

Hungry Harvest and GetSwift sign exclusive partnership

GetSwift Limited (ASX: GSW) ('GetSwift' or the 'Company'), the SaaS solution company that optimises & streamlines delivery logistics worldwide, is pleased to announce that it has signed an exclusive multiyear partnership with Hungry Harvest in the USA.

Hungry Harvest has partnered with GetSwift to offer its group the ability to manage their last mile deliveries and logistics.

The exclusive partnership will allow Hungry Harvest to access an affordable best in class logistics platform to dispatch, track and route customer orders in a highly complex operating environment.

Hungry Harvest currently delivers in Maryland, DC, Northern Virginia, Philadelphia, South New Jersey and surrounding areas. Some of the established network partners include KPMG, Pandora, Deloitte, American Heart Association, Urban Outfitters, One Table and Johns Hopkins among others.

"This latest partnership demonstrates the validity of the strategy the company has undertaken over the last year and a half and is continuing to pursue rapidly – namely the ability to be the global choice in a SaaS logistics platform regardless of where, what or how big the business may be. We do not have any geographic or sector limitations – we are completely agnostic in terms of industry or region. With that in mind the demand in larger markets outside Australia continues to accelerate" - Executive Chairman of GetSwift, Bane Hunter said.

About GetSwift Limited

Technology to optimise global delivery logistics

GetSwift Limited is a global technology company listed on the Australian Securities Exchange, with offices in New York, Sydney and Melbourne, Australia.

Offering a best in class software-as-a-service solution (SaaS), GetSwift's proprietary technology and its unique and powerful algorithm supports a user-friendly interface. Designed for use across any industry and in any country, GetSwift streamlines an organisation's logistics, optimising delivery routes, automating the delivery dispatch process and providing real-time tracking alerts for both the sender and the receiver, via mobile devices.

GetSwift's platform optimises its client's delivery business, minimising costs, increasing sales and improving customer satisfaction. Offering its customers scalability, stability, security and sustainability, GetSwift's offering is revolutionising the logistics business and is currently utilised by clients in over 61 countries and 475 cities.
