9 Spokes completes paid workshops as a part of Evaluation Agreement with a Top Five US bank as it progresses business development

Auckland, NZ 27 April, 9 Spokes (ASX: 9SP or “the Company”), the leading Marketplace and Insights company to small businesses, is pleased to announce it has successfully completed a series of workshops for a top five US Bank (“US Bank”), as part of an Evaluation Agreement. The workshops were in support of the development of the US Bank’s small business ecosystem. 9 Spokes advises it has invoiced the US Bank for the workshops.

The workshops 9 Spokes completed for the US Bank are an important step of the ongoing business development program that the Company has committed to in the North American market. The US Bank had requested the workshops from 9 Spokes to assist in designing a technology solution for the Bank’s small and medium sized business customers.

The Company is pleased progress is being made with the US Bank with a view to forming a longer term relationship following the completion of the workshops. However, as the discussions with the US Bank are ongoing, there is no certainty that they will result in any longer term relationship, including the conclusion of a broader contract.

9 Spokes will provide the market with a further update once there is a material change.

About 9 Spokes

The 9 Spokes smart dashboard enables SMEs to connect their software to one dynamic interface - giving them a clear overview of their business. It allows management and advisors to access data and new metrics across key areas, from any device at any time. With these insights, it's easier to make the big and small decisions to manage and grow a business.

Businesses can integrate their supported software into the dashboard as well as choose from a selection of recommended and accredited apps to suit their industry.

The smart dashboard from 9 Spokes is available as a direct model to small businesses and as a white labelled platform that Banking Partners can offer to their SME customer base.
