As announced on 26 April 2021, the Fund intends to commence making monthly distributions for the remainder of the Fund's financial year ending 30 June 2021 - as at the end of April, May and June 2021.

The Fund provides investment exposure to the performance of WTI crude oil futures, aiming to track the performance of the S&P GSCI Crude Oil Index Excess Return hedged into Australian dollars, before fees and expenses. The prices of WTI crude oil futures have increased significantly over the course of the financial year to date. As a result, as at the date of this announcement the Fund has realised substantial gains, which would be required to be distributed by the financial year end. The Fund therefore intends to make monthly distributions for the remainder of the financial year.

Importantly, the amount of any monthly distribution may vary significantly (up or down) from any other monthly distribution due to various factors, including material changes in the number of units on issue and in the prices of WTI crude oil futures contracts to which the Fund has exposure, and should not be used as an indication of the amount of any subsequent distribution.
