ASX ANNOUNCEMENT

23 December 2015

Marvel Digital Limited Participating at the Upcoming Consumer Electronics Show 2016

The Directors of China Integrated Media Corporation Limited (“CIMC” or the “Company”) are pleased to announce that the Company’s wholly owned subsidiary, Marvel Digital Limited (“MDL”) will be attending the upcoming Consumer Electronics Show (“CES”) 2016 due to be held in Las Vegas USA from the 6th to the 9th of January 2016 to display its latest products.

MDL representatives will be located at Booth 47001 of the Westgate Hall and will have on display a popular version of the **glasses-free 3D video wall**. The video wall combines three 46” glasses-free 3D displays with ultra-thin bezel and advanced 3D lenticular technology, to deliver a spectacular 3D visual experience most suitable for advertising in shopping malls, at exhibitions and at tourist attractions to name a few. A much larger version is available for viewing at the MDL showroom in Hong Kong.

In addition, MDL will exhibit its **flagship 65” and 55” 4K3D glasses-free displays**. These displays feature ultra-high 4K resolution and a 3D viewing angle of over 120 degrees that enable the displays to deliver a magnificent detailed 3D image and video for a realistic experience.

MDL will also have on display its **glasses-free 3D smartphones and tablets**. These devices use the Android mobile operating system to support 3D pictures, 3D videos, 3D games and many other features that are offered in advanced smartphones. MDL’s portable 3D devices are uniquely designed to provide a total mobile solution with 3D glasses-free display capability for everyday use in entertainment, education and business, all in the palm of your hand.

The Directors are delighted to showcase and introduce MDL’s latest products to customers, partners and stakeholders who attend the CES. We look forward to meeting you there.
