ASX Release

ABN 26 608 915 859

**DroneShield Limited (ASX:DRO)** ("DroneShield" or the "Company") is pleased to release its business update and Appendix 4C for the three-month period ended 30 June 2023.

Following a [strong \\$7 million cash receipts](#) March 2023 quarter, DroneShield has recorded an all-time record \$8.2 million customer cash receipts for the June 2023 quarter.

#### Cash Receipts – Customer Sales and Grants (A\$m)

#### **Highlights (including subsequent to quarter-end)**

- [\\$33 million U.S. Government sale](#) announced 16 July, expected to be fully delivered and paid this calendar year.
- [\\$9.9 million 2-year R&D contract](#) announced 4 July, following on the earlier \$3.8 million contract from same Five Eyes Government defence customer. \$2 million has already been received.
- All-time record \$8.2 million in customer cash receipts for 1Q23, ▲ 200% on 2Q22.
- \$15.3 million cash receipts for 1H23, ▲ 200% over 1H22.
- All-time record \$62 million contracted order backlog, with an over \$200 million in sales pipeline.
- \$2.4 million expected in R&D Tax Incentive grant (as cash).
- [NATO Stock Numbers granted](#) for a number of DroneShield systems.
- Strong bank and term deposits balance of \$42.4 million as at 30 June 2022. The reduction of \$3.5 million from 31 March 2023 was due to inventory investment for anticipated near term orders such as the \$33 million order received.
- Launch of [DroneGun Mk4](#), the latest in the iconic DroneGun range, with a strong backlog of purchase orders and interest ahead of the launch.
- [Completion](#) and remaining payment on the \$11 million order received in December 2022.

- [\\$2.2 million in orders](#) from two US Government agencies.
- Release of enhanced [DroneSentry-C2 Platform Update](#) and [DroneLocator](#) (as part of RF Device Firmware Update).
- [Completion of system integration](#) with Epirus, a California-based multi-billion dollar defence unicorn, who [invested \\$3.7 million](#) into DroneShield in November 2022.

DroneShield continues to be in a highly favourable environment, with both the counterdrone industry rapidly growing and more generally defence and security budgets rising. The Company has a number of unique differentiators (technically and commercially). The Ukraine situation is demonstrating the role of drones in modern warfare, and driving procurement programs of Government customers around the world seeking to be prepared for next conflict.

DroneShield CEO, Oleg Vornik, commented: “The sales team’s primary goal is continuing to grow smaller contracts into much larger sales, as evidenced by the \$33 million US Government contract and \$9.9 million Five Eyes contract announced this month alone. We have a significant pipeline which contains a number of these opportunities. We are well positioned on a number of large awards.”

“On the operations/fulfilment front, we have been progressing well on the [\\$67 million of equipment in production](#). Larger customers are focussed on production rates and ability to fulfil bigger contracts, so executing production in unison with sales activity is important.”

#### **Payments to related parties of the entity and their associates**

- Board fees paid to Non-Executive Directors and salary to CEO amounted to \$379,073.

This announcement has been approved for release to ASX by the Board.
