

Corporate Governance Statement

The Aeris Environmental Ltd (Aeris or the Company) (ASX:AEI) Directors are responsible for protecting the rights and interests of shareholders, by whom the Board is elected and to whom it is accountable, through the implementation of sound strategies and action plans, and the development of an integrated framework of controls over the consolidated entity's resources, functions and assets. Corporate governance is an important matter to the Company and the Board of Directors strives for high standards in this regard. Aeris' corporate governance practices, which are summarised below, are reviewed and amended by the Company's Corporate Governance Committee at appropriate intervals (at least annually), including prior to the finalisation of the Annual Report.

The Board and the Corporate Governance Committee draw on relevant best practice principles, particularly those issued by the Australian Securities Exchange (ASX) Corporate Governance Council's fourth edition of the publication, "Corporate Governance Principles and Recommendations", which was released on 27 February 2019 and is referred to for guidance purposes. While Aeris attempts to adhere to the principles proposed by the ASX, and the Directors believe that the Company complies with the underlying guidelines of the ASX, it is mindful that there are some instances where compliance is not practicable for a company of Aeris' size. All listed companies are required to produce a corporate governance statement that discloses the extent to which the entity has followed the recommendations, and to identify any recommendations that have not been followed, the period during which they were not followed, the reasons for not doing so and any alternative governance practices that have been adopted in lieu of the recommendation.

This Corporate Governance Statement reports on the corporate governance principles and practices followed by the Company for the period from 1 July 2021 to 30 June 2022, in accordance with ASX Listing Rules 4.7.4 and 4.10.3. Aeris' Corporate Governance Committee and Board reviewed the recommendations and the Company's 2022 Corporate Governance Statement on 25 August 2022, and the Board of Directors approved the Company's Corporate Governance Statement on 27 September 2022. In many cases Aeris was already achieving the standards required. In other cases, the Company has considered other arrangements to enable compliance. In a number of instances, Aeris has determined not to meet the standards set out in the recommendations, largely due to the recommendation being considered by the Board to be unduly onerous and costly for a company of its size. The Board has approved and adopted policies and charters with which Directors and management are required to comply, and which contain the information recommended by the ASX. The Company's written policies on corporate governance matters are included in Aeris' Corporate Governance Compliance Manual, which can be found in the About Us section of the Company's website under Investors i.e. at <https://www.aeris.com.au/investors> under Corporate Governance (along with the Corporate Governance Statement).

Principle 1: Lay solid foundations for management and oversight

Aeris has and discloses a Board Charter (which can be found in its Corporate Governance Compliance Manual, in the Investors section of the Company's website i.e. at <https://www.aeris.com.au/investors> under Corporate Governance) setting out the respective roles and responsibilities of its Board and management, and those matters expressly reserved to the Board and those delegated to management, as set out below.

Since last year's Corporate Governance Statement was lodged, the Company's Board has decreased from five Non-Executive Directors to four, being Messrs Maurie Stang and Steven Kritzler, and Drs Abbie Widin and Jenny Harry. The Board's role and responsibilities include the following:

- Setting and reviewing the vision, goals and strategy of the Company.
- Approving the annual strategic plan and major operating plans.
- Approving budgets.
- Reviewing and providing feedback on the performance of the CEO.
- Reviewing its performance and that of individual Directors.
- Reviewing the half-year and annual financial statements and reports, and quarterly cash-flow statements.
- Determining policies and ensuring adequate procedures are in place to manage the identified risks.

The role and responsibilities of the Chairman include:

- Ensuring leadership in setting and reviewing Aeris' vision and strategies.
- Setting the Board meeting agenda with the CEO and Company Secretary, and ensuring that Directors receive all relevant information prior to the meetings, chairing Board meetings and dealing with conflicts.
- Chairing the Annual General Meeting (AGM) and ensuring that shareholders as a whole have an opportunity to speak on relevant matters, ensuring the audit partner attends.
- Being the external spokesperson with the CEO on Company matters.
- Keeping fully informed on major matters by the CEO, chairing the performance appraisal of the CEO and providing mentoring.
- Initiating Board and Committee performance appraisals, ensuring that the agreed composition is maintained and the Director induction plans are in place.

The CEO's responsibilities and duties include:

- Formulating with the Board the vision and strategy of Aeris, developing action plans to achieve this vision and reporting regularly to the Board on progress made.
- Providing leadership to the management team and employees, appointing and negotiating terms of employment of senior staff members (with Board approval where necessary), developing a succession plan, and ensuring procedures are in place for education and training to ensure compliance with laws and policies.
- The implementation of the Company's product commercialisation.
- Bringing matters requiring review / approval to the Board and advising it of the changes in Aeris' risk profile, providing certification regarding the financial statements for the quarterly, half-year and annual reports, reporting to the Board on a monthly basis on the performance of the Company and ensuring the education of the Directors on relevant matters.

Aeris has a small management team, so roles and functions have to be flexible to meet specific requirements. The roles and responsibilities of management include:

- The operation and administration of the Company, as delegated by the Board.
- Implementing the strategic objectives of Aeris and operating within the risk appetite set by the Board.
- Complying with all other aspects of the day-to-day running of the Company.
- Providing the Board with accurate, timely and clear financial and other information to enable the Board to perform its responsibilities.

Aeris undertakes appropriate checks before appointing a director or senior executive, or putting someone forward for election as a Director. These checks usually include checks as to the person's character, experience, education, criminal record and bankruptcy history. Aeris provides security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a Director. It does so by providing them, via its Notices of Meeting, with the potential Director's biographical details, including their relevant qualifications and experience, the skills they bring to the Board, and details of any other material directorships currently held by the candidate. In the case of a candidate standing for election as a Director for the first time, the Company provides security holders with: any material adverse information revealed by the checks Aeris has performed about the Director; details of any interest, position, association or relationship that might influence, or reasonably be perceived to influence, in a material respect his or her capacity to bring an independent judgement to bear on issues before the Board, and to act in the best interests of the Company and its security holders generally; and if the Board considers that the candidate will, if elected, qualify as an independent Director, a statement to that effect. In the case of a candidate standing for re-election as a Director, Aeris provides security holders with: the term of office currently served by the Director; and if the Board considers the Director to be an independent Director, a statement to that effect. The Company also provides security holders with a statement by the Board as to whether it supports the election or re-election of the candidate. A candidate for appointment or election as a Non-Executive Director is requested to provide the Board with the information above and a Consent for Aeris to conduct any background or other checks the Company would ordinarily conduct. The candidate is also requested to provide details of his or her other commitments and an indication of time involved, and must specifically acknowledge to Aeris that he or she will have sufficient time to fulfil his or her responsibilities as a Director.

The Company has a written agreement with each Director, the CEO and each senior executive setting out the terms of their appointment. The Directors, CEO and senior executives of Aeris have a clear understanding of their roles and responsibilities, and of the Company's expectations of them. This has been reduced to a written agreement that takes the form of a Letter of Appointment in the case of a Non-Executive Director and service contracts in the case of the CEO and senior executives. Aeris is required under the ASX Listing Rules to disclose the material terms of any employment, service or consultancy agreement it or a child entity enters into with its CEO (or equivalent), any of its Directors and any other person or entity who is a related party of its CEO or any of its Directors. The Company is also required to disclose any material variation to such an agreement.

Aeris has a Securities Trading Policy concerning trading in its securities by Directors, senior executives, employees and significant consultants, which is included in the Company's Corporate Governance Compliance Manual, which can be found in the Investors section of Aeris' website under Corporate Governance.

The Company Secretary of the Company is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the Board. The Company Secretary of Aeris plays an important role in supporting the effectiveness of the Board and its Committees. The role of the Company Secretary includes: advising the Board and its Committees on governance matters; monitoring that Board and Committee policy and procedures are followed; co-ordinating the timely completion and despatch of Board and Committee papers; ensuring that the business at Board and Committee meetings is accurately captured in the minutes; and helping to organise and facilitate the induction and professional development of Directors. Each Director is able to communicate directly with the Company Secretary and vice versa. The decision to appoint or remove the Company Secretary is made and approved by the Board.

The Company has a Diversity Policy and, through its Board and Corporate Governance Committee, sets measurable objectives for achieving gender diversity in the composition of its Board, senior executives and

workforce generally. The Company has disclosed its Diversity Policy in its Corporate Governance Compliance Manual, which can be found in the Investors section of the Company's website under Corporate Governance. As at the end of the recent reporting period, the measurable objectives for achieving gender diversity set by the Board and Corporate Governance Committee for that period in accordance with the Company's Diversity Policy were achieving greater gender diversity across the whole workforce, which now has an almost equal number of men and women, which met Aeris' progress towards achieving those objectives. As Aeris continues in its growth phase and builds its global presence, and the size and diversity of what Aeris does, it will review and modify more specific objectives that are appropriate, aligned and achievable. The Company discloses the respective proportions of men and women on the Board, in senior executive positions and across the whole workforce as at the end of the recent reporting period: i.e. at 30 June 2022 Aeris had two women and two men on its Board, and two women and three men amongst its senior executives. Across the whole workforce, the Company now has six female staff members and seven men. The Company has defined "senior executive" for these purposes in the Remuneration Report section of its Annual Report, as key management personnel, being the Directors and the CEO. The Board believes that the pursuit of diversity in the workplace increases the Company's ability to attract, retain and develop the best talent available, creates an engaged workforce, delivers the highest quality services to its customers, enhances individual work-life balance, encourages personal achievement, improves co-operation and assists in the optimisation of organisational performance. Diversity in the workplace should mirror the diversity of the broader community, encompassing age, gender, ethnicity, cultural and other personal factors. Aeris respects the diversity of all its employees, consultants and contractors, and cultivates an environment of fairness, respect and equal opportunity.

The Company has and discloses a process for periodically evaluating the performance of the Board, its Committees and individual Directors using an evaluation questionnaire, which is completed by the Directors. The results of this self-assessment of its performance and governance for the period up until the end of the most recent financial year are then compiled and summarised, confidentially, and then provided to the Board for consideration at a Board meeting; only the aggregated results and comments are distributed. For the recent reporting period a performance evaluation was undertaken in accordance with that process. The next evaluation process by the Board has commenced and will be completed in the coming months.

Aeris has and discloses a process for evaluating the performance of its senior executives at least once every reporting period via meetings with these executives, following completion of staff review procedures, and a review by the Remuneration and Nomination Committee. The recent reviews of the performance of the Company's executives, and by the Remuneration and Nomination Committee, for the executives' performance evaluations, were undertaken and reviewed for the recent reporting period in accordance with these processes. The process for evaluating the performance of Aeris' executives and staff members is currently being reviewed by the CEO, the Board, and the Remuneration and Nomination Committee.

Principle 2: Structure the Board to be effective and add value

The Board of Aeris has a joint Remuneration and Nomination Committee. At the start of the recent reporting period, the Committee members were Messrs Maurie Stang (Committee Chairman) and Michael Ford. Dr Jenny Harry joined the Committee as a member on 29 July 2021 and Mr Michael Ford ceased to be a member when he ceased to be a Director on 14 December 2021. On 24 February 2022 Dr Jenny Harry replaced Mr Maurie Stang as Chairman of the Committee. Therefore, at the end of the recent reporting period the Committee only had two members and therefore did not follow the recommendation that such a Committee have three members, a majority of which is made up of independent Directors (as Dr Jenny Harry is an independent Director, but Mr Maurie Stang is a substantial shareholder, and therefore not deemed to be independent), but the Committee does now follow the recommendation that the Committee be chaired by an independent Director. The reason the Committee does not have a third, Independent Director is because of the small size of the Board. A new Independent Director with relevant expertise will be considered in due course. The Charter of the Remuneration and Nomination Committee can be found in the Company's Corporate Governance Compliance Manual, which can be found in the Investors section of Aeris' website under Corporate Governance. During the 2021-22 financial year the Committee did not meet. The Remuneration and Nomination Committee employs processes to address Board succession issues, and to ensure that the Board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities effectively. It does so by reviewing Board performance, size and capacity (with appropriately-experienced Directors).

The Company has (and discloses below – see Appendix A) a Board skills matrix setting out the mix of skills that the Board currently has in its membership, which was recently reviewed by the Directors. A description of the skills and experience of each Director, and their period of office, is set out in the Directors' Report section of the Annual Report. A Director may be elected for a term of a maximum of three years. To ensure a gradual and controlled movement of Directors, the longest serving one-third of all Directors (rounded down to the nearest whole number) is required to retire at each AGM, but shall be eligible for re-election.

Aeris discloses that, as at the end of the recent reporting period and at the time this Statement was prepared, Drs Abbie Widin and Jenny Harry are considered by the Board to be independent Directors (Mr Michael Ford was also considered by the Board to be an independent Director). The length of service of each Director is as follows:

Messrs Maurie Stang and Steven Kritzler have both been Directors of the Company for 20 years and one month, Dr Abbie Widin has been a Director of the Company for one year and six months and Dr Jenny Harry has been a Director of Aeris for one year and four months. Messrs Maurie Stang and Steven Kritzler believe that, whilst they are not independent Directors, they are still able to act in the best interests of the Company and its security holders generally. Mr Maurie Stang is a substantial shareholder, which the Board believes helps align his interests with those of other shareholders. The Directors recognise that by holding significant stakes in Aeris Messrs Maurie Stang and Steven Kritzler are likely to be seen as having a different interest to shareholders with smaller stakes. They also recognise that the interests of the Company and its shareholders are likely to be well served by having a mix of directors, some with a longer tenure, and a deep understanding of Aeris and its business (particularly the Chairman), and some with a shorter tenure, and fresh ideas and perspectives. Messrs Maurie Stang and Steven Kritzler believe that the fact that they have served on the Board for a period of more than ten years does not mean that they have become too close to management to lose their impartiality.

A majority of the Board of the Company is not made up of Independent Directors because two of the Directors are independent Directors and two are not independent Directors. The reason for this is Aeris has yet to appoint a replacement for Mr Michael Ford, who ceased to be a Director on 14 December 2021. A new Independent Director with relevant expertise will be considered in due course. The Non-Executive Chairman of the Board of Aeris is not an independent Director because he is considered by the other Directors to be the most qualified and experienced member of the Board to hold the role of Chairman. However, he is not the same person as the CEO of the Company; that role is held by Mr Andrew Just.

Aeris has a programme for inducting new Directors, and for periodically reviewing whether or not there is a need for existing Directors to undertake professional development to maintain the skills and knowledge needed to perform their role as Directors effectively. Each Director of the Company has the right to seek independent professional advice at the expense of Aeris, and the Company provides appropriate professional development opportunities as required for Directors to develop and maintain the skills and knowledge needed to perform their role as Directors effectively. Prior approval of the Chairman is required, but this will not be unreasonably withheld.

Principle 3: Instil a culture of acting lawfully, ethically and responsibly

Aeris articulates and discloses its values, which express the standards and behaviours the Company requires from its Directors, senior executives and employees to fulfil Aeris' purpose and meet its goals, which include dedication, innovation, teamwork, honesty, integrity and loyalty. These values create a link between the Company's purpose of redefining human health, efficiency and sustainability in the built environment, and Aeris' strategic goals of bringing decades of success with disruptive technologies to drive measurable improvements and changes in performance for the built environment – with the guiding principles of 'clean, green, protect'. During the recent reporting period, the management team workshopped the Company's values, and determined that its core values are Aeris' customers, teamwork, innovation, the environment and accountability. The core values and focus of the Company are to improve the health, safety and efficiency of the built environment, and to enable lower energy usage, and safer air and surfaces.

It is the Board's policy for the Directors and management to conduct themselves with the highest of ethical standards, and Aeris strives to act ethically and responsibly at all times. All Directors and employees are expected to act with integrity and objectivity, striving at all times to enhance the reputation and performance of the Company. Aeris has a Corporate Code of Conduct for its Directors, senior executives and employees, which is disclosed in the Corporate Governance Compliance Manual in the Investors section of the Company's website under Corporate Governance. Aeris ensures that the Board is informed of any material breaches of that Code. The Directors believe that this code of conduct is appropriate for the Company's size and that it takes into account the close interaction of individuals throughout the organisation. The purpose of Aeris' Corporate Code of Conduct is to guide compliance with legal and other obligations, to maintain confidence in the Company's integrity, to take into account the expectations of stakeholders, and to define the responsibility and accountability of individuals for reporting and investigating any instances of unethical practice. Aeris, being an environmental services business, strives not only to act responsibly towards the environment, but, by its very purpose, works to help solve common problems in global markets using its suite of patented products by employing experts in the removal of microbial contamination (biofilm or slime) and then protecting the asset from recontamination and reducing energy consumption. The Company always tries to deal with business associates who demonstrate similar ethical and responsible business practices.

Aeris has a Whistleblower Policy, which is disclosed in the Company's Corporate Governance Compliance Manual in the Investors section of Aeris' website under Corporate Governance. This Policy: encourages whistleblowers to make whistleblower disclosures without fear of victimisation; explains how the Company will manage allegations of illegal or unethical conduct in a lawful, fair, consistent and timely manner; and outlines the procedures and protections that apply to whistleblowers under the Corporations Act 2001 (Cth) and Taxation Administration Act 1953 (Cth). Aeris ensures that the Board is informed of any material incidents reported under this Policy.

The Company has an Anti-Bribery and Corruption Policy, which is disclosed in the Company's Corporate Governance Compliance Manual in the Investors section of Aeris' website under Corporate Governance. This

Policy: provides clear procedures for employees and other personnel in relation to bribery and corruption issues that may arise in the course of their employment; provides guidelines for the offering or acceptance of gifts or hospitality; assists in the protection of the Company's reputation, business and interests; provides a reporting mechanism for allegations of bribery and corruption; and assists in compliance with legal obligations. Aeris ensures that the Board is informed of any material breaches of that Policy.

Principle 4: Safeguard the integrity of corporate reports

Aeris has processes that independently verify and safeguard the integrity of its corporate reporting. The Company has a joint Audit and Risk Committee. At the start of the recent reporting period, the Committee members were Messrs Michael Ford (Committee Chairman) and Maurie Stang. Dr Jenny Harry joined the Committee as a member on 29 July 2021 and Mr Michael Ford ceased to be on the Committee when he ceased to be a Director on 14 December 2021. On 24 February 2022 Dr Jenny Harry replaced Mr Michael Ford as Chairman of the Committee. Therefore, at the end of the recent reporting period the Committee only had two members and therefore did not follow the recommendation that such a Committee have three members, a majority of which is made up of independent Directors (as Dr Jenny Harry is an independent Director, but Mr Maurie Stang is a substantial shareholder, and therefore not deemed to be independent), but the Committee does follow the recommendation that the Committee be made up of all Non-Executive Directors and be chaired by an independent Director who is not the Chair of the Board. The reason the Committee does not have a third, Independent Director is because of the small size of the Board. A new Independent Director with relevant expertise will be considered in due course. The Audit and Risk Committee has a formal charter that is disclosed in Aeris' Corporate Governance Compliance Manual, which can be found in the Investors section of the Company's website under Corporate Governance. The members of the Committee have applicable expertise and skills for this Committee. The relevant qualifications and experience of these members can be found in the About Us section of the Company's website under Meet the Team, as well as in the Directors' Report of the Annual Report. During the last reporting period, the Audit and Risk Committee met three times and all of the Directors who were members at the time of these meetings were in attendance. The Committee reports to the Board after each Committee meeting and after meeting with Aeris' external Auditor; meetings are held at least twice each year. In conjunction with the full Board, the Committee reviews the performance of the external Auditor (including the scope and quality of the audit). The primary responsibilities of the Committee are to oversee the existence and maintenance of internal controls, accounting systems and the financial reporting process, to nominate the external Auditor, to review existing external audit arrangements, including the selection, appointment and rotation of external audit engagement partners, and to monitor corporate risk assessment (including on environmental risks).

The Board of the Company receives from its CEO and CFO (before it approves Aeris' financial statements for a financial period) a declaration that, in their opinion, the financial records of the Company have been properly maintained, and that the financial statements comply with the appropriate accounting standards. The declaration also states that the financial statements give a true and fair view of the financial position and performance of Aeris, and that this opinion has been formed on the basis of a sound system of risk management and internal control, which is operating effectively.

The Company discloses its process to verify the integrity of any periodic corporate report it releases to the market that is not audited or reviewed by an external auditor. Such reports are reviewed by the Board, which notes the receipt of the CEO and CFO Declarations on the accuracy of these reports. The operating and financial review included in the annual Directors' Report contains information that shareholders reasonably require to make an informed assessment of the Company's operations, financial position, business strategies and prospects for future financial years. Aeris prepares Quarterly Activity Reports and Quarterly Cash Flow Reports that are not subject to audit or review by the Company's external auditor. As Aeris grows, it will consider the production of other corporate reports, such as a "sustainability report", to provide insights into other aspects of its operations. The Company's annual Directors' Report is not subject to assurance by Aeris' external auditor, other than the Remuneration Report and, accordingly, the Board of Directors and senior executives validate that the report is accurate, balanced and understandable, and provides the market with appropriate information to make informed investment decisions.

Principle 5: Make timely and balanced disclosure

The Company makes timely and balanced disclosure of all matters concerning it that a reasonable person would expect to have a material effect on the price or value of its securities. Aeris, its Directors and its staff are aware of the ASX's continuous disclosure requirements, and operate in an environment where strong emphasis is placed on full and appropriate disclosure to the market. The Company has a formal written policy for complying with its continuous disclosure obligations under ASX Listing Rule 3.1. Aeris has included this Continuous Disclosure Policy in its Corporate Governance Compliance Manual on its website in the Investors section under Corporate Governance. A regular review takes place to ensure compliance with ASX Listing Rule 3.1 on continuous disclosure, including at every Board meeting, and there is accountability at a senior executive level for that compliance. Procedures have been established for reviewing whether any material price-sensitive information has been inadvertently disclosed to analysts, shareholders or other parties, and if so, this information is also immediately released to the market.

Aeris' Board approves market announcements before they are lodged with ASX. The Company then ensures that its Board receives copies of all announcements promptly after they have been released to the market. The Company Secretary has set up in ASXOnline all of the Directors' email addresses so that they automatically receive all ASX announcements once they have been released to the market.

When Aeris gives a new and substantive investor or analyst presentation it releases a copy of the presentation materials on the ASX Market Announcements Platform ahead of the presentation. As the business grows, presentations will be made more regularly and lodged with ASX.

Principle 6: Respect the rights of security holders

Aeris respects the rights of its security holders by providing them with appropriate information and facilities to allow them to exercise those rights effectively. The Company provides information about itself and its governance to investors via its website – www.aeris.com.au. Here, interested parties can find information about Aeris under the homepage heading About and can also find information on the Company's corporate governance under the homepage heading Investors. The names and brief biographical information for each of Aeris' Directors, and the CEO and Company Secretary can be found under the Meet the Team part of the About section of the website. Information on the Company's products can also be found on the homepage under Products. Where To Use, Services, Resources, News, Find A Distributor and Login sections can be reached via the links at the top of the homepage of the website. The Company's contact details can be found on the Contact section of the website where investor enquires can also be submitted. The Investors section of the Company's website is where relevant corporate governance information can be accessed. This includes: a link to ASX Information for up-to-date Aeris announcements to the market; copies of Aeris' Annual Reports and Notices of AGM, Share Registry contact details; and Corporate Governance information including the Corporate Governance Statement, Corporate Governance Compliance Manual (including the Committee Charters and other policies) and the Company's Constitution.

Aeris has an investor relations programme to facilitate effective two-way communication with investors. The small size of the Company means that, the main ways that Aeris allows investors and other financial market participants to gain a greater understanding of the Company's business, governance, financial performance and prospects is by encouraging shareholder participation at AGMs, where it actively engages with shareholders, and meeting with shareholders upon request and responding to any enquiries they may make from time-to-time. Aeris has an appropriate communications procedure to promote effective communication with shareholders, which is in line with the Company's size and its financial capacity. Aeris has a Shareholder Communication Policy, which is available in the Company's Corporate Governance Compliance Manual in the Investors section of its website under Corporate Governance. Aeris discloses how it facilitates and encourages participation at meetings of shareholders. Technology is used to facilitate the participation of security holders in shareholders' meetings, including (since the 2020 AGM) live webcasting of meetings so that security holders can view and hear proceedings online, and allow shareholders to vote in proxy or online. The Company gives security holders who join the meeting and exercise their right to ask questions about, or make comments on, the management of the entity, the opportunity to provide questions or comments during the meeting. These questions and comments are addressed at the meeting by being read out and then responded to at the meeting. When investors and other financial market participants express their views to the Company on matters of concern or interest to them those views are distilled and communicated to the Board. Since its 2019 AGM Aeris has decided all Resolutions by a poll, rather than by a show of hands, and intends that all substantive resolutions at meetings of security holders are decided by a poll rather than by a show of hands in future years. The Company gives security holders the option to receive communications from, and send communications to, Aeris and its security registry electronically via the Contact section on the homepage of its website and on the Share Registry section under the Investors section on the homepage. Aeris' Shareholder Communication Policy sets out the Company's requirements expected from all Directors, senior management and employees for communicating effectively with shareholders.

Principle 7: Recognise and manage risk

Aeris has a sound risk management framework and periodically reviews the effectiveness of that framework. The Company has a joint Audit and Risk Committee that oversees risk, including the set-up and maintenance of internal controls, accounting systems and the financial reporting process, nominates the external Auditor, reviews existing external audit arrangements (including the selection, appointment and rotation of external audit engagement partners), and monitors corporate risk assessment (including environmental risks). The Company has an appropriate formal policy for the oversight and management of material business risks that is fitting for the size of its business. The Remuneration and Nomination Committee also ensures that, as part of its review of staffing policies and OH&S risks, and through its induction programme, new Board appointees and key executives gain an understanding of the Company's financial, strategic, operational and risk management position. Company and business risk factors are an agenda item at each Board meeting, and the CEO periodically reports to the Board, and Audit and Risk Committee on risk management, internal controls and Aeris' insurance programme. At the start of the recent reporting period, the Committee members were Messrs Michael Ford (Committee Chairman) and Maurie Stang. Dr Jenny Harry joined the Committee as a member on 29 July 2021 and Mr Michael Ford ceased to be on

the Committee when he ceased to be a Director on 14 December 2021. On 24 February 2022 Dr Jenny Harry replaced Mr Michael Ford as Chairman of the Committee. Therefore, at the end of the recent reporting period the Committee only had two members and therefore did not follow the recommendation that such a Committee have three members, a majority of which is made up of independent Directors (as Dr Jenny Harry is an independent Director, but Mr Maurie Stang is a substantial shareholder, and therefore not deemed to be independent), but the Committee does follow the recommendation that the Committee be made up of all Non-Executive Directors and be chaired by an independent Director. The reason the Committee does not have a third, Independent Director is because of the small size of the Board. A new Independent Director with relevant expertise will be considered in due course. The Audit and Risk Committee has a formal charter that is disclosed in Aeris' Corporate Governance Compliance Manual, which can be found in the Investors section of the Company's website under Corporate Governance. During the last reporting period, the Audit and Risk Committee met three times and all of the Directors who were members at the time of these meetings were in attendance. The Committee reports to the Board after each Committee meeting.

The Board, and the Audit and Risk Committee, review the Company's risk management framework at least annually to satisfy themselves that it continues to be sound and that Aeris is operating with due regard to the risk appetite set by the Board, and discloses, in relation to each reporting period, whether such a review has taken place. The Corporate Governance Committee recently reviewed and is satisfied that the Company's risk management framework deals adequately with contemporary and emerging risks, such as conduct risk, digital disruption, cyber-security, privacy and data breaches, sustainability and climate change. Aeris is currently carrying out its periodic review of the Company's cyber-crime protections. A strategic review by an external consultant in the management governance area was also conducted during the recent reporting period. The Company's Risk Register is periodically included in the papers for Board, and Audit and Risk Committee meetings for evaluation. During the 2021-22 reporting period such a review took place at two Audit and Risk Committee meetings, where the Risk Register was reviewed in detail and updated. Aeris does not have an internal audit function. The processes it employs for evaluating and continually improving the effectiveness of its governance, risk management and internal control processes include: the monthly review by the Board of the Company's actual versus budget variances in revenue and expenses; and the periodic review of source accounting documentation by someone independent of the Accounts Department and independent of the regular accounting documentation approval process.

Aeris has not identified any specific material exposure to environmental and social risks. The Company's Board, Audit and Risk Committee, and senior management manage these risks. Aeris' Corporate Governance Committee has recently re-reviewed the Company's environmental risks to determine if there are any new potential negative consequences (including systemic risks and the risk of consequential regulatory responses) to Aeris if its activities adversely affect the natural environment or if its activities are adversely affected by changes in the natural environment, such as the risks for the Company associated with climate change, reduced air quality and water scarcity. The positive impact Aeris has in this area was noted, as noted in the paragraph below. The Company has also recently re-reviewed its social risks to determine if there are any new potential negative consequences (including systemic risks and the risk of consequential regulatory responses) to Aeris if its activities adversely affect human society or if its activities are adversely affected by changes in human society, such as the risks associated with the Company or its suppliers engaging in modern slavery, aiding human conflict, facilitating crime or corruption, mistreating employees, customers or suppliers, or harming the local community. In the current reporting period, Aeris adopted a Modern Slavery Policy, which is included in the Company's Corporate Governance Compliance Manual that can be found in the Investors section of Aeris' website under Corporate Governance. Social risks reviewed included the risks for the Company associated with large-scale mass migration, pandemics or shortages of food, water or shelter. It was agreed that, at its current activity level, Aeris is impacted to a minimal degree by these matters.

Aeris has a goal of not compromising the health of the ecosystems in which it operates over the long term. The Company has worked, and continues to work, in a manner that meets accepted social norms and needs, and intends to continue to do so into the future. Since the commencement of the global COVID-19 pandemic, Aeris has focused many of its activities on assisting customers, distributors and, most particularly, health authorities in Australia with their COVID-19 remediation needs. Both Aeris Defence and Aeris Active are dual active, offering rapid COVID-19 kill and extended residual protection across the full spectrum of surfaces, from high risk to social environments. Aeris discloses on its website, in its Annual Report and in ASX announcements its expected material contribution over time to reducing the environmental and social costs and risks in society through the rollout of its technologies, where it can have a positive long-term effect on business, the community and on the environment through the provision of cleaner air and water, and general hygiene using energy-saving products. The very purpose of the Company, being an environmental services business, is to strive to act responsibly towards the environment, and help solve common environmental problems by removing microbial contamination, protecting assets from recontamination and helping to reduce energy consumption. Aeris develops, manufactures and markets proprietary, environmentally-friendly technology that drives measurable improvements in asset performance and sustainability. The Company's whole-of-system approach ensures that systems perform better, are safer, last longer and cost less to run. Aeris' products solve real world problems more

effectively than conventional toxic chemicals. Uniquely based on validated, green formulations, the Company's enzymes and treatments, with residual protection, provide long-term remediation, and prevention of mould, bacteria growth, corrosion and improved hygiene. The Company's solutions deliver dramatic and proven energy savings, alongside documented benefits to system efficiency, and independently-validated indoor air quality, with proven immediate improvements in sustainability and cash flow savings.

Principle 8: Remunerate fairly and responsibly

The Company aims to pay Director remuneration that is sufficient to attract and retain high-quality Directors, and has designed its executive remuneration to attract, retain and motivate high-quality senior executives, and to align their interests with the creation of value for security holders. The Board of the Company has a joint Remuneration and Nomination Committee. At the start of the recent reporting period, the Committee members were Messrs Maurie Stang (Committee Chairman) and Michael Ford. Dr Jenny Harry joined the Committee as a member on 29 July 2021 and Mr Michael Ford ceased to be a member when he ceased to be a Director on 14 December 2021. On 24 February 2022 Dr Jenny Harry replaced Mr Maurie Stang as Chairman of the Committee. Therefore, at the end of the recent reporting period the Committee only had two members and therefore did not follow the recommendation that such a Committee have three members, a majority of which is made up of independent Directors (as Dr Jenny Harry is an independent Director, but Mr Maurie Stang is a substantial shareholder, and therefore not deemed to be independent), but the Committee does now follow the recommendation that the Committee be chaired by an independent Director. The reason the Committee does not have a third, Independent Director is because of the small size of the Board. A new Independent Director with relevant expertise will be considered in due course. The Charter of the Remuneration and Nomination Committee can be found in the Company's Corporate Governance Compliance Manual, which can be found in the Investors' section of Aeris' website under Corporate Governance. During the 2021-22 financial year the Committee did not meet.

The Directors have adopted a series of formal remuneration policies, which they believe are appropriate for the size of the Company. A clear distinction between, and description of, the structure of Non-Executive Directors' remuneration, and the CEO and executive remuneration, is set out in the Remuneration Report (contained in the Directors' Report) in the Company's Annual Report, and, in accordance with Corporations Act requirements, the Company discloses the fees and salaries paid to all Directors, plus its designated officers. The Company separately discloses its policies and practices regarding the remuneration of Non-Executive Directors, and the remuneration of Executive Directors and other senior executives. The Remuneration and Nomination Committee meets as and when required to review performance matters, and make recommendations to the Board in relation to the Company's remuneration framework for Directors, including the process by which any pool of Directors' Fees approved by security holders is allocated to Directors, and in relation to the remuneration packages to be awarded to executives, equity-based remuneration plans for Directors, executives and other employees, and superannuation arrangements for Directors, executives and other employees. The Remuneration and Nomination Committee Charter also requires the Committee to examine whether or not there is any gender or other inappropriate bias in remuneration for Directors, executives or other employees. The Directors work closely with management, and have full access to all the Company's files and records. The Company seeks independent external advice and market comparisons as necessary.

The Company has an equity-based remuneration scheme, being its Employee Incentive Plan (EIP), which was last approved by shareholders at the 27 January 2022 AGM. The Company has a policy that participants in the EIP are not permitted to enter into transactions (whether through the use of derivatives or otherwise) that limit the economic risk of participating in the scheme. There are no schemes for retirement benefits, other than superannuation, for Non-Executive Directors. A summary of the policy can be found in the Company's Notice of AGM released to the market on 20 December 2021.

Financial year ended:

30 June 2022

Our corporate governance statement¹ for the period above can be found at:²

- ☐ These pages of our annual report:
- ☒ this URL on our website: **<https://www.aeris.com.au/investors>** under Corporate Governance

The Corporate Governance Statement is accurate and up to date as at **27 September 2022** and has been approved by the Board.

The annexure includes a key to where our corporate governance disclosures can be located.³

Date: **27 September 2022**

Name of authorised officer authorising lodgement: **Mr Robert J Waring (Company Secretary)**

¹ "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

³ Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes "**OR**" at the end of the selection and you delete the other options, you can also, if you wish, delete the "**OR**" at the end of the selection.

See notes 4 and 5 below for further instructions on how to complete this form.
