

Appendix 3B

Proposed issue of +securities

Information and documents given to ASX become ASX's property and may be made public.

If you are an entity incorporated outside Australia and you are proposing to issue a new class of +securities other than CDIs, you will need to obtain and provide an International Securities Identification Number (ISIN) for that class. For offers where the +securities proposed to be issued are in an existing class of security, and the event timetable includes rights (or entitlement for non-renounceable issues), and deferred settlement trading or a representation of such, ASX requires the issuer to advise ASX of the ISIN code for the rights (or entitlement), and deferred settlement trading. This code will be different to the existing class. If the securities do not rank equally with the existing class, the same ISIN code will be used for that security to continue to be quoted while it does not rank.

Further information on the requirement for the notification of an ISIN is available from the Create Online Forms page. ASX is unable to create the new ISIN for non-Australian issuers.

**Denotes minimum information required for first lodgement of this form, with exceptions provided in specific notes for certain questions. The balance of the information, where applicable, must be provided as soon as reasonably practicable by the entity.*
