PanTerra Gold Limited

ASX: PGI

LAS LAGUNAS GOLD/SILVER PROJECT FEED GRADES RETURNING TO NORMAL

PanTerra Gold Limited (ASX: PGI) advises that as previously foreshadowed, gold grades of feed to the Company's Las Lagunas process plant in the Dominican Republic are trending toward the average JORC Indicated Resource grade of 3.7g/t Au, with recent feed improving to within approximately 6% of this target.

Grades for the first five months of 2015 have been 25%-30% below the average Resource grade but based on drill cores low grades are not expected to be encountered in significant volumes for the remaining four year project life.
