## HALF YEAR RESULTS - 30 June 2023

BSP Financial Group Limited (BSP) reported a net profit after tax result of K427.2 million for the first half of 2023, a 7.6% increase compared to the corresponding 2022 period. The strong performance of BSP's offshore banks, particularly Fiji, was a key contributor to the improved profit result.

BSP's before tax result was K751.6 million for the first half of 2023, a 10.3% decline compared to the same period last year of K837.4 million, excluding the K190 million Additional Company Tax. The underlying result reflects increases in operating expenses and loan impairment costs that were partially offset by 4.2% of income growth, compared to the same period year.

Key 1H-2023 financial highlights included:

- BSP's net operating income increased from K1,287.4 million in 1H-2022 to K1,341.1 million in 1H-2023, representing a 4.2% increase. FX income increased by 14.7%, due to increased FX order volumes and higher FX inflows. Fee income grew by 4.2%, driven by growth in transaction volumes, via our payment channels. Despite year-on-year loan growth of 8.3%, net interest income growth was subdued (+1.6%), as a consequence of reducing yields from government securities.
- Total expenditure increased by 8.7% from 1H-2022 to K510.9 million, with computing costs and staff costs the key drivers of the increase. Computing costs increased to K102.7 million, a 36.4% increase over the corresponding period, driven largely by higher software, maintenance and channel related costs. Staff costs increased by 11.7% in 1H-2023, driven mainly by increased FTE to support pre and post "go-live" of the new core banking system.
- The Group's total assets grew by 11.6% (K3.7 billion) to K35.1 billion over the last 12 months.
- Loan impairment expense increased by K98.8 million, from a net credit of K20.2 million last year to K78.6 million expense this year. The prior year had release of provisions, due to post COVID-19 improvement in credit quality.
- The Group's capital base remains strong, well above the minimum Bank of Papua New Guinea prudential requirement of 12.0%. Total capital adequacy as at June 2023 stood at 22.5%, slightly lower than June 2022 levels.
