About Aurelia

Aurelia Metals Limited (ASX: AMI) is an Australian mining and exploration company with a highly strategic landholding in the polymetallic Cobar Basin in New South Wales. We operate two wholly-owned gold and base metal operations – Peak Mine and Hera Mine – and two major processing plants possessing a combined capacity of approximately 1.3Mtpa.

Aurelia is a gold-dominant business. In FY19, we produced 117,521 ounces of gold at a group all-in sustaining cost (AISC) of A\$1,045 per ounce. Both the Peak and Hera cost bases benefit from substantial by-product revenue credits from base metal production (including zinc, lead and copper).
