Dear Sir/Madam

### **MEDLAB EXECUTES NUTRACEUTICAL HEADS OF AGREEMENT**

- Heads of Agreement (HoA) with Randall Communications Pty Ltd T/A FeverMates executed to expand Medlab's nutraceutical business in new foreign and domestic territories.
- FeverMates will licence several of Medlab's existing nutraceuticals.

Medlab Clinical Limited (ASX:MDC) is pleased to announce a HoA has been executed with Randall Communications Pty LTD, trading as FeverMates to expand MDC's nutraceutical business to take advantage of new foreign and domestic opportunities.

FeverMates is best known for the global distribution of fever management and prevention products. They provide essential products such as stick-on thermometers, hand sanitisers and medical face masks. FeverMates sees value in expanding their commercial offerings to include several of the existing MDC nutraceuticals to the global market, inclusive of India and Eastern Europe.

Dr Sean Hall, CEO of MDC states, "the Randall Communications deal opens up international trade for MDC beyond our internal scope. FeverMates is a great established brand and we are honoured to work with them."

Mr Michael Randall, MD of Randall Communications, owners of FeverMates states, "FeverMates, a fast growing global brand, is delighted to work with MDC to assist Australians in need by bringing high quality, easily accessible and well-priced products to a larger market."

Dr Hall further adds, “it is clear both companies have a strong desire to work together.”

The HoA allows both companies to negotiate the financial and commercial terms to be included in a definitive commercial agreement specifying products, territories and market channels.

For and behalf of the Board.

Dr Sean Hall  
Managing Director
