Contract awarded with FieldCore, a GE company

The Directors of Site Group International ("Site", ASX: SIT) are pleased to announce the contract award from FieldCore, a GE Company, for the development of their Global Competence Framework, comprising job competence profiles, job task profiles, performance and assessment criteria, covering their global technical workforce including the Africa, Asia/ Australia, Europe, North and South America continents. FieldCore is the field technical services company for GE Power globally. The project covers a target workforce of over 10,000 technical personnel including technicians, supervisors and management levels working in Power Services, Aero, Oil and Gas, Renewables sectors.

Vern Wills, CEO and Managing Director, Site Group International said, "This award complements our drive in the international market around competency and skills framework developments for both Corporations and Countries alike. It flows on from projects like the Singapore government's Skills Framework for Energy and Chemicals recently completed by Site and further enhances Site's reputation as a leader in this field."

Phil Costelloe, CEO of Site Group International Pte Ltd, Singapore, whose team will drive this project, said, "This is a significant award and further evidence of our co-creation approach of working with our customers to understand their needs and to develop, review, discuss and tailor a specific scope of work to suit. This award is aligned with our Competence Assurance Support Services (CASS) that we are offering to the oil, gas and energy industries worldwide, which enables Site Group International to support its customers with their local and national workforce development initiatives and programs."

The Award is in addition to the current training agreement in place with FieldCore for training at our Clark facility. Phase 1 of this project is circa \$USD 500K over 6 months and provides the platform for further phases to be developed and delivered including structured Gap Analysis and Gap Closure activities.
