

Armada Metals Limited - Rock Sampling Confirms Magmatic Sulphide Potential Extends for Over 60km at the Nyanga Project

Metal Tiger plc (AIM: MTR, ASX: MTR), the AIM and ASX listed investor in natural resource opportunities, is pleased to note the analysis of Armada Metals Limited ("Armada"), in which surface hand grab samples along the Ngongo-Yoyo Trend, extending 15km to 40km southeast of the Libonga-Matchiti Trend, has confirmed the presence of outcropping ultramafic intrusions with observed magmatic sulphides.

Following completion of Armada's IPO, Metal Tiger holds 15,000,000 Armada Shares, representing approximately 14.42% of Armada's enlarged share capital. In addition, Metal Tiger currently holds 3,333,333 options over Armada Shares, exercisable at a price of \$A0.334 with a 5-year validity after admission of the company to the official list of the ASX.

A link to Armada's announcement, released yesterday, is set out below:
