innovation minister Victor Dominello announced today that his state government will be embracing and looking to develop a framework for the "collaborative economy".

This comes after new estimates that those services contributed over \$500 million to the economy in the last year.

Sharing economy lands at Sydney and Brisbane airports with DriveMyCar

In a move that will drive the sharing economy further into the mainstream, industry disruptor DriveMyCar has today announced the expansion of its Sydney and Brisbane international airports.

Since 2010, DriveMyCar, the nation's largest peer-to-peer car rental platform to rent personal cars from other users.

The new service will allow local and international travellers to pick up and drop off a car at a convenient location without having to pay the airport premium charged by hire companies such as Avis, Thrifty and Europcar, to name a few.

DriveMyCar Provides Vehicles for Uber Drivers in Australia

July 25, 2016

Peer-to-Peer car rental firm DriveMyCar has partnered with UberX in Australia, according to a report by The Australian. DriveMyCar will allow UberX drivers to rent out cars on a weekly basis with no lock-in contracts.

For \$159 per week, UberX drivers will receive a car and get 150 kilometers per day allowance, insurance coverage for accidental damage and theft, and 24/7 roadside assistance, according to the report.

Uber drivers can also choose the make and model of the vehicle they want, including Toyota, Hyundai, Holden, Jeep, Audi, and BMW, says the report.

When I was a youngster, my parents owned a huge caravan that, apart from a week or so each year, sat idle in the driveway.

Enter the sharing economy – specifically **MyCaravan**, an Australian web site dedicated to sharing an otherwise depreciating investment.

It is relatively simple. Owners list caravans and motorhomes by location, pet-friendly (or not), a new no-tow option (permanently placed at a caravan park) and renters use the site to find same.

New Airbnb-style website cuts cost of renting a caravan or motorhome by up to 50 per cent

First there was [HomeCamp](#), a website that helps turn spare backyard spaces into mini caravan parks.

Now there's another Airbnb-style, peer-to-peer website that helps connect RV owners with travellers who want to rent a caravan or motorhome on the cheap.

[MyCaravan.com.au](#) (formerly Caramavan.com) is a new caravan rental website that connects owners who don't use their RV regularly, with those who are looking for a cheaper alternative to 50 per cent cheaper than commercial operators.
