

## ASX RELEASE

23 September 2020

### Tinybeans qualified to trade on U.S. OTC Best Market

**Tinybeans Group Limited (ASX: TNY)** ("Tinybeans" or "the Company"), the technology platform that connects parents with the most trusted tools and resources on the planet to help every family thrive, is pleased to announce today that it has qualified to trade on the OTCQX Best Market. Tinybeans has now been upgraded to OTCQX.

Tinybeans Group Ltd. begins trading tomorrow (Sept 23) in the U.S. on OTCQX under the symbol "**TNYF**". U.S. investors can find current financial disclosure and Real-Time Level 2 quotes for the company on the [OTC Markets web site for TNYF](#).

Upgrading to the OTCQX Market is an important step for established international companies seeking to provide transparent trading for their U.S. investors. For companies listed on a qualified international exchange, streamlined market standards enable them to utilize their home market reporting to make their information available in the U.S. To qualify for OTCQX, companies must meet high financial standards, follow best practice corporate governance and demonstrate compliance with applicable securities laws.

The ASX remains the company's main listing with ongoing governance and disclosure requirements.

Tinybeans CEO, Eddie Geller, said:

*"We are excited to provide eligible U.S. investors with the opportunity to trade our shares in the American market. Trading on OTCQX provides sponsored real-time US Dollar quotes for U.S. investors, without the imposition of significant additional costs for the Company."*

*"We are thrilled to offer now our very large membership base in the U.S. an easier way to invest in the Company as we execute our growth strategy."*

This announcement was approved for release by the CEO.
