

17 October 2022

## **ASX Announcement (ASX: S66)**

### **Fire at Building 2 Premises No injury to personnel Current manufacturing capacity not impacted**

---

Star Combo Pharma Limited (ASX: S66) (**Star Combo**) advises that on Sunday 16 October 2022 there was a fire at its premises at 171 Woodpark Rd, Smithfield.

The premises at Smithfield consist of three buildings.

Buildings 1 and 3 are the premises that have housed the existing manufacturing, warehouse and office operations for many years.

Building 2 where the fire was, houses recently upgraded manufacturing facilities which have not yet been commissioned pending the issue of licenses for that building.

The fire was isolated to building 2 and did not impact the operations of buildings 1 and 3, nor the other Star Combo premises at 165 Woodpark Road.

Su Zhang, the CEO of Star Combo said, "Whilst the fire is very disappointing, we are pleased that there were no injuries to any staff or other personnel. The commercial damage to building 2 is currently under assessment and insurance has been notified of the event at building 2. All other facilities are not impacted by the fire and we expect to continue trading business as usual."

This announcement has been approved by the Chairman and Executive Directors of the Board of Star Combo.
