**Megaport Launches Cloud Partnership With Alibaba  
Megaport Limited**

**Brisbane, AUSTRALIA, 16 May 2017** Megaport (Singapore) Pte Ltd, a subsidiary of Megaport Limited (ASX: MP1) ("Megaport"), the leader in global Software Defined Networking (SDN), today announced that it has entered into a partnership with Alibaba Cloud, the cloud computing arm of Alibaba Group (NYSE:BABA). The partnership will provide enterprises with direct and scalable access to Alibaba Cloud via the Megaport global SDN.

**Key Points / Highlights:**

- From a single global account, Megaport customers can cut down latency and deploy globally on Alibaba Cloud's network of cloud regions.
- Alibaba Cloud's customers will be able to access Megaport's global network in more than 20 major markets in Asia Pacific, North American, and European regions with 150 points of presence.
- Alibaba Cloud will extend its edge closer to enterprises, provide consistent network performance for its customers, and expand its direct access capabilities around the world.

"Megaport's extensive global footprint is strengthened by our partnership with Alibaba Cloud," said Vincent English, Chief Executive Officer of Megaport. "Direct, dedicated access to Alibaba Cloud's services adds value to our platform. This partnership enables customers globally to directly access services from the leading cloud provider based in China. Partnering with China's largest public cloud provider aligns with our strategy to enrich our Ecosystem and provides greater service options for our customers."

**About Megaport**

Megaport is the global leading provider of Elastic Interconnection services. Using Software Defined Networking (SDN), the Company's global platform enables customers to rapidly connect their network to other services across the Megaport Network. Services can be directly controlled by customers via mobile devices, their computer, or our open API. The Company's extensive footprint in Australia, Asia Pacific, North America, and Europe, provides a neutral platform that spans many key data centre providers across various markets.

Established in 2013 and founded by Bevan Slattery, Megaport built the world's first SDN-based Elastic Interconnection platform designed to provide the most secure, seamless, and

on-demand way for enterprises, networks, and services to interconnect. Led by Vincent English, Megaport has been built by a highly experienced team with extensive knowledge in building large scale global carrier networks and connects over 670 customers throughout its 150 data centres in 37 cities across 19 countries. Megaport is an Alibaba Cloud Technology Partner, Oracle Partner, Amazon AWS Technology Partner, Microsoft Azure ExpressRoute Partner, and Google Cloud Interconnect Partner.
