8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: Current level of net operating cash flows has been impacted by the recent volatility and decrease in commodity prices (Gas, Oil, & LPG) as a result of COVID-19. The Company is implementing a range of measures in response to this which include:

1. The Company has initiated a range of corporate cost reduction initiatives including a reduction in salaries and fees, payments in shares, minimisation of field expenditures and administration costs and overheads as per the Company's ASX release of 27 April 2020.
2. Deferral of planned development activities.
3. Accessing State and Federal incentives to assist cashflow including JobKeeper payments, ATO PAYG measures, rent reduction strategies / negotiations with landlords.

Development (capitalised) spend of \$4.054 million for the last quarter has been included in the net cash used in operating activities (Item 1.9). The estimated quarters of funding available excluding this is 1.45. The estimated Development spend for the current quarter will be materially less than the prior quarter.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes, the Company has previously announced its intention for a capital raising by way of an Entitlements Offer. It is intended that the Entitlements Offer will be underwritten. The Company is also actively seeking farm-in partners for aspects of its portfolio. The Company recently entered into a farm-out transaction with Santos in relation to some of its Northern Australian tenements. The Company received an upfront payment from Santos of \$15 million and may receive further cash payments of up to a further \$15 million in total, if further conditions are satisfied.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, on the basis that the capital raise together with the other cost reduction and funding initiatives will enable the Company to undertake a modest 2020 work Program, fund its operations and meet its business objectives.
