

# Quarterly Report

For the quarter ending 30 June 2024

30 July 2024

[platinaresources.com.au](http://platinaresources.com.au)

**Platina's vision is to become a leading exploration company by exploring our high-potential projects and leveraging cutting-edge technology, innovative strategies, and the knowledge of our highly skilled technical team.**

**Shareholder value is created by advancing these projects through exploration, feasibility, and permitting, and monetising through either sale, joint venture or development.**

**Commitment to sustainable and responsible practices ensures the long-term prosperity of local communities, and the preservation of the environment and cultural heritage in the areas we operate.**

## Highlights

- Large extension of oxide gold mineralisation confirmed at the Xanadu Project in Western Australia.
- Maiden aircore drilling program completed at Beete Project across 202 holes totalling 6,325m.
- Potential for receipt of final milestone payment of US\$2.0 million and return of US\$1 million warranty guarantee from sale of scandium project#.

### Post Quarter

- First milestone payment of ~ A\$6 million received from the sale of the scandium project.
- Platina's cash position after receipt of milestone payment was approximately A\$13 million.

# Completion subject to Rio Tinto Ltd achieving project milestones – see ASX release, 28 April 2023.

# Projects

## Xanadu Gold Project

Ashburton Basin, Western Australia

**The 100% owned Xanadu Gold Project is located in Western Australia's Ashburton Basin in close proximity to Kalamazoo Resources' Mt Olympus gold deposit (currently subject to a potential acquisition by De Grey Mining for \$30 million).**

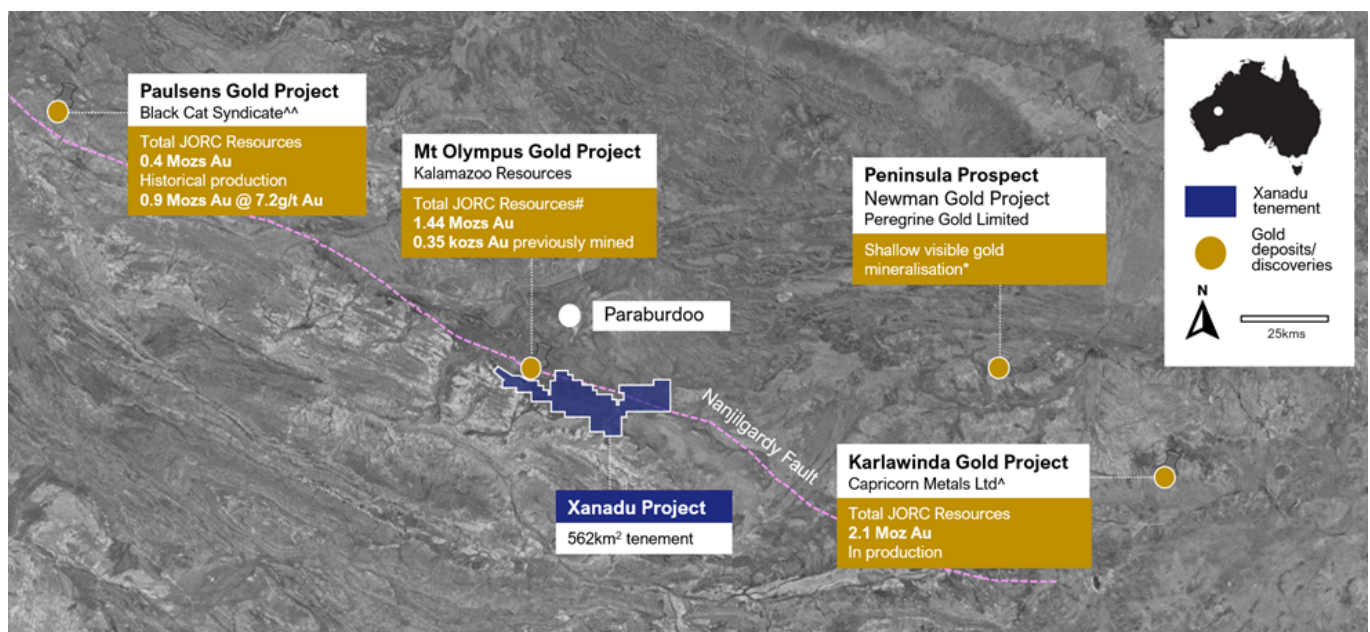

During the first quarter, a total of 15 reverse circulation (RC) holes for 2,186m tested and confirmed an 8km-long gold mineralised corridor within a regional scale structural setting at Xanadu's western tenements (Xanadu West).

The campaign at Xanadu West tested the Amphitheatre West extension, the Claudius prospect, and areas of strong arsenic in rock chip anomalies at Pompeii (See Figure 2).

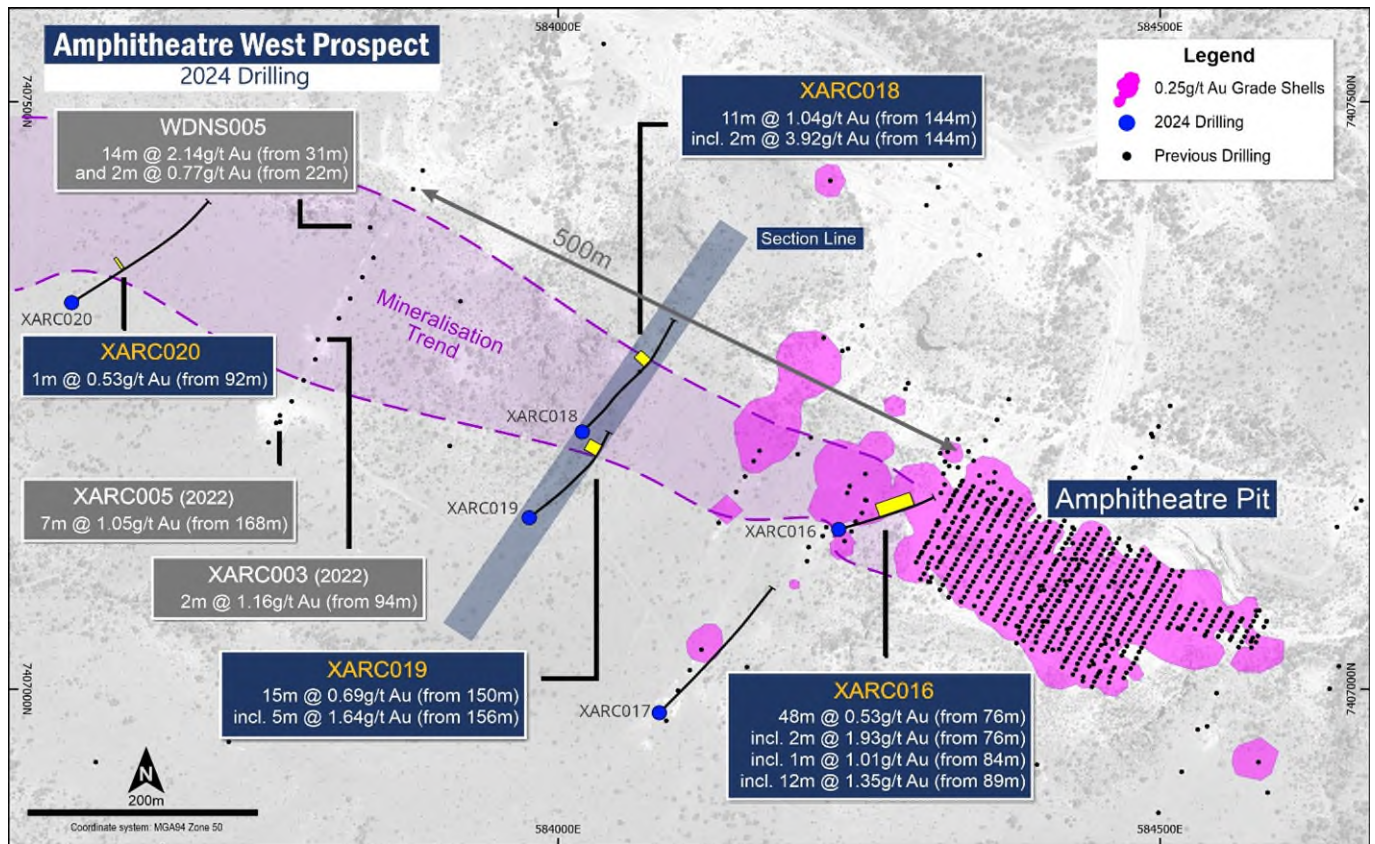

Assay results were reported during the quarter, confirming Xanadu West's potential to host a large zone of oxide mineralisation, with extremely encouraging intercepts showing mineralisation extends a further 500m west of the historical Amphitheatre pit and is still open down dip and along strike to the west.

Oxide gold mineralisation was intersected in three out of five holes drilled at the Amphitheatre West prospect, including:

- **48m @ 0.53g/t Au** from 76m (incl. **2m @ 1.93g/t** from 76m & **1m @ 1.01g/t** from 83m & **12m @ 1.35g/t** from 89m) in XARC016
- **11m @ 1.04g/t Au** from 144m (incl. **2m @ 3.92g/t** from 144m) in XARC018
- **15m @ 0.69g/t Au** from 150m (incl. **5m @ 1.64g/t** from 156m) in XARC019

**Figure 1.** The Xanadu Project lies within a regional scale structural setting – 1.44Moz Au nearby.

**Figure 2.** Map showing a plan view of the RC holes drilled at the Amphitheatre West prospect in February 2024.

The holes at Amphitheatre West were drilled on a 200m spacing, following up on the encouraging results (7m @ 1.05g/t & 2m @ 1.16g/t) from Platina's 2022 RC drilling at the prospect.

Platina's priority now is to test deeper airborne electromagnetic (AEM) and induced polarisation (IP) targets (Figure 3) with up to four holes as soon as a diamond rig becomes available to try and unlock the deeper sulphide potential of the system. Difficult ground conditions prevented the "Xanadu Deeps" targets from being tested during this RC campaign.

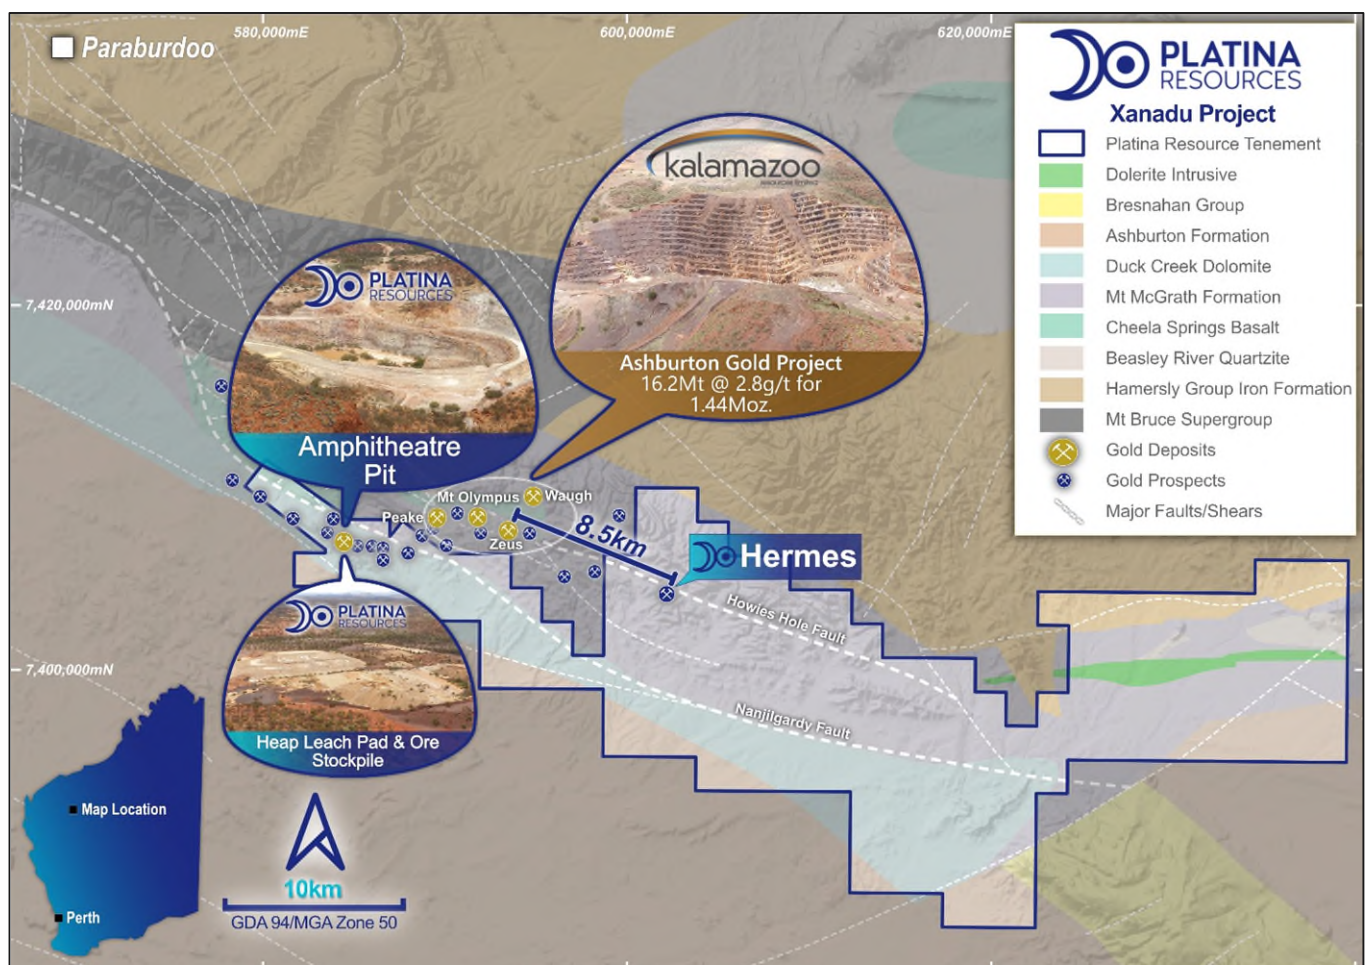

**Figure 3.** Geophysical targets at Xanadu Deeps

The remaining 10 holes in this round of drilling also covered geophysical targets at Cleopatra South and Big Bend as well as exploration and extension drilling at Pompeii and Claudius, respectively.

It is planned that the abandoned RC holes for the AEM and IP targets will now be drilled with a diamond drill rig, subject to availability. Along with the re-drill from surface of these RC holes, a further two more diamond holes at Cleopatra and Big Bend will be drilled as diamond tails extending the RC holes from the 2022 drilling program. Heritage clearances and POWs are already in place for this program.

Further geological mapping and rock chip sampling will be carried out at Hermes South zone in Q3. Along with this a wide scale soil sampling program will also be carried out on the eastern tenements of the Xanadu project in Q4.

**Figure 4.** Map showing the Xanadu Project Location with interpreted regional geology underlain by google satellite image.

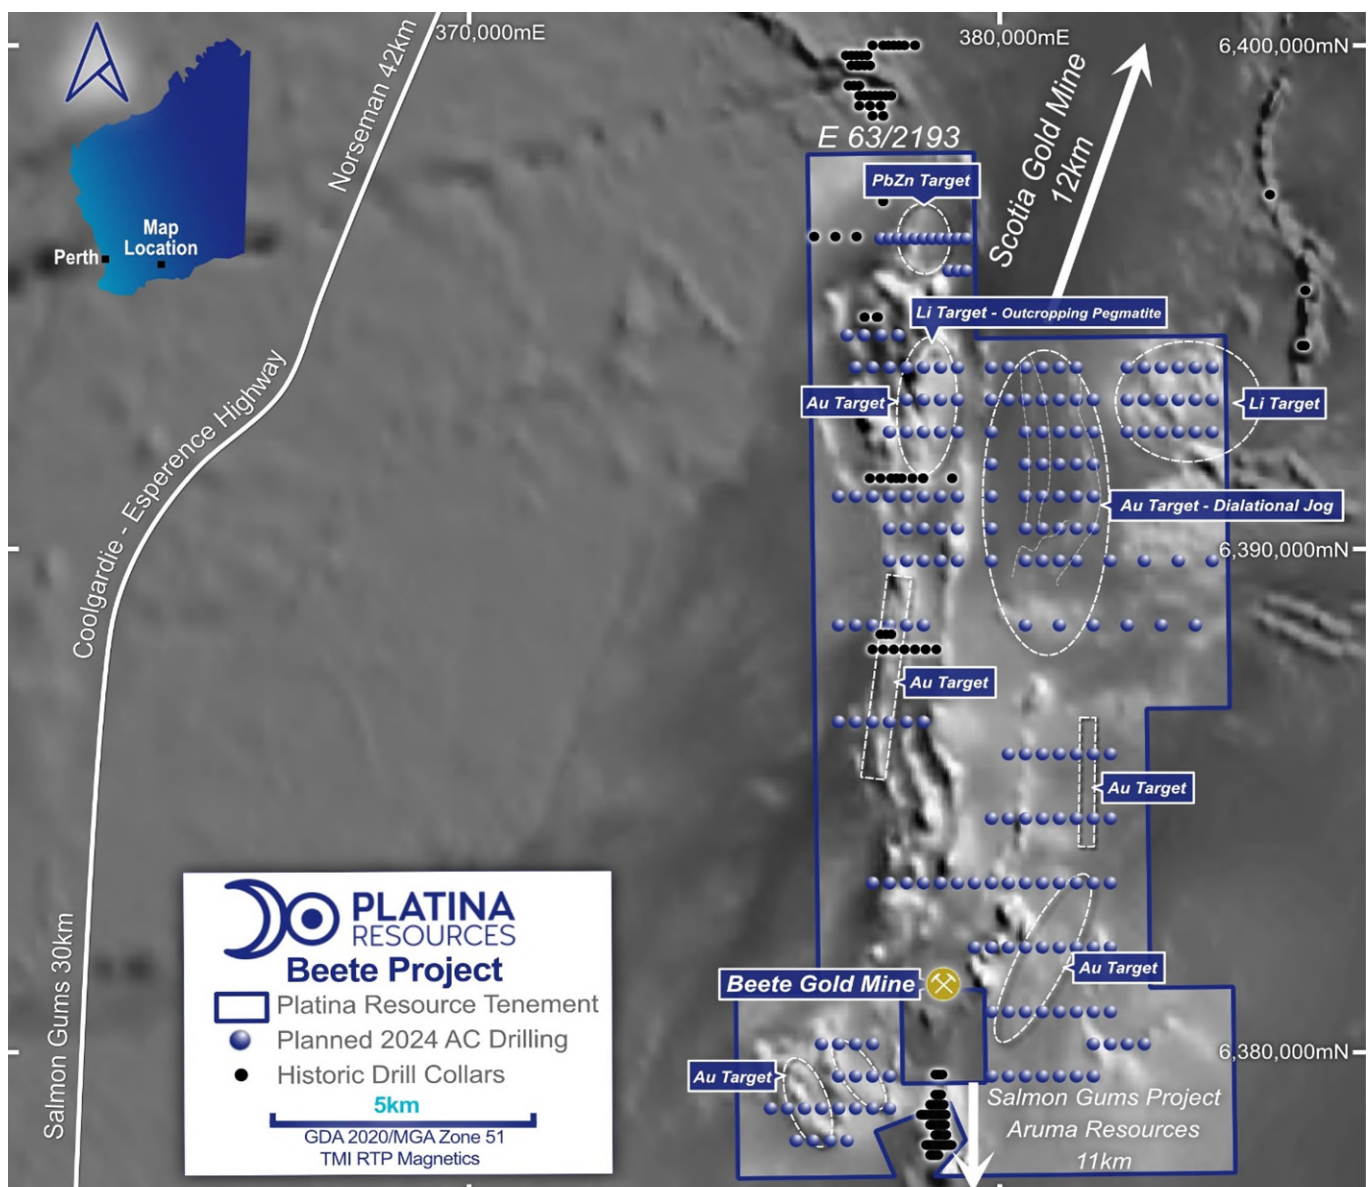

## Beete Gold Project

Eastern Goldfields, Western Australia

**The Beete Gold Project is located in a historical high-grade mining district near Norseman, and 10km south of the Scotia gold deposit. Recent gold discoveries to the south highlight the region's significant potential.**

Platina completed a maiden aircore drilling program at Beete during the quarter. The program comprised a total of 202 holes totalling 6,325m. More than 2,000 assay results are expected in August 2024.

Beete covers 134km<sup>2</sup> within what is believed to be a possible extension of the Norseman greenstone belt, a prolific gold producing region. The area has not historically been systematically explored. The projects gold, nickel and lithium potential remains hidden under a shallow blanket of cover and the drilling was designed to test for bed rock anomalies using targets generated through soil sample analysis and geophysical interpretations.

**Figure 5.** Map showing planned aircore drilling at Platina's Beete Project highlighting zones of interest and target areas. Underlain by GSWA's reprocessed - Total Magnetic Intensity (80m) 1VD of WA v1, 2020.

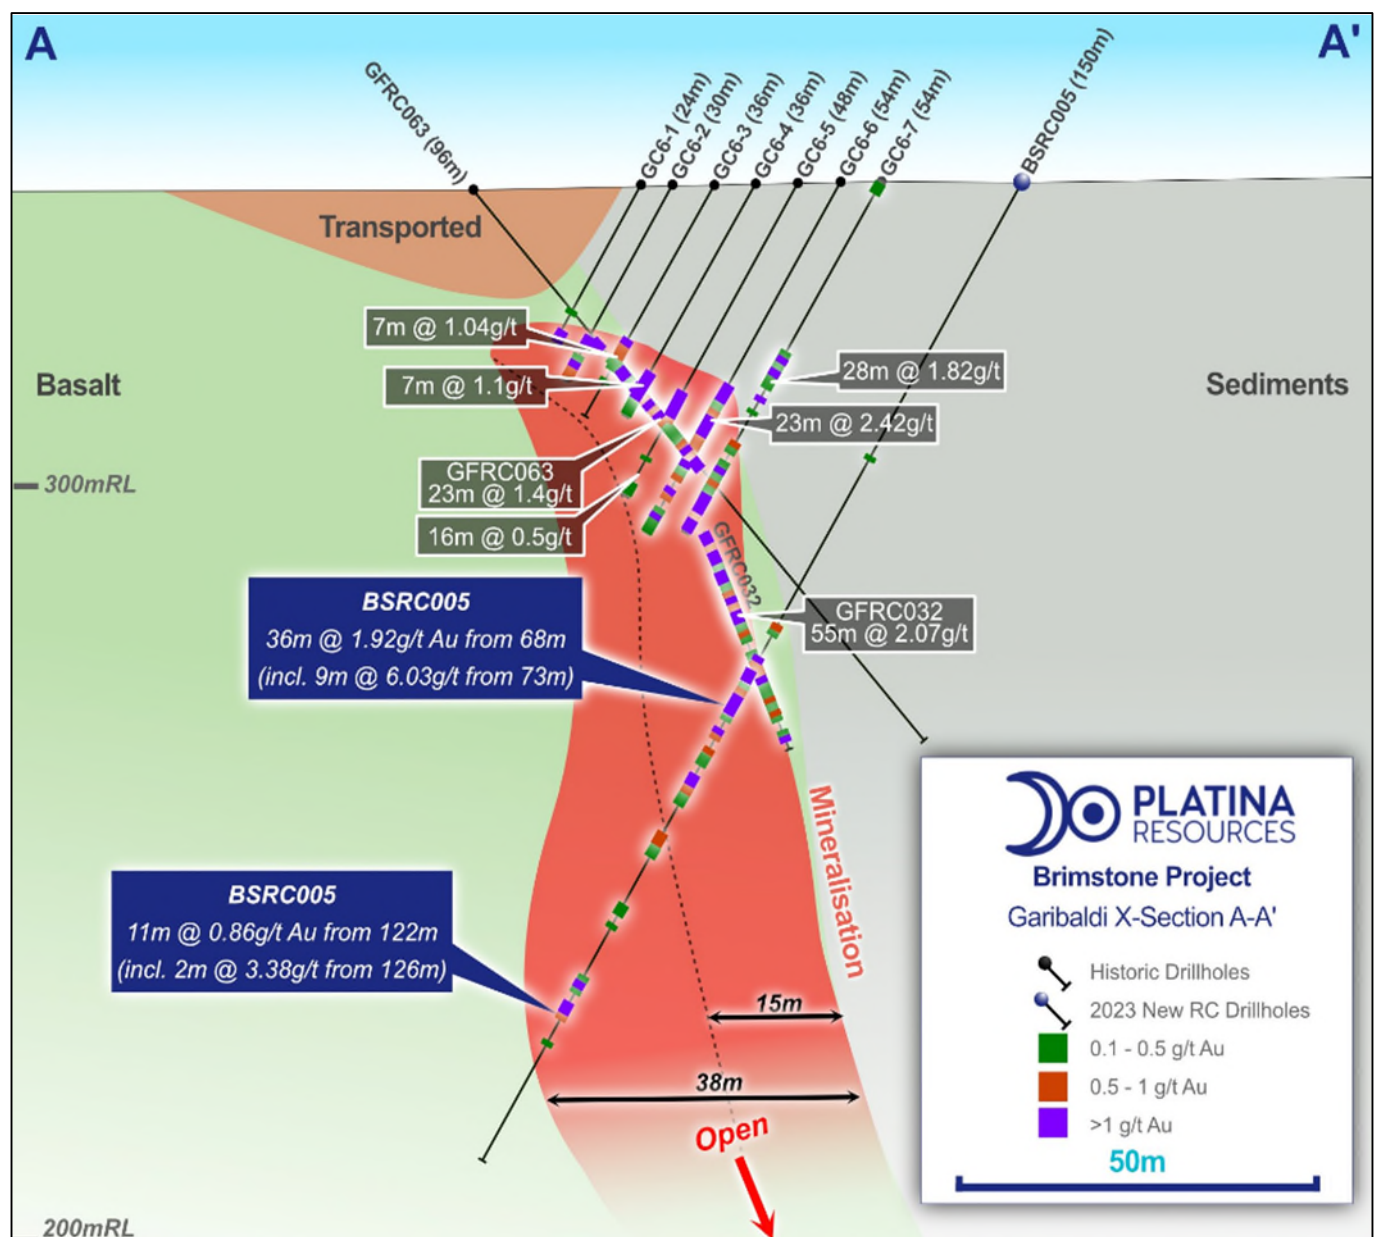

### Brimstone Project

Eastern Goldfields, Western Australia

The Brimstone Gold Project covers 70km<sup>2</sup> and is located 40km north-east of Kalgoorlie within a proven gold district in close proximity to the Penny's Find gold deposit and 25km from the Kanowna Belle gold mine.

Further drilling is required at Brimstone to expand the size of the Garibaldi deposit and test the strike and depth potential of Brandy and the southern tenements which still require cultural heritage clearances.

Apart from rehabilitation of pads and tracks no field work was carried out in the reporting period.

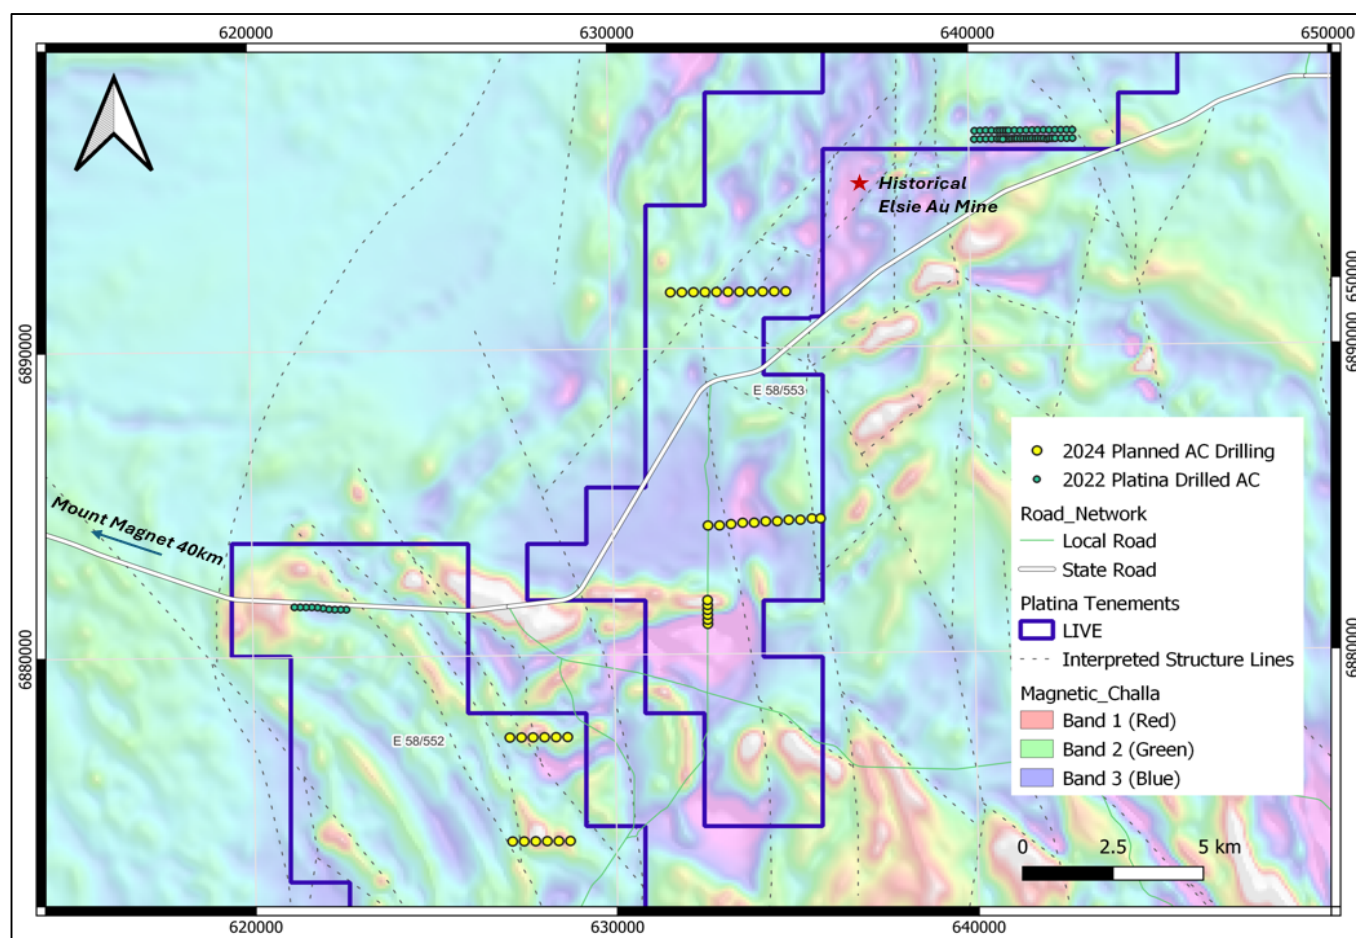

**Figure 6.** Cross section showing BSRC005 drill hole from Garibaldi along with the interpreted geology and mineralisation envelope. Section Limits +/-5m. New 2023 assays in blue and historical in grey are significant RC intersections (minimum of 0.1g/t Au cut-off with maximum consecutive length of 4m internal dilution and >1gram x m)

## Challa Project

Yilgarn Craton, Western Australia

**The Challa Gold Project is located in-between the prolific Mt Magnet and Sandstone gold districts in Western Australia, 500km north-east of Perth.**

Plans are underway to complete the remainder of the aircore drilling program at Challa which was previously suspended due to bad weather. The aim of this drilling program is to define and prioritise bedrock targets for future RC drilling. The remaining program will comprise approximately 40 holes for a total of 2,000m (see Figure 7).

**Figure 7.** Location of the planned Q3 2024 AC Drill Collars and 2022 Platina drilled AC collars over Total Magnetic Intensity (80m) over WA v1 image.

### **Binti Binti Project**

Eastern Goldfields, Western Australia

**Binti Binti comprises two Exploration Licences located approximately 50km north-east of Kalgoorlie and 30km west of Northern Star's Carosue Dam Gold mine. Never explored, the area once thought to be granites has been re-interpreted as a potential greenstone prospect.**

No site work was carried out in the reporting period.

### **Jubilee Project**

Yilgarn Craton

**Jubilee is located within the prolific gold producing Yilgarn Craton, 15 kilometres east of Meekatharra.**

The previous Mining Act objection holding up the application grant process was withdrawn on 11 July 2024. The tenement application is now subject to the native title notification process under Section 29 of the Native Title Act 1993. The company is now in the process of negotiating suitable agreements with the relevant native title parties and is confident that agreement can be achieved by the Section 29 closure date of 22 Sept 2024. Once agreements are finalised, the application will return to the mining registrar for final assessment prior to grant, and company expects to be able to commence exploration activities at that time.

### **Mt Narryer Project**

Eastern Goldfields, Western Australia

**The Mt Narryer Gold Project covers 211km<sup>2</sup> and is an Earn-in Joint Venture with Chalice Mining Limited (Chalice, ASX: CHN). Located in the western Yilgarn Craton, a prodigious gold and base metal producing province and home to many successful mining operations.**

No site work was carried out in the reporting period.

# Corporate

## Cash and Investments

At the end of the June 2024 quarter, Platina had \$7.55 million in cash and tradeable equity investments valued at A\$0.16 million, including:

- Blue Moon Mining (TSXV: MOON, 0.6 million shares, value A\$0.023 million)
- Nelson Resources (ASX: NES, 11.8 million shares, value A\$0.035 million)
- Alien Metals (AIM:UFO, 42 million shares, value A\$0.098 million)

In addition, Platina owns 49 million shares in unlisted, Major Precious Metals Corp.

## Receipt of US\$4 million milestone payment

Subsequent to the end of the quarter, Platina announced the receipt of its first milestone payment of A\$6 million<sup>1</sup> from the sale of the Platinum Scandium Project to Rio Tinto, which follows the receipt of A\$10.8 million in cash in August 2023 for the project<sup>2</sup>.

Platina's cash position is now approximately A\$13 million and may also receive future cash payments up to A\$4.5 million<sup>1</sup>, subject to Rio Tinto achieving project permitting milestones and return of its warranty retention bond.

## ASX Additional Information

ASX Listing Rule 5.3.1: Exploration and Evaluation Expenditure (capitalised and expensed) during the quarter was \$473,000. Full details of exploration activity during the quarter are set out in this report.

ASX Listing Rule 5.3.2: There were no substantive mining production and development activities during the quarter.

ASX Listing Rule 5.3.5: A total of \$124,675 was paid to related parties during the quarter comprising the Managing Director's salary and Non-Executive Director fees. During the quarter, HopgoodGanim, a legal firm of which director, Mr Brian Moller is a partner was paid legal fees of \$5,380.

---

<sup>1</sup> Payments from Rio Tinto have been converted at an exchange rate of A\$/US\$ 0.67

<sup>2</sup> See ASX release dated 10 August 2023 "Platina receives \$10.8 million from sale of the scandium project"

### ASX releases during the quarter

The following announcements were lodged on the ASX Market Announcements Platform during the quarter:

Date	Description
23 May 2024	Beete maiden aircore drilling program commences
30 April 2024	Investor Presentation - Just Stocks
4 April 2024	Extension of oxide gold mineralisation confirmed at Xanadu

These announcements are available for viewing on the Company's website at [platinaresources.com.au](https://platinaresources.com.au).

### References to previous ASX releases

The information in this report that relates to exploration results were last reported by the company in compliance with the 2012 Edition of the JORC Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves in market releases dated as follows:

- 9 Nov 2023 Garibaldi mineralisation extended and new targets identified.
- 4 April 2024 Extension of oxide gold mineralisation confirmed at Xanadu.

The company confirms that it is not aware of any new information or data that materially affects the information included in the market announcements referred to above and further confirms that all material assumptions underpinning the exploration results contained in those market releases continue to apply and have not materially changed.

**This announcement has been authorised by Mr Corey Nolan, Managing Director of Platina Resources Limited.**

**For further information, please contact:**

**2. Mining tenements acquired and disposed of during the quarter and their location.**  
NIL

**3. Beneficial percentage interest held in farm-in or farm-out agreements at end of the quarter and beneficial percentage interests in farm-in or farm-out agreements acquired or disposed of during the quarter.**

Tenement ID	Area	Location	Ownership	% Ownership
E09/2704	Mt Narryer South	WA, Australia	PGM	100*

\* Under the terms of the binding farm-in agreement, Chalice will initially earn a 51% interest in the Project by spending A\$600,000 over two years including a minimum spend of \$150,000 in the first year. Chalice can then earn an additional 24% interest by spending a further \$1.8 million over the following two years. Platina would then continue to be free cost carried to completion of a Pre-Feasibility Study.

-

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

## Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7. <b>Financing facilities</b>		<b>Total facility amount at quarter end \$A'000</b>	<b>Amount drawn at quarter end \$A'000</b>
<i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i>			
<i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>			
7.1	Loan facilities	N/A	N/A
7.2	Credit standby arrangements		
7.3	Other (please specify)		
7.4	<b>Total financing facilities</b>		
7.5	<b>Unused financing facilities available at quarter end</b>		
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8. <b>Estimated cash available for future operating activities</b>		<b>\$A'000</b>
8.1	Net cash from / (used in) operating activities (item 1.9)	(735)
8.2	Payments for exploration & evaluation classified as investing activities (item 2.1(d))	-
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(735)
8.4	Cash and cash equivalents at quarter end (item 4.6)	7,556
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	7,556
8.7	<b>Estimated quarters of funding available (item 8.6 divided by item 8.3)</b>	<b>10.28</b>
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>		
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A.		
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A.		
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: N/A.		
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>		

**Compliance statement**

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed and has been authorised for release by the Board.

Date: 30 July 2024

Authorised by: The Board

**Notes**

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
