30 June 2014

NEWCASTLE IRON RECOVERY PLANT **PROJECT UPDATE**

Austpac is close to finalizing project funding for the completion of the Newcastle Iron Recovery Plant.

This finance will provide, in conjunction with a major international company, funds to complete construction, installation, commissioning and production at Newcastle Iron Recovery Plant.

The company will make further announcements as documentation progresses.

For further information please contact:

About Austpac Resources N.L. (ASX code: APG)

Austpac Resources N.L. [\[www.austpacresources.com\]](http://www.austpacresources.com) is a minerals technology company currently focused on recycling waste chloride solutions and iron oxides produced by steel making to recover hydrochloric acid and iron metal. Austpac's technologies also transform ilmenite into high-grade synthetic rutile, a preferred feedstock for titanium metal and titanium dioxide pigment production. The Company has been listed on the Australian Stock Exchange since 1986.
