# Discovery driven value creation

High-potential, exploration projects in a premier gold jurisdiction, providing an opportunity for significant share price upside leverage to **discovery success**

**Place**

Premier mining jurisdiction in WA with Tier One discovery opportunities

**People**

Experience in project appraisal, exploration, acquisitions and feasibility studies

**Projects**

Large tenement package targeted for its gold potential

**Payments**

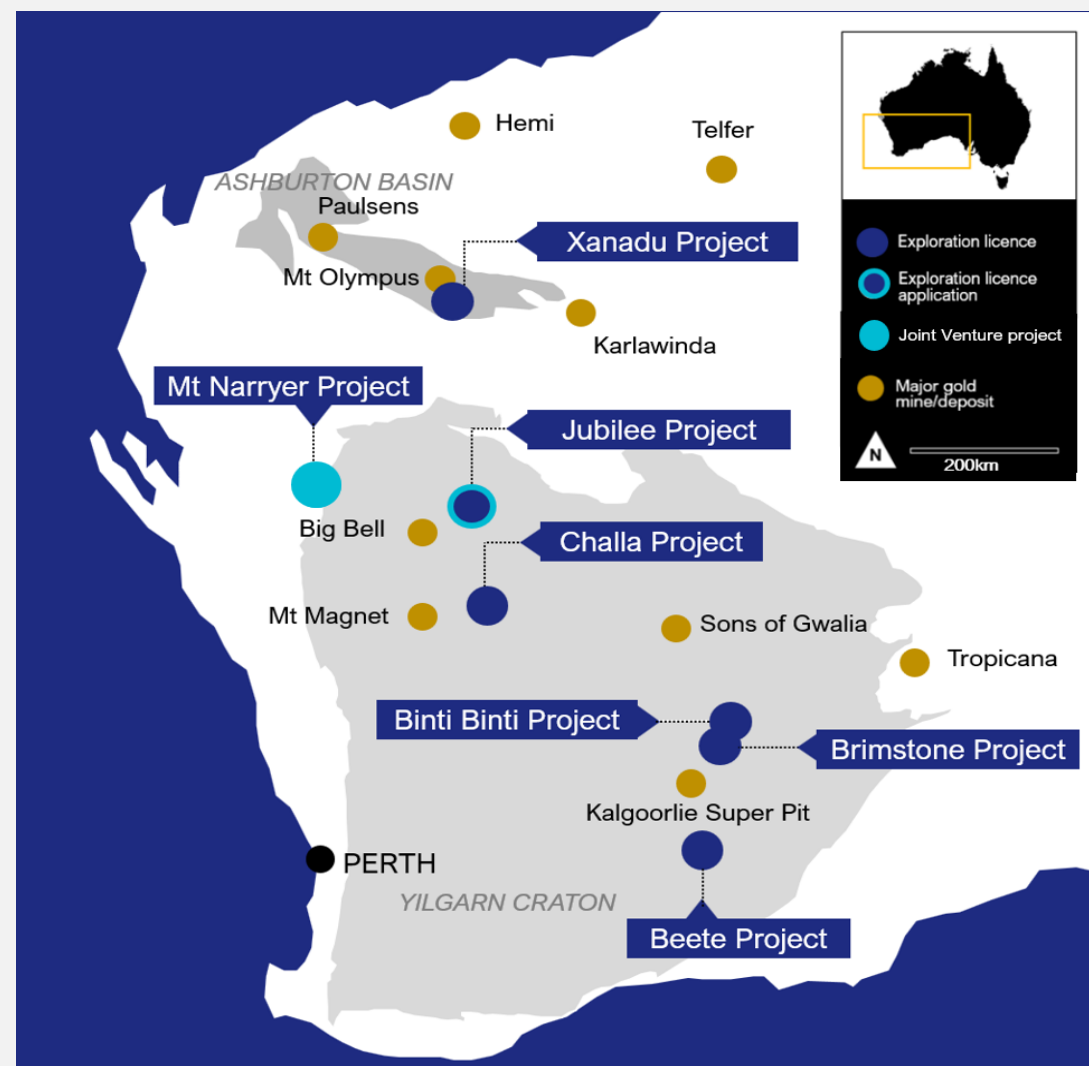

Well-funded with A\$8.3 million in cash and potential milestone payments of A\$10.7m.

# High potential gold projects in WA's premier districts

Discovery Driven  
Value Creation

- Focused on premier mining jurisdictions in Western Australia – Yilgarn Craton and Ashburton Basin
- Tier one discovery opportunities
- Sophisticated drilling capabilities
- World-class infrastructure

Tenement package  
**1,487km<sup>2</sup>**

# Our executive team has a track record of discovery success

Discovery Driven  
Value Creation

## PROJECT

### Beete

### Xanadu

### Brimstone

## LOCATION

42km south of Norseman  
Norseman Greenstone Belt, Yilgarn Craton

29km south of Parabardoo  
Ashburton Basin

40km north-east of Kalgoorlie  
Eastern Goldfields, Yilgarn Craton

## TARGET COMMODITIES

Gold, Nickel and Lithium

Gold

Gold

## NEARBY PROJECTS

Norseman Gold Project  
Scotia Mining Centre

Mt Olympus Deposit

Penny's Find Deposit,  
Kanowna Belle Mine

## DRILLING STATUS

2QCY24 AC Drilling

3QCY24 DD Xanadu Deeps

Planning for next steps underway

# Beete Project

## Gold, lithium and nickel potential

Discovery Driven  
Value Creation

**Located 10km south of 1Moz Scotia Mining centre and north of the Salmon Gums discovery**

PLACE

PEOPLE

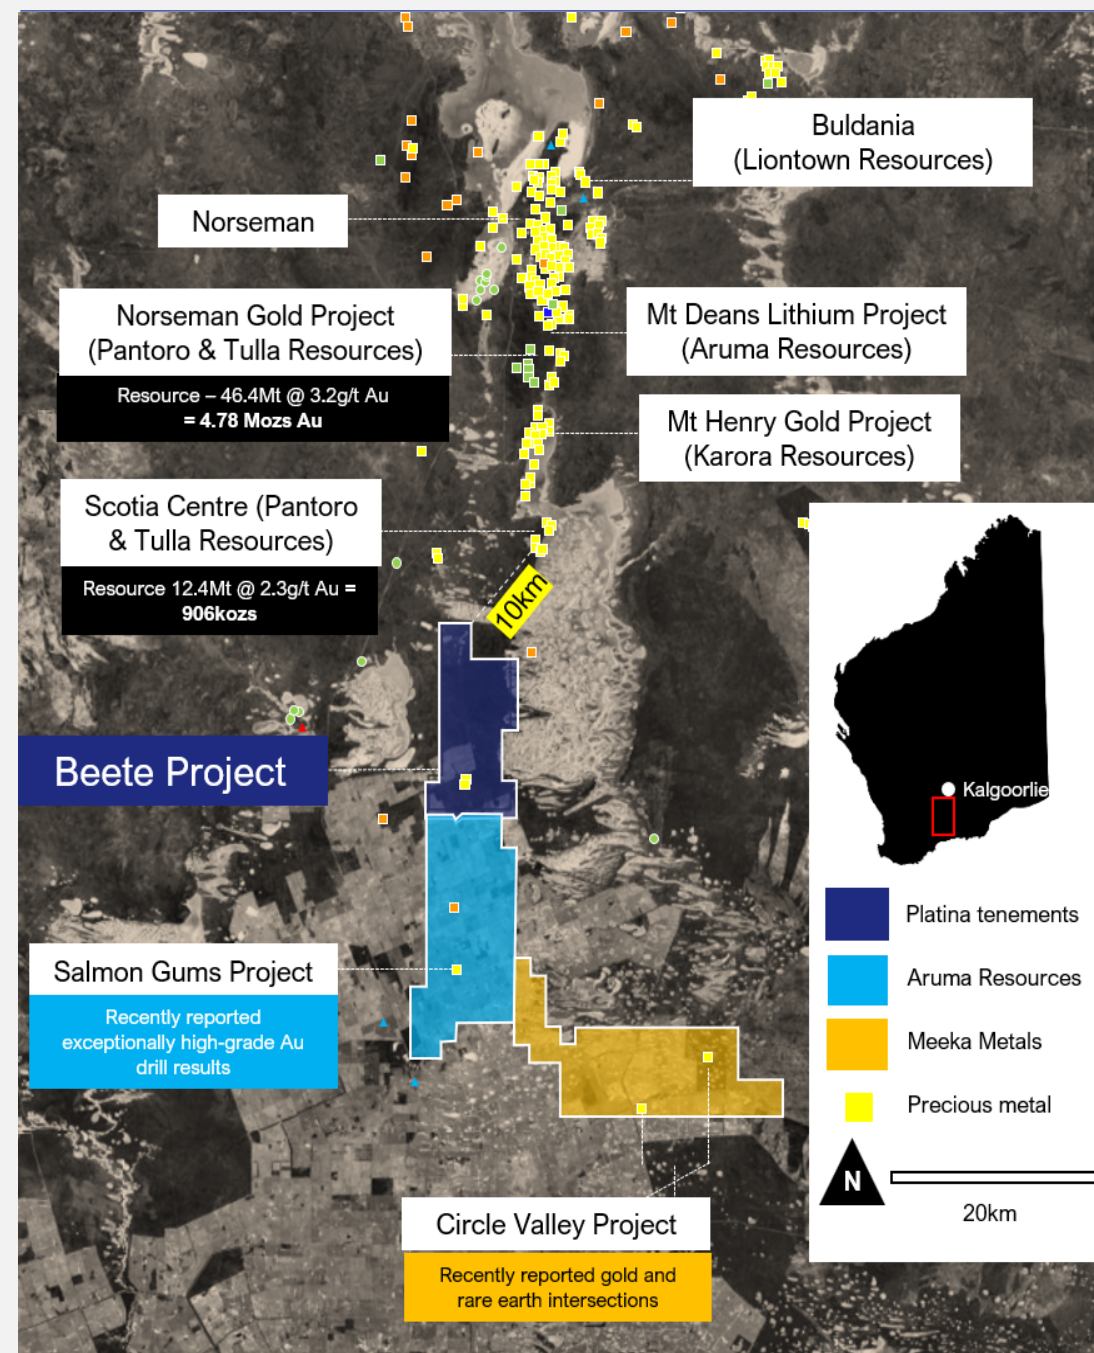

PROJECTS

PAYMENTS

- Possible extension of Norseman Greenstone Belt - +5Moz historical gold production
- 10km from 1Moz Scotia Mining Centre
- Historical mining district with a number of high-grade gold mines
- Additional prospectivity for nickel and lithium in the district

Tenement package

**134km<sup>2</sup>**

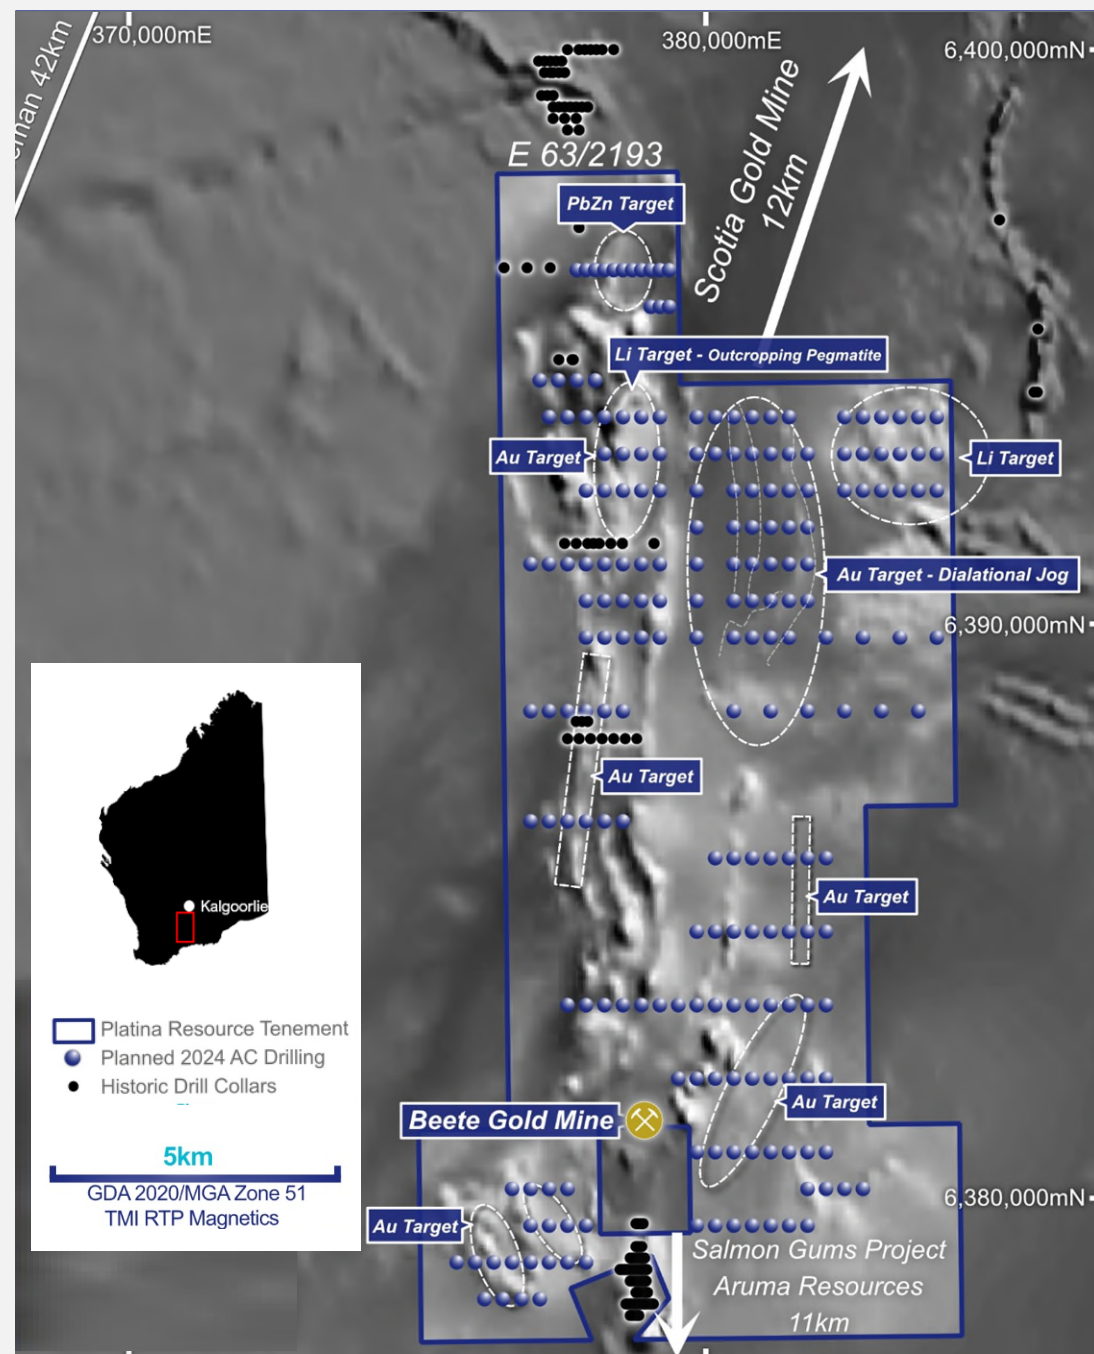

# Beete Project

## Gold, lithium and nickel potential

Discovery Driven  
Value Creation

### Maiden aircore drilling program planned in May 2024

- Cultural heritage surveys completed
- Tenement wide aircore drilling program planned to intercept geophysics and geochemical targets
- RC drilling planned around the extension of the Beete Mine following mine structures – 4QCY24

# Xanadu Project

## Gold target near 1.4Moz resource

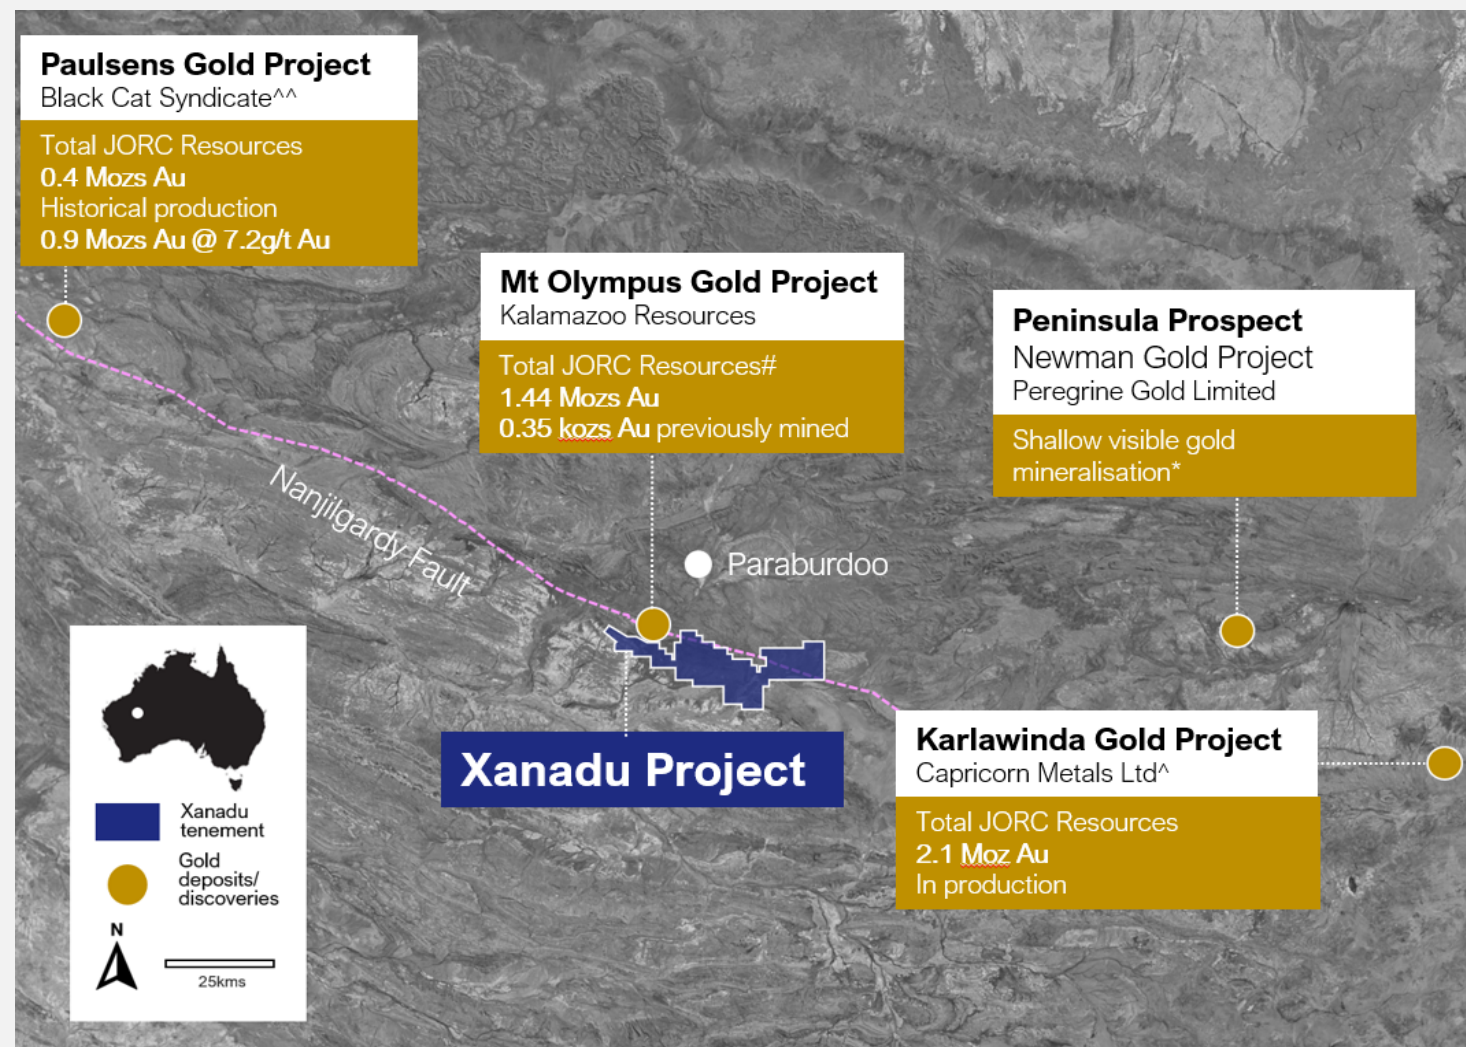

Tenement package  
**554km<sup>2</sup>**

Discovery Driven  
Value Creation

## Regional scale geological setting adjacent to million-ounce resource

- Located on the 470km Nanjilgardy fault zone and its splays
- Number of multi-million gold discoveries on the trend – adjacent to 1.44Moz Mt Olympus deposit
- De Grey Mining (DEG) have an option to acquire Mt Olympus for \$30 million\*
- Flanks Pilbara Craton - hot spot exploration destination following Hemi (De Grey Mining) discovery

# Xanadu Project

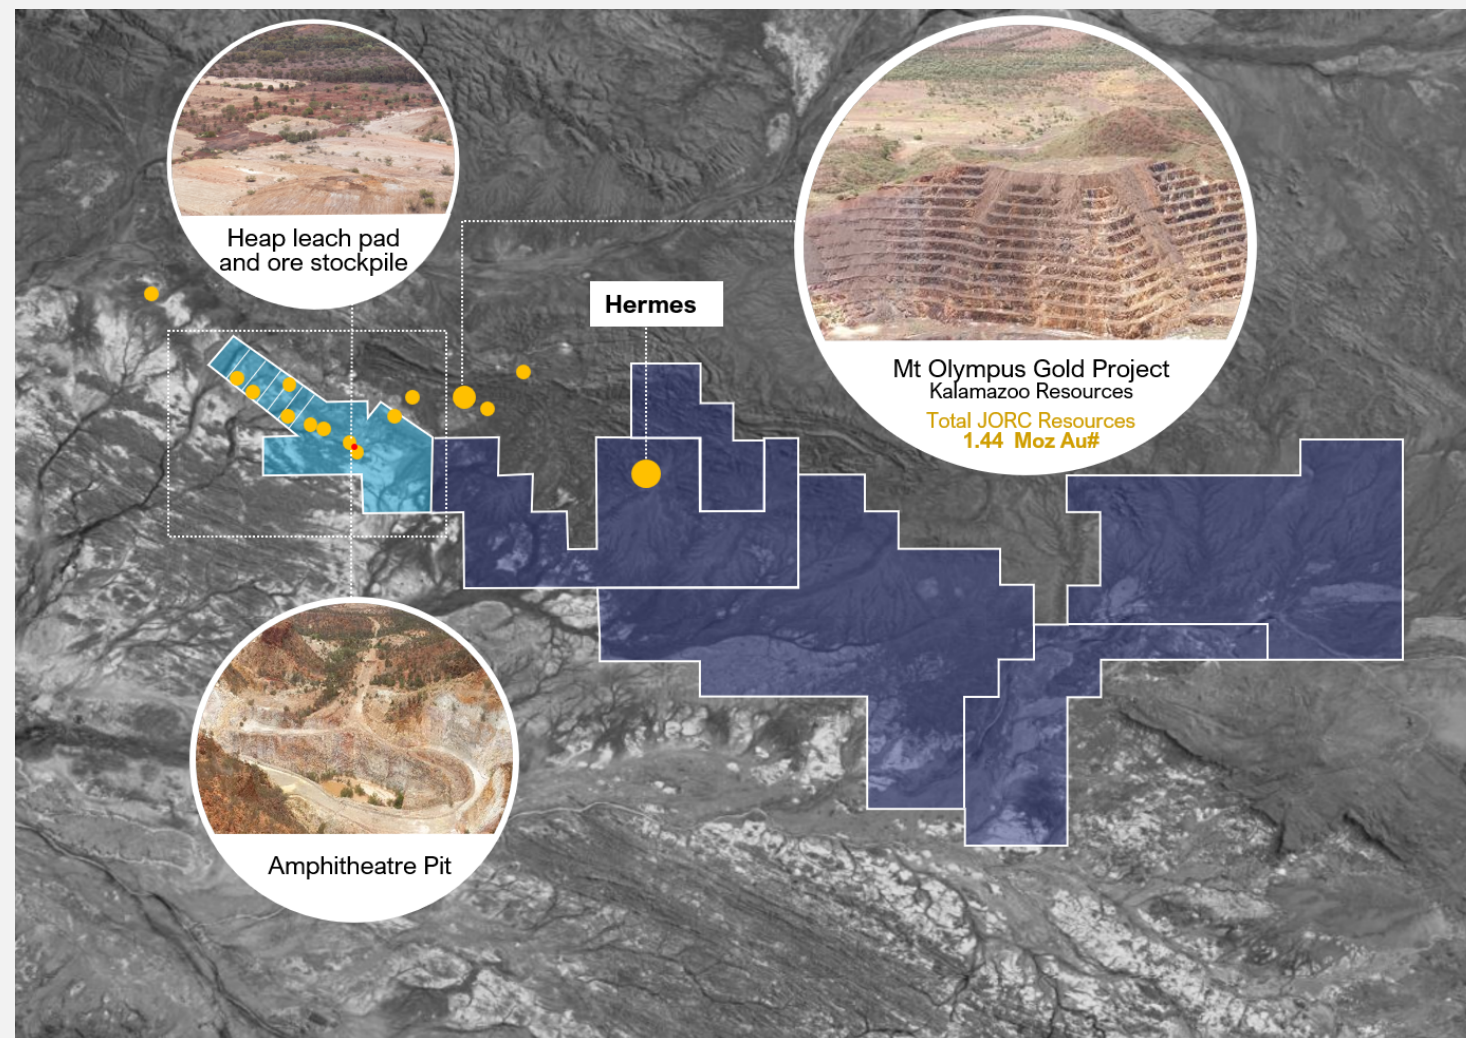

## Gold target near 1.4Moz resource

Discovery Driven  
Value Creation

### Systematic exploration program to test full potential required

- Historical focus on shallow oxide mineralisation for heap leach operation
- Large number of economic grade and width drill intersections
- Widespread gold mineralisation with a large and intense hydrothermal alteration zone – over 10km long
- Hermes – maiden drill testing completed – further exploration planned

# Brimstone Project

Discovery Driven  
Value Creation

## Assessing options on how to best unlock the value of the project

- **Garibaldi Prospect - high-grade and thick intersections from recent drilling program**
- Significant number of broad widths and high-grade gold mineralisation in historical drilling
- Interpreted geological structures cover ~10km of strike length of mineralisation on highly prospective greenstone rocks
- ~\$5m of historical expenditure, most drill holes < 50m depth and 93% of holes drilled < 100m depth

# Well funded - \$8.3m cash

Potential for \$10.7m in milestone payments from the scandium sale

^ Excludes liquid investments of \$0.2 million and shares in Major Precious Metals  
\* Subject to conditions and based on 0.65 A\$/US\$ on closing  
# Subject to achieving milestones i(not controlled by Platina ) including granting of a mining lease. US\$6m @ 0.65 A\$/US\$

# Strong gold price momentum ahead of planned drilling

## Demand Drivers

Asset diversification

Central bank purchasing

Historic safe haven appeal

Inflation protection

Currency debasement

Emerging market demand

## Supply pressures

Falling discovery rates

Rising production costs

Decreasing exploration budgets

Sovereign risk

Diminishing ore grades

Central banks buyers, not sellers

## Gold price USD/t oz as at 26 April 2024

## CAUTIONARY AND FORWARD-LOOKING STATEMENTS

This presentation contains “forward-looking information” which may include, but is not limited to, statements with respect to the future financial or operating performance of Platina Resources Limited (“Platina”), its subsidiaries and its projects, the future price of platinum group metals (“PGM’s”), the estimation of mineral resources, operating and exploration expenditures, costs and timing of development of new deposits, costs and timing of future exploration, requirements for additional capital, government regulation, environmental risks, reclamation expenses, title disputes or claims and limitations of insurance coverage. Often, but not always, forward-looking statements can be identified by the use of words such as “plans”, “expects”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “believes” or variations (including negative variations) of such words and phrases, or state that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Platina and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward looking statements. Such factors include, among others, general business, economic, competitive, political and social uncertainties; the actual results of current exploration activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of PGM’s; possible variations of ore grade or recovery rates; failure of plant, equipment or processes to operate as anticipated; accident, labour disputes and other risks of the mining industry; and delays in obtaining governmental approvals or financing or in the completion of development or construction activities. Although Platina has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that could cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are made as of the date of this presentation and Platina disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Platina undertakes no obligation to update forward-looking statements if circumstances or management’s estimates or opinions should change. Accordingly, the reader is cautioned not to place undue reliance on forward-looking statements

## REFERENCES TO PREVIOUS ASX RELEASES

The information in this presentation that relates to Exploration Results, Mineral Resources and Ore Reserves were last reported by the Company in compliance with the 2012 Edition of the JORC Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves in market releases dated as follows:

- Platina acquires gold project in prolific gold province, 11 June 2020
- Platina expanding presence in WA Goldfields, 23 July 2020
- Platina builds gold presence in Western Australia, 4th April 2021
- Platina geophysics identifies strong drill targets at Xanadu Gold Project in Western Australia, 22 February 2022
- Platina to build gold presence in Western Australia, 3 August 2022
- Pivotal Acquisition Builds WA gold footprint, 10 August 2022
- Platina Projects Update, 10 October 2022
- New gold exploration target identified at Xanadu, 21 Feb 2023
- Platina farms out Mt Narryer to Chalice Mining, 27 March 2023
- New mineralized structures in drilling at Brimstone, 1 June 2023
- New gold exploration target identified at Xanadu, 21 February 2023
- 1km gold mineralised corridor identified at Xanadu Hermes Prospect, 10 July 2023
- Drilling defines large scale mineralized system at Hermes, 8 Nov 2023
- Garibaldi mineralisation extended and new targets defined 9 Nov 2023
- Extension of oxide gold mineralisation confirmed at Xanadu, 4 April 2024

The Company confirms that it is not aware of any new information or data that materially affects the information included in the market announcements referred above and further confirms that all material assumptions underpinning the production targets and all material assumptions and technical parameters underpinning the Ore Reserve and Mineral Resource statements contained in those market releases continue to apply and have not materially changed.

## DISCLAIMER

Statements regarding Platina Resources’ plans with respect to its mineral properties are forward-looking statements. There can be no assurance that Platina Resources’ plans for development of its mineral properties will proceed as currently expected. There can also be no assurance that Platina Resources will be able to confirm the presence of additional mineral deposits, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of Platina Resources’ mineral properties or that Platina will achieve any of the valuation increases shown by the peer group companies.

This presentation was authorised by Corey Nolan, Managing Director of Platina Resources Limited.
