New Zealand King Salmon (NZX and ASX:NZK) Fish Performance Update

The Board of New Zealand King Salmon Investments Limited provides an update on fish performance following the FY18 summer period.

As forecast in our interim results announcement on 1 March 2018, the summer has been particularly challenging for fish survival due to extremely warm water temperatures. Since then, temperatures have fallen back to normal, cooler levels following the arrival of autumn. Fish performance metrics have been consistent with the forecast noted in our interim results announcement. Fish harvest volumes expected for FY19 therefore remain in line with the previously advised level at around 8,000mt.

About New Zealand King Salmon

New Zealand King Salmon is the world's largest aquaculture producer of the premium King salmon species. We operate under our four key brands: Ōra King, Regal, Southern Ocean, and Omega Plus, as well as the New Zealand King Salmon label. We have been growing and selling salmon to consumers for more than 30 years. Today we employ around 500 people. More information can be found at www.kingsalmon.co.nz
