

30 April 2024

METAROCK GROUP LIMITED (ASX CODE: MYE) QUARTERLY ACTIVITY REPORT – MARCH 2024

Highlights

- Continued positive operational and financial results achieved through the Group's well progressed turnaround plan.
- Strong operating cashflow performance for FY24 Q3 of \$19.3 million versus a \$(1.1) million net outflow in the prior quarter as a result of the good performance, combined with the unwinding of timing differences in working capital investment and nil ATO plan repayments (having concluded the latter in December 2023).
- Binding agreement (subject to conditions precedent) executed for the sale of PYBAR to Thiess at an enterprise value of \$65 million with estimated net proceeds of \$36.3 million available to Metarock on completion. The transaction completes the re-capitalisation of Metarock's balance sheet, expected to result in a net cash position at completion, establishing a robust growth platform to capitalise on the significant growth pipeline across its remaining business units.
- Revenue of \$119 million in line with prior two quarters, generating EBITDA of \$12.1 million (FY24 Q2: \$13.5 million before profit on asset sales). FY24 YTD EBITDA (before profit on asset sales) of \$37.5 million.
- Net debt at 31 March 2024 of \$43.4 million, a decrease of \$17.6 million from 31 December 2023 achieved through strong operating cashflow. Post completion of the PYBAR transaction, PYBAR's invoice finance and equipment finance facilities, with drawn balances collectively in the order of \$26 million, will no longer reside in the Group.
- Westpac working capital facilities remain valid to 30 September 2024 with limits stepping down quarterly prior to facility maturity. Discussions well progressed with potential new financiers to replace the existing facilities.
- Cash at bank of \$7.4 million at 31 March 2024 (an increase of \$4.1 million over the prior quarter), together with up to \$13.3 million of undrawn working capital facilities.

Metarock Group Limited (ASX Code: MYE) (“Metarock” or “the Company”), a Mining Services business specialising in underground operations, is pleased to release its Quarterly Activities Report (including unaudited results) and Appendix 4C for FY24 Q3.

Sale of PYBAR

On 18 March 2024, Metarock announced that it had entered into a binding Share Sale and Purchase Agreement (“SPA”) to sell 100% of its interest in the PYBAR business (“PYBAR”) to Thiess Pty Ltd, a wholly owned subsidiary of Thiess Group Holdings Pty Ltd (“Thiess”) (the “Transaction”).

Total headline consideration for the Transaction is \$65 million on an enterprise value basis. Metarock estimates net cash proceeds from the Transaction will be approximately \$36.3 million, after deducting PYBAR’s outstanding debt and estimated transaction costs.

The Transaction is expected to deliver the following key benefits:

- The agreed purchase consideration represents compelling value for Metarock’s shareholders;
- The Transaction completes the re-capitalisation of Metarock’s balance sheet, expected to result in a net cash position at completion; and
- The Transaction establishes a robust growth platform which will enable Metarock to capitalise on the significant growth pipeline across its remaining business units. The Transaction accelerates the Company’s growth plans and delivers tangible value to shareholders.

As announced on 24 April 2024, completion of the Transaction is now expected to occur on 31 May 2024, subject to the receipt of third party consents in respect of certain key customer contracts.

Upon completion of the sale of PYBAR, Metarock will comprise the Mastermyne business segment, which is a diversified mining services business trading through the following brands:

- Mastermyne, which provides a range of specialist mining services to the underground coal mining sector;
- Wilson Mining, which provides polymeric ground consolidation products and services to the hard rock and coal mining sectors; and
- MyneSight, which provides accredited training, mine induction services and compliance management solutions to mine operators.

Operations

The financial results in FY24 Q3 reflected the Group's ongoing improved performance following the successful resolution of legacy issues, reduced debt burden and a firm refocus on core underground services operations.

Revenue of \$119 million for the quarter was in line with the previous two quarters and generated EBITDA of \$12.1 million (FY24 Q2: \$13.5 million).

Mastermyne's operations at its existing projects in NSW and QLD including Narrabri, Moranbah North, Grosvenor and Aquila mines all performed well, whilst Wilson Mining had another good quarter supporting its clients' longwall operations.

Subsequent to the quarter-end, PYBAR was advised of its preferred tenderer status (subject to final contract negotiations) in relation to a tender process by AIC Mines Limited (ASX: A1M) for an extended term at its Eloise copper mine, combined with a planned new expansion into the nearby Jericho reserve.

The pipeline of opportunities for each of the Group's businesses remains strong.

Quarterly cashflows

At the end of FY24 Q3, Metarock had \$7.4 million of cash and up to \$13.3 million of undrawn working capital facilities¹.

Overall net cashflow for Q3 of \$4.1 million represents a significant improvement on Q2 of \$0.6 million inflow. Net cashflow for Q3 comprised:

- Cash inflows from operating activities of \$19.3 million versus net outflow of \$(1.1) million in Q2, due to:
 - Unwinding of working capital investment in Q2, which resulted in \$11.9 million of additional customer receipts in Q3 versus the prior quarter;
 - Lower staff costs due to nil ATO payment plan repayments, which were concluded in December 2023 (Q2 payments totalled \$5.0 million); and
 - Administrative and corporate costs decreased by \$1.0 million in Q3 versus the prior quarter.
- Cash outflows from investing activities of \$(1.5) million in Q3 versus inflows of \$1.5 million in Q2, due to \$3.0 million in repayments of the PYBAR deferred consideration, leaving a balance owing as at 31 March 2024 of \$3.9 million. \$2.1 million was received in relation to the part sale of Mastermyne's consumable products business.

¹ Invoice financing facility availability of funds for drawdown varies with the value of qualifying invoices.

- Cash outflows from financing activities of \$(13.7) million in Q3 versus inflow of \$0.2 million in Q2 due to repayments of borrowings with no corresponding drawdown of borrowings which is consistent with the Company's turnaround plan of targeting lower gearing.

Please refer to the attached Appendix 4C for further details of the cashflows for FY24 Q3.

Debt facilities and position

The Group has access to several borrowing facilities with a total limit of \$109.8 million, including invoice finance facilities, equipment finance facilities, shareholder loan and credit card/bank guarantee facilities.

Net debt as at 31 March 2024 was \$43.4 million, a decrease of \$17.6 million from 31 December 2023 achieved through the strong positive cash generation.

The amount of undrawn borrowing facilities at the end of FY24 Q3 was up to \$59.0 million, of which up to \$13.3 million relates to working capital facilities. Two invoice finance facilities are held with Westpac which have a combined limit of \$34.6 million and a draw down allowance of 70% of approved debtors as at the quarter end. The facility limits and draw down allowance rate both step down further at the June quarter end ahead of the facilities maturing on 30 September 2024.

Metarock is well progressed in discussions with potential financiers in relation to the provision of new working capital facilities to replace the existing Westpac facilities.

Upon completion of the PYBAR divestment, the PYBAR invoice finance facility (\$8.3 million at 31 December 2023) and approximately \$18 million of equipment finance relating to PYBAR will no longer reside in the Group.

Refer to the Section 7 (and Appendix 1) of the attached Appendix 4C for further details of the Group's borrowing facilities.

Issued Capital

At the date of this report, the Company had the following securities on issue:

Total facilities (7.4, 7.5)	<u>109,816</u>	<u>58,991</u>

(i) Equipment finance facility

Term facilities comprise multiple agreements with various financiers including Atlas/Epiroc, Caterpillar, Commonwealth Bank of Australia, National Australia Bank, Sandvik, Toyota, Westpac and De Lage Landen.

The facilities are fixed rate, Australian dollar denominated loans which are carried at amortised cost and repayable monthly in arrears over a term of up to five years. The specific term and interest rate varies by agreement and is set at the outset of each advance.

The interim facilities relate to Australian dollar denominated equipment finance facilities held with Westpac which are carried at amortised cost. The equipment finance facilities are subject to progressive payment arrangements under which the financiers will pay for the purchase and construction/refurbishment of mining equipment on the condition the financing is rolled into an amortising term finance arrangement upon completion of the construction/refurbishment of each asset.

The progressive payment arrangement is subject to a variable rate of interest which is accrued and/or paid monthly in arrears. This facility is repayable on demand until it is rolled into an amortising term facility. The interest rate is fixed upon rolling into an amortising term facility. The term and interest rate are determined at the commencement of each term finance arrangement.

(ii) Invoice finance facility

Two invoice finance facilities are held with Westpac which have a combined limit of \$34.6 million and a draw down allowance of 70% of approved debtors as at the quarter end. The facility limits and draw down allowance rate step down further at the June quarter end ahead of the facilities maturing on 30 September 2024. Interest is charged at a variable rate.

(iii) Shareholder loan

Shareholder loan represents funds provided to Metarock Group Limited by M Mining Services Pty Ltd. The facility, which matures on 1 October 2024, is subject to a variable rate of interest and minimum earn amount. Repayment is required upon maturity whilst fees and interest may, at Metarock's election, be capitalised monthly.
