

ASX RELEASE

21 September 2023

## New CEO Appointment – Carbonxt Inc.

US-focused Cleantech company **Carbonxt Group Ltd (ASX:CG1)** ('Carbonxt' or 'the Company') is pleased to announce the appointment of Regina Rodriguez as Chief Executive Officer of the group's US subsidiary, Carbonxt Inc, effective immediately.

Concurrently, Dr. David Mazyck will now focus exclusively on bringing NewCarbon, LLC to commencement.

The appointment forms part of an internal restructure of the US executive team, as construction activity ramps up at Carbonxt's flagship activated carbon (AC) production facility in Kentucky – NewCarbon, LLC – a joint investment with its US partner Kentucky Carbon Processing, LLC (KCP). Dr. Mazyck has been appointed President of NewCarbon, LLC and will oversee construction and development as the facility advances towards the near-term commencement of operations.

Carbonxt is pleased Dr. Rodriguez has accepted the CEO role of Carbonxt Inc, both in recognition of her commitment and work with the Company to-date, and the inherent value of her relevant skills and experience in the sector.

Dr. Rodriguez has a doctorate degree from the University of Florida in Environmental Engineering, where she received the prestigious National Science Foundation Graduate Student Fellowship. As a leading researcher, Dr. Rodriguez currently holds nine patents and as a published researcher, her work has resulted in the design, development and application of improved sorbents and other water-quality technologies for power stations, industrial applications, and water treatment plants. Throughout her time with Carbonxt for the past 10 years, she has been integral in the manufacturing implementation of our two production facilities and has managed our top clients from a business development and sales perspective.

### Comment

**Managing Director Warren Murphy said:** *"It is our pleasure to announce the appointment of Ms Rodriguez as CEO of Carbonxt Inc, at what marks a particularly exciting juncture for our US business. Regina combines a strong research background with a deep understanding of commercial applications in the US water treatment industry. Along with her contribution to the business to-date, this unique skillset makes her the ideal candidate for the Carbonxt, Inc. CEO role and marks the logical next step in her career. Concurrently, the appointment allows David Mazyck to focus exclusively on operational development at the NewCarbon facility, as construction activity ramps up. We look forward to working with Regina and David in their new roles as the Company continues to capitalise on its major addressable market opportunity in the US water treatment market."*

**This announcement has been authorised for release to ASX by the Board of Directors of Carbonxt Group Limited.**
