

# ASX Release

23 August 2023

## Contracted Utilisation Update

NEXTDC Limited (**ASX: NXT**) ("**NEXTDC**" or "**the Company**") is pleased to advise that following recent customer wins, the Company's contracted utilisation<sup>1</sup> has increased by 25MW (21%) to 145MW since the last update provided on 12 April 2023.

NEXTDC's M2 data centre has benefited the most from the recent customer contract wins and is now at 38% of total planned capacity<sup>1</sup>.

Revenue for the majority of the new customer contract wins is expected to be progressively recognised from early FY25 through FY26, following completion and commissioning of additional data halls over time.

Mr Craig Scroggie, NEXTDC's Chief Executive Officer and Managing Director said:

*"It is very pleasing for the Company to have secured new material enterprise and hyperscale customer contract wins in Melbourne. Having done significant work over recent years to deliver UI certified Tier IV metropolitan hyperscale data centres in S3, M2 and M3, the Company is very well positioned to continue to take advantage of further customer growth across these critical digital infrastructure assets."*

Authorised for release by the Managing Director of NEXTDC Limited.

**ENDS**

---

<sup>1</sup> Megawatt (MW), not including contractual expansion options and reservation commitments to customers.

## About NEXTDC

NEXTDC is an ASX 100-listed technology company and Asia's most innovative Data Centre-as-a-Service provider. We are building the infrastructure platform for the digital economy, delivering the critical power, security and connectivity for global cloud computing providers, enterprise, and Government.

NEXTDC is recognised globally for the design, construction, and operation of Australia's only network of Uptime Institute certified Tier IV facilities, and the only data centre operator in the Southern Hemisphere to achieve Tier IV Gold certification for Operational Sustainability. NEXTDC has a strong focus on sustainability and operational excellence through renewable energy sources and delivering world-class operational efficiency. Our data centres have been engineered to deliver exceptional levels of efficiency and the industry's lowest Total Cost of Operation through NABERS 5-star energy efficiency.

NEXTDC's corporate operations have been certified carbon neutral under the Australian Government's *Climate Active* Carbon Neutral Standard.

Our Cloud Centre partner ecosystem is Australia's most dynamic digital marketplace, comprising carriers, cloud providers and IT service providers, enabling local and international customers to source and connect with cloud platforms, service providers and vendors to build complex hybrid cloud networks and scale their critical IT infrastructure services.

NEXTDC is *where the cloud lives*®.
