

ASX Release  
28 November 2016

## Decimal enters new commercial agreement

DECIMAL Software (ASX:DSX; “Decimal” or “the company”) has signed an agreement with another superannuation enterprise to provide access to its digital platform as part of a paid test and learn exercise.

The scope involves implementing a white-labelled solution for the enterprise’s customers to explore superannuation topics.

Decimal CEO Nic Pollock said the deal is testament to the change happening across the financial services sector.

“The continued emergence of the digital sector creates opportunities to address and significantly enhance the member experience and engagement.”

Decimal delivers digital advice solutions to some of Australia’s leading superannuation providers including Q Super, Energy Super and Mercer, while a project roll-out is also under way with Statewide Super.

The implementation of the latest project will commence immediately.

### About Decimal

Decimal is an Australian based company, which has developed the world’s first omni-channel, cloud based automated digital advice platform designed to operate with any existing product. The platform, which includes embedded compliance features, enables enterprises to provide consumer-driven automated financial advice and execution to the mass consumer market with global application.

Prior to now this has not been viable or technically possible, providing Decimal with a first mover advantage. Decimal partners with Financial Institutions of all sizes including banks, superfunds, credit unions, insurers, mortgage brokers and dealer groups to enable the execution of Financial Service advice via a seamless omni-channel solution – [www.decimal.com.au](http://www.decimal.com.au)
