ASX ANNOUNCEMENT

NetLinkz Secures Leader Distribution Agreement

Technology provider to secure data networks NetLinkz Limited (ASX:NET, Netlinkz “the Company”) is delighted to announce it has secured a distribution agreement with Leader Computers Pty Ltd, a manufacturer and distributor of high quality Information Communications Technology [ICT] products.

The partnership will accelerate the roll-out of NetLinkz’s patented SD-WAN [Software-Defined Wide Area Network] technology solution through Leader’s network of more than 6,000 resellers across Australia and New Zealand.

Leader distributes Information Communications Technology through creating a long-term profitable partnership with dealers and suppliers and has established a large client base and developed a reputation for aggressive marketing through the provision of the highest quality service to its clients.

NetLinkz Executive Chairman, James Tsiolis: “The Leader distribution agreement is a milestone for NetLinkz and a significant endorsement of our SD-WAN software solution and Go To Market strategy. We look forward to a mutually beneficial partnership with Leader as we focus on the roll-out of our award-winning patented technology solution.”

Leader Computers Managing Director, Theo Kristoris: “Leader has established its track record over more than 20 years through helping its vendors and resellers grow and profit. We are delighted to bring on NetLinkz as our newest vendor and firmly believe the Company’s technology will experience increasing demand.

Many of Leader’s 6,000 resellers are currently selling the traditional VPN solution and NetLinkz’s SD-WAN software solution will be the first of its kind to be offered across Leader’s distribution network.

Leader is very excited to be NetLinkz’s distributor as we believe it is a superior solution for those business and growing demand results in significant opportunity.”
