4. as at the date of this notice, there is no 'excluded information' of the type referred to in sections 708AA(8) and 708AA(9) of the Corporations Act; and
5. information regarding the potential effect of the issue of New Shares pursuant to the Offer on the control of the Company, and the consequences of that effect, is set out below.

Effect of the Offer on control

The effect and consequence of the issue of New Shares under the Offer on the control of the Company is dependent on a number of factors, including investor demand.

Given the structure of the Offer as a pro-rata offer, if all eligible shareholders of the Company take up their Entitlements, the ownership interest (and voting power) in the Company of each eligible shareholder of the Company will remain largely unchanged and the effect on the control of the Company will be negligible. In these circumstances, the voting power of KMP, the Company's largest shareholder (with an interest in the Company prior to the Offer of approximately 31.69%), will remain at approximately 31.69%.

To the extent that any eligible shareholder of the Company fails to take up their Entitlement, the percentage holding in the Company of that eligible shareholder of the Company will be diluted by those other eligible shareholders of the Company who take up some, all or more than their Entitlements. Depending on the percentage of Entitlements taken up (**Take-Up**), KMP's voting power in the Company may also increase. This is shown in the following table which sets out KMP's voting power in the Company immediately following completion of the Offer in various Take-Up scenarios.

KMP's current voting power in the Company ¹	KMP's voting power in the Company immediately following completion of the Offer ²		
	100% Take-Up ³	67% Take-Up	39.66% Take-Up (~\$6 million minimum raise)
31.69%	31.69%	34.06%	36.31%

1 On the basis that there are 567,291,863 fully paid ordinary shares in the Company on issue as at the date of this notice.

2 Assumes (a) that in a 100% Take-Up scenario, 151,277,830 New Shares are issued under the Offer; and (b) KMP takes up its Entitlement in full.

3 KMP holds 179,811,776 fully paid ordinary shares in the Company as at the date of this notice.

If no eligible shareholders of the Company (other than KMP, who have committed to take up their respective Entitlements in full) take up their Entitlements (which the board of directors of the Company considers unlikely), then the Offer will not proceed because the minimum raise of \$6 million would not have been achieved. The voting power in the Company of ineligible foreign shareholders of the Company will be diluted.
