eBay Motors partners with Escrow.com to make car buying safe, simple and secure

SAN FRANCISCO, California, 8 July 2020 - [Escrow.com](https://www.escrow.com), the leading provider of secure online payments, has partnered with [eBay Motors](https://www.ebay.com/motors), one of the world's largest marketplaces for all things automotive, to give buyers and sellers added security when trading used vehicles and vehicle parts online.

Escrow.com is integrated into both the eBay Motors website and mobile app, and users can select the digital payment option for both the website and new [eBay Motors app](https://www.ebay.com/motors/app), which launched in December 2019.

With Escrow.com as the chosen payment method on eBay Motors, funds are held safely in escrow while the vehicle is tracked and delivery is verified. Once the vehicle arrives and is accepted by the buyer, the transaction is closed out and the seller receives the proceeds of the sale, securely via Escrow.com. If there is an issue with the purchase, the vehicle can be returned to the seller and funds are returned to the buyer from their escrow account.

Buyers can inspect vehicles before the funds are sent to sellers to ensure vehicles are as described in the listing and protecting buyers from fraud. Sellers are protected from counterparty risk, allowing them to more safely reach more buyers in more locations, making it easier to transact securely over long distances.

Effective immediately, Escrow.com is available in the following categories on eBay Motors in the United States:

- | | | |
|----------------------------|---------------------|-------------------|
| - Cars and Trucks | - Exotic Cars | - Powersports |
| - Classic Cars | - Boats | - RVs and Campers |
| - Collector Cars | - Commercial Trucks | - Trailers |
| - Electric and Hybrid Cars | - Motorcycles | - Other Vehicles |

Several thousand listings have already been created on eBay Motors with Escrow.com as a payment option, with the first completed transaction being a 1931 Ford Model A for US\$10,000. Escrow.com enabled a secure sale when the vintage vehicle was sold by a seller in California to a buyer in New Hampshire - a distance of over 3,000 miles. Escrow.com allowed the 1931 Ford Model A to be inspected and approved by the buyer at the point of delivery while the funds were safe in escrow. The transaction has now completed successfully and paid to the seller.

Escrow.com's first transaction enabled secure delivery from California to New Hampshire

In the past, transactions over the Internet for valuable goods requiring delivery over a long distance could be complex and stressful for both the buyer and the seller. Selling a vehicle over a long distance is easy and safe through eBay with Escrow.com. Dozens of transactions have already been funded via Escrow.com for the purchase of sedans, SUVs, vans, motorcycles, trucks, classic and exotic cars, motorcycles, boats and electric vehicles.
