ASX RELEASE

DroneShield Assigned a NATO Stock Number for DroneGun

- DroneShield's DroneGun MKII has been assigned a NATO Stock Number, following a request by the United States Department of Defense.
- NATO militaries now able to purchase DroneGun MKII "off the shelf".

DroneShield Ltd (ASX:DRO) ("DroneShield" or the "Company") is pleased to announce that its DroneGun MKII product has been assigned a NATO Stock Number (NSN) 5865-66-164-5197.

An NSN is a 13-digit numeric code, identifying all the "standardised material items of supply" as they have been recognised by all NATO countries including United States Department of Defense, and allows for any each of the 29 NATO militaries to purchase DroneGun MKII on a "military catalogue" basis, significantly simplifying the procurement process.

The NSN was assigned following a request for such assignment from the United States Department of Defense.
