ASX and NZX Release

19 June 2024

Ventia awarded new On-Demand Business Deployment Module with NBN Co

Ventia has been awarded an important new contract with NBN Co that is expected to deliver more than \$100 million in revenue to Ventia over the next 3 years.

Under the new On-Demand Business Deployment Module, Ventia's work will comprise the design, survey and construction of **nbn**'s full fibre technology to business premises in large parts of Victoria, Queensland, NSW and Tasmania.

The scope of this Business Deployment Module encompasses the installation of new **nbn**[®] broadband infrastructure to locations or premises where demand arises to facilitate service access to business or enterprise customers. Fibre technologies include Enterprise Ethernet, gigabit-capable passive optical network (including **nbn**[®] Select and Technology Choice) and Smart Places non-premises locations products.

Ventia's Group Executive – Telecommunications, Mark Ralston said: "Ventia has been delivering the On-Demand Module (ODM) scope for **nbn** since the program's inception in 2012 and is currently delivering the largest ODM work volume for **nbn** nationally".

"We are proud of our longstanding, strategic partnership with NBN Co," said Mark. "Ventia has the national presence and proven ability delivering large-scale projects such as this one. We look forward to continuing our collaboration with NBN Co and redefining service excellence, utilising our client-focused, innovative and sustainable approach."

Works will commence in October 2024.
