Investor webinar: Mayur granted forest carbon concessions in PNG, paving pathway to ‘net zero’

Mayur Resources (ASX:MRL) via its 100% owned subsidiary Mayur Renewables PNG Limited has been granted its first forest carbon concessions in Papua New Guinea, demonstrating material progress on its commitment to achieve ‘net zero’ carbon emissions for its nation building projects in PNG.

Mayur’s Managing Director, Paul Mulder will highlight the significance of this announcement and how it will positively affect the future for both Mayur and PNG in this investor webinar.

The webinar is to be hosted next Thursday, 20 January 2022 from 10am AEST (11am AEDT). Attendees may submit questions to management during registration or via the webcast. A recording will also be made available following the event on the company’s website.

ABOUT MAYUR RESOURCES

Mayur Resources is focused on the development of natural resources in Papua New Guinea. Our diversified asset portfolio spans iron sands, lime and cement, battery minerals and renewable power generation. Mayur also holds a 43% interest in copper gold explorer/developer Adyton Resources, a company listed on the TSX-V (TSXV:ADY).

Mayur’s strategy is to serve PNG and the wider Asia Pacific region’s path to decarbonisation by developing mineral projects that deliver higher quality, lower cost, and “net zero” inputs for the mining and construction industries, as well as constructing a renewable energy portfolio of solar, wind, geothermal, carbon mitigation, and battery storage.

Mayur is committed to engaging with host communities throughout the lifecycle of its projects, as well as incorporating internationally recognised Environmental, Social and Governance (ESG) standards into its strategy and business practices.
