EXPANSION OF PLANTATION AREA

- **Commencement of works to expand 133 hectares of plantation area**
- **Brought forward development by 6 months**
- **First harvest from new plantation area targeting December 2017**

Jiajiafu Modern Agriculture Limited (ASX:JF) is pleased to advise that the expansion work for an additional 133 hectares of leased plantation area has commenced targeting completion by the end of June 2017. On completion of land development the Company will construct 135 new greenhouses and supporting facilities such as irrigation systems and roads. Plantation of fruit and vegetable products will commence in October 2017 with first harvest targeting December 2017.

The expansion was originally planned towards the end of 2017 however the Company has decided to complete the land development before the wet season starts in July and gain an additional production cycle for its crops.
