

ASX ANNOUNCEMENT (ASX:BLY)

2 March 2022

**BOART LONGYEAR'S POLISH MANUFACTURING PLANT COMPLETES
LARGEST ORDER IN FACILITY'S HISTORY**

Boart Longyear Group Ltd (ASX:BLY) (the Company or Boart Longyear) announces its manufacturing plant in Wroclaw, Poland completed the facility's largest order ever for twelve LF™ 160 drill rigs and FREEDOM Loaders to be delivered to Mitchell Services Limited, an Australian customer. The achievement included the coordination of teams in Poland, Australia, Germany, and the US.

Pat Nill, Boart Longyear's Vice President of Global Products, said, "We are very proud of what our Polish manufacturing team and local Australian teams have achieved, which required strong global coordination between the production, engineering, and R&D teams to meet our customer's specifications. The multiple teams truly embodied our corporate value of teamwork."

Boart Longyear's Wroclaw, Poland manufacturing team celebrate completing their largest order ever.

Focusing on the customer's needs, Boart Longyear's Adelaide-based sales team partnered with the Company's R&D teams in the US, Germany, and Poland and Polish manufacturing team to offer a highly customised version of the LF™ 160.

ASX ANNOUNCEMENT (ASX:BLY)

The LF™ 160 is a CE-certified surface coring drill rig. The FREEDOM™ loader is a hands-free rod loader increasing safety for drilling crews.

Jeffrey Olsen, President and Chief Executive Office

About Boart Longyear

Established in 1890, Boart Longyear is in its 132nd year as the world's leading provider of drilling services, orebody-data-collection technology, and innovative, safe and productivity-driven drilling equipment. With its main focus in mining and exploration activities spanning a wide range of commodities, including copper, gold, nickel, zinc, uranium, and other metals and minerals, the company also holds a substantial presence in the energy, oil sands exploration, and environmental sectors.

The Global Drilling Services division operates for a diverse mining customer base with drilling methods including diamond coring exploration, reverse circulation, large diameter rotary, mine dewatering, water supply drilling, pump services, production, and sonic drilling services.

The Geological Data Services division utilises innovative scanning technology and down-hole instrumentation tools to capture detailed geological data from drilled core and chip samples. This valuable orebody knowledge gives mining companies the ability to make timely decisions for more efficient exploration activities.

The Global Products division offers sophisticated research and development and holds hundreds of patented designs to manufacture, market, and service reliable drill rigs, innovative drill string products, rugged performance tooling, durable drilling consumables, and quality parts for customers worldwide.

Boart Longyear is headquartered in Salt Lake City, Utah, USA, and listed on the Australian Securities Exchange in Sydney, Australia (ASX:BLY).
