Dear Sir/Madam

MEDLAB VIRTUAL SYMPOSIUM GOES LIVE THURSDAY, 9th JULY 2020

- Free research Symposium highlighting MDC research initiatives
- International cohort broadcasting to an international delegation
- No registration required; Q & A offered

Medlab Clinical Limited (ASX: MDC) is pleased to extend its forthcoming Virtual Research Symposium (9am Thursday, 9th July 2020) to investors as a way of updating the market.

Topics will encompass a number of our core research areas:

- the applications and distinctions of medicinal cannabis,
- the microbiome and its influences,
- and the significance and evidence of delivery platforms.

The Board believes that whilst the Symposium is geared towards healthcare professionals, a number of investors may benefit from understanding the science, research needs and medical trajectory.

Attendance to the Symposium is free and will be hosted by virtual means on Thursday, 9th July at 9:00am AEST. To view, log onto <https://www.medlab.co/symposium2020>

- A number of world class speakers, many who are involved in steering and guiding MDC research will take the virtual podium. Specific to this symposium will be the science behind NanaBis™, our lead cancer pain drug development program.

Due to the full day's agenda, and speakers from various parts of Australia and the USA, questions and answers will be offered via symposium2020@medlab.co. The Symposium will be broadcasted internationally.

To view, free of charge, log onto <https://www.medlab.co/symposium2020> at 9am AEST, Thursday 9th July, 2020, alternatively, you can view the symposium at either:

- <https://vimeo.com/427201918/d5f1d5ed9d>
- Or, https://www.youtube.com/channel/UCLZnBKwF4FpBd_1VNsX3xDA

For and behalf of the Board.

Dr Sean Hall
