

30 April 2020

STOCKTON OPERATIONS RESUMED

Bathurst Resources Limited ("Bathurst") (ASX: BRL) advises that subsequent to the announcement on the 21 April 2020, the Stockton mine on Tuesday 28 April resumed operations. Around 100 employees are back onsite, with the first nightshift occurring overnight.

The additional safety measures followed by the domestic mine sites during New Zealand ("NZ") Government COVID-19 Alert Level 4 are being followed at Stockton. It is expected these will continue across all sites until the NZ Government ceases the use of the COVID-19 Alert Levels.

Authorised for release on behalf of the board of directors of Bathurst.
