About Oar Resources Limited

Oar Resources Limited (ASX: OAR) is an explorer and aspiring producer, holding several critical and precious minerals projects. Recent acquisitions include 100% ownership of the Denchi Lithium Project near Wiluna in Western Australia; and 100% of Australian Precious Minerals Pty Ltd, holder of the Crown Project in Chittering, Western Australia. Crown is situated near Chalice Mining's Julimar PGE-Ni-Cu-Co-Au discovery. Oar has also acquired 100% of Alpine Resources' gold exploration projects in the highly prospective gold province of Nevada, United States - ranked the third best mining jurisdiction in the world. These projects are in an area that hosts several multi-million-ounce deposits. The company's wholly owned subsidiary Lymex Tenements Pty Ltd holds a number of tenements on the South Australian Eyre Peninsula which are considered highly prospective for kaolinite and halloysite mineralisation, graphite, iron ore and other commodities. In addition, Oar's Peruvian subsidiary, Ozinca Peru SAC, owns a CIP Gold lixiviation plant, strategically located proximal to thousands of small gold miners in Southern Peru.
