

ASX Announcement

30 September 2024

Peter Hall elects not to join OncoSil Board

Sydney, Australia – 30 September 2024: Pancreatic cancer treatment device company **OncoSil Medical Limited (ASX:OSL)** (“OncoSil” or “the Company”) refers to the announcements on 15 July 2024 and 30 August 2024 regarding the proposed appointment of Peter Hall as Non-Executive Director.

Peter has advised that, due to the personal family issues mentioned in the prior announcement, he has reluctantly decided that he will no longer join the board of OncoSil.

The Board respects Peter’s decision and wishes him and his family well.

Peter Hall said, ‘Regrettably, for personal reasons I am unable to join the OncoSil Board of Directors. I wish the company every success in commercialising this important treatment to the benefit of patients suffering from pancreatic cancer which we all know is an insidious disease with a poor prognosis.’

About OncoSil Medical

OncoSil Medical Limited (ASX:OSL) has developed a cancer treatment device, the OncoSil™ brachytherapy device, which is a critical component of a revolutionary brachytherapy treatment for locally advanced unresectable pancreatic cancer. This type of cancer is the 12th most common cancer in men and the 11th most common cancer in women across the globe, with some 500,000 new cases of pancreatic cancer detected every year. With pancreatic cancer typically diagnosed at a later stage, it has a poor prognosis for long-term survival¹.

The OncoSil™ device delivers a targeted intratumoural placement of Phosphorous-32 (³²P) in the treatment of locally advanced unresectable pancreatic cancer. This occurs via injection directly into a patient’s pancreatic tumours under endoscopic ultrasound guidance and takes place in combination with gemcitabine-based chemotherapy.

The OncoSil™ device that has already received breakthrough device designation in the European Union, United Kingdom and United States for the treatment of locally advanced unresectable pancreatic cancer in combination with chemotherapy. CE Marking has additionally been granted for the OncoSil™ device, which can be marketed in the European Union, United Kingdom.

While clinical trials involving the OncoSil™ device continue to occur, the Company is simultaneously moving to commercialise this unique medical technology. It is currently approved for sale in 30+ countries including European Union, United Kingdom, Türkiye and Israel, with initial commercial pancreatic cancer treatments using the device already undertaken in Spain, Italy and Israel.
