☒ No

4A.12 Link to a copy of the DRP plan rules

Please refer DRP Announcement released on the 26 July 2022.

4A.13 Further information about the DRP

DRP methodology is as follows:

The DRP has been designed so that participants will always receive the lowest reinvestment price possible, without their reinvestment diluting the pre-tax Net Tangible Assets ("NTA") of those shareholders who choose not to participate in the plan.

When the Company's share price is greater than or equal to its NTA per share, dividends are paid as newly issued shares in the Company. If the share price for GVF is above the Company's NTA per share on the dividend ex-date, participating shareholders will be issued new shares at the greater of a 2.5% discount to the volume weighted average share price over the three trading days from the ex-date, or the NTA value per share of the Company on this day. If the share price for GVF is less than its NTA per share on the ex-date, cash available for distribution as dividends on shares subject to the DRP will be used to acquire the Company's shares on market in accordance with the terms set out in the plan.

Full details of the DRP are available on the Company's website.

Part 5 - Further information

5.1 Please provide any further information applicable to this dividend/distribution

Not applicable

5.2 Additional information for inclusion in the Announcement Summary

Not applicable
