Gathid Ltd – ASX:GTH – Correction to Appendix 4C and Quarterly Activities Report

Gathid Ltd (formerly RightCrowd Limited) (“Gathid” or the “Company”) is a leading developer of identity governance management software.

The Company released its Appendix 4C and Quarterly Activities Report on 12 January 2024. Two typographical errors have been identified and have been corrected in the attached.

The corrections update the year-to-date column in the Appendix 4C to read 6 month period (from July to December 2023) and not 3 months as previously stated and amend the closing date of the transaction for the sales of the RightCrowd business lines to correctly read 21 September 2023 and not 2013 as stated Quarterly Activities Report.

This announcement has been approved for release by the Board of Directors.

Gathid FY24 Q2 Quarterly Activities Report, Business Update and Appendix 4C

Gathid Ltd (formerly RightCrowd Limited) (“Gathid” or the “Company”) is a leading developer of identity governance management software and until 21 September 2023 was also a leading global developer of physical security, safety, and compliance software (this was within the divested RightCrowd business). The Company is pleased to provide its Quarterly Activities Report in conjunction with the release of the Appendix 4C – Quarterly Cash Flow Report for the period ended 31 December 2023.

Summary: *(All figures are unaudited and expressed in AUD unless stated otherwise)*

- The RightCrowd, Workforce Access, Visitor Management and Presence Control businesses were sold to Bloom RC Holdings (Bloom) on 21 September 2023 for \$13.5m. Gathid has retained the SaaS-based earlier-stage, Gathid Software (formerly Access Analytics) to focus on the rapidly growing, global Identity Governance and Cyber Security markets.
- The sale of the business included sale of the financial and other systems and processes used by the Company at the time of sale, The Company’s focus areas in Q2 FY24 were: -
 - Working through the completion process outlined in the Share Purchase Agreement with Bloom in relation to any adjustments for Net Debt, Net Working Capital or any other adjusting items. This process is taking all the time allowed by the Agreement.
 - Implementing new internal processes and systems to be used as the basis for continued growth of the new organization.
 - Developing sales teams and processes to rapidly expand sales pipeline for opportunity closure from Q3 FY24 onwards.
- The Appendix 4C report for Q2 contains cash inflows and outflows for the Gathid business only, and not the combined Gathid and RightCrowd businesses, as was the case in Q1.
- Once completion adjustments (if any) have been determined in relation to the sale of the RightCrowd businesses to Bloom, the Company will be in a position to properly consider the capital available to it and the extent to which any capital management initiatives can be pursued.
- The Company’s sales revenue in Quarter 2 was \$0.138m (up from \$0.13m in the prior Quarter), reflecting the first sale of Gathid Software since completing the divestment transaction. The Company also has a number of late-stage opportunities about to enter into trials.

- ARR closed at \$0.62m, up from \$0.57m at the end of last Quarter. The pipeline for new Gathid software opportunities strengthened and the value of qualified sales opportunities has substantially increased since the beginning of the Quarter.
- The Company closed the period with a cash & cash equivalents balance of \$9.5m.

Sales - Go To Market Activity:

- The closing of the new customer in Q2 increased the company's ARR to over \$600k. The new customer is a large subsidiary of a global conglomerate. The conglomerate operates in 17 countries, with in excess of 20,000 employees and headquartered in South East Asia. Gathid sees an opportunity to expand its footprint within the wider organization.
- In October Gathid was showcased at Cybercon Melbourne, Australia's largest Cyber Conference (attended by approximately 5,000 cyber professionals). The conference generated awareness of our transition from physical security to Identity Governance and generated pleasing sales opportunities, specifically in Australia.
- During the Quarter, the Company hired Ollie Kwan, an experienced Vice President of Sales to cover the Asia Pacific and Middle East territories. Ollie has significant experience in growth-company sales strategy as well as implementation of sales processes and channel sales across these regions. This hiring has already started to increase pipeline and market engagement in these territories.
- As part of the channel sales strategy to supplement our own direct sales strategy, the Company signed 4 partner agreements to increase the sales reach of the company in the Hong Kong, Singapore, New Zealand and Middle East markets. The Company is currently training these partners to enhance their effectiveness in creating sales opportunities.

The new partners are:-

- Master Concept (HK) Ltd – Hong Kong – Technology services and cloud advisory - <https://hkmci.com/>
- Cybercarm Ltd – Middle East – Cyber Security Consultancy - <https://www.cybercarm.com/>
- Complete Solution Finder Pte Ltd – Singapore – Cyber Security Distributor – <https://www.csfinder.com/>
- Bluechip Infotech Pty Ltd – NZ and Pacific Islands – IT / Technology solutions - <https://www.bluechipit.com.au/>
- Gathid partnered with KPMG in Hong Kong to run an invitation only event to discuss ways of helping organisations to continue the drive to improve identity governance in the face of current economic headwinds. This event was attended by 15 CISO / CIOs of major Asian companies and sales leads have arisen from these conversations. The success of this event has led KPMG to invite Gathid to run a similar event in Singapore in late January 2024.
- Focus has continued on the Company's digital marketing campaigns. The management team is encouraged by the increased sales pipeline that has been identified through this go-to-market plan, and the efforts of the direct and channel partner sales teams.

Other:

- Costs are being carefully managed to focus on the key strategic growth objectives. During the quarter, spending was within the budget. Administration and corporate costs in Q2 were impacted by the payment for company insurance policies (\$355k), mostly one-off, and by legal and professional fees, relating to both the closure of the divestment transaction and the ongoing Gathid business.

Gathid CEO and Managing Director, Peter Hill, said:

"In Q2, we've achieved a successful transition from physical security to Identity Governance. The divestment of RightCrowd and the rebrand to Gathid has allowed us to focus on the rapidly growing global markets in Identity Governance and Cyber Security.

We successfully migrated our customer base to the new Gathid infrastructure and our recent showcase at Cybercon Melbourne and strategic collaborations, including with KPMG, have created quality sales opportunities.

The market momentum we have achieved in a short period, positions us well for growth throughout 2024. "

Related Entities: Payments to related entities during the Quarter were \$0.137m which represented the Managing Director and Executive Director's remuneration and fees paid to the Board of Directors of Gathid.
