LETTER FROM THE CHAIR

4 May 2023

Dear Shareholder

As a valued Shareholder, I am pleased to invite you to participate in a 10 for 27 pro-rata traditional non-renounceable entitlement offer of new fully paid ordinary shares in the Company (**New Shares**) at an offer price of \$0.12 per New Share (**Offer Price**) to raise gross proceeds of up to approximately \$20.2 million (**Offer**).

In November 2022, the Company completed and released a robust and financially viable feasibility study. The Offer will fund the activities following on from the feasibility study, being the project development and ongoing expansion of the resource. In particular, the proceeds of the Offer will be applied principally to advance the Jervois Copper Project and to grow the high-grade resource. The proceeds of the Offer will also add to working capital to strengthen the Company's balance sheet as it moves along the development pathway for the Jervois Copper Project. The background to the Offer and the key risks facing the Company in the next 12 to 24 months are described in more detail in the Company's Investor Presentation lodged with ASX on 26 April 2023 (and included in this Offer Booklet in Section 5). The Offer is not underwritten, and is subject to a minimum raise condition of \$9 million. Funding in excess of the minimum raise will primarily be used to continue exploration activities with the possibility of adding a third drilling rig to accelerate growing the high-grade resource, and as additional project working capital for project readiness.

This Offer Booklet relates to the Offer. Under the Offer, Eligible Shareholders are entitled to acquire 10 New Shares for every 27 Shares held at 7.00pm (Sydney time) on 1 May 2023 (**Record Date**) (**Entitlement**). Your Entitlement is set out in your personalised Entitlement and Acceptance Form which accompanies this Offer Booklet. It is important that you determine whether to take up in whole or part, or do nothing, in respect of your Entitlement (see Section 2).

Eligible Shareholders have the opportunity to invest at the price of \$0.12 per New Share. The issue price of \$0.12 per New Share represents a 10% discount to the closing price of Shares on 24 April 2023 (being the last trading day before announcement of the Offer), and a 7.3% discount to the TERP of \$0.129.¹

New Shares issued through the Offer will rank equally with existing Shares on issue.

Substantial Shareholders, KMP Investments Pte. Ltd., which has an interest in the Company of approximately 26.13%, entities associated with Denis Wood, which have a joint interest in the Company of approximately 9.24%, and Marshall Plenty Investments, LLC, which has an interest in the Company of approximately 7.27%, have committed to take up their respective Entitlements in full.²

Entitlements under the Offer are non-renounceable and will not be tradeable on ASX or otherwise transferable. If you do not take up your Entitlement in full, you will not receive any value in respect of that part of the Entitlement that you do not take up.

The Offer closes at 5.00pm (Sydney time) on 18 May 2023.

¹ The TERP is the theoretical price at which Shares should trade immediately following the ex-date for the Offer assuming 100% take up of the Offer. The TERP is a theoretical calculation only and the actual price at which Shares trade immediately following the ex-date for the Offer will depend on many factors and may not be equal to the TERP. The TERP is calculated by reference to the Company's closing price of \$0.132 per Share on 24 April 2023, being the last trading day prior to the announcement of the Offer.

² In respect of KMP Investments Pte. Ltd., subject to compliance with Chapter 6 of the *Corporations Act 2001* (Cth). If to take up its Entitlement in full would result in KMP Investments Pte. Ltd. breaching Chapter 6 of the *Corporations Act 2001* (Cth), it will take up the maximum number of New Shares which it is legally permitted to acquire.

If you would like to exercise your Entitlement to increase your shareholding in the Company, you will need to complete and return your personalised Entitlement and Acceptance Form together with the requisite Application Monies, or alternatively pay your Application Monies using BPAY®, so that they are received by the Company's Share Registry by 5.00pm (Sydney time) on 18 May 2023.

Please carefully read this Offer Booklet in its entirety and consult your stockbroker, solicitor, accountant, financial adviser or other professional adviser before making your investment decision. In particular, you should read and consider the "Key Risk Factors" section of the Company's Investor Presentation included in Section 5 which contains a summary of some of the key risks associated with an investment in the Company.

If you have any questions in respect of the Offer, please call the Offer information line on 1800 653 805 (within Australia) or +61 1800 653 805 (outside Australia) from 8.30am to 5.30pm (Sydney time) Monday to Friday.

On behalf of the Board and management team of the Company, I invite you to consider this investment opportunity and thank you for your ongoing support.

Yours faithfully

Denis Wood

1. OVERVIEW OF THE OFFER

1.1 Offer

The Offer is an offer of up to approximately 168.37 million New Shares at the Offer Price of \$0.12 per New Share, to raise up to approximately \$20.2 million. All Eligible Shareholders are entitled to subscribe for 10 New Shares for every 27 Shares held at the Record Date, being 7.00pm (Sydney time) on 1 May 2023.

Eligible Shareholders who take up their full Entitlement may also participate in the top-up facility (**Top-Up Facility**) by applying for additional New Shares in excess of their Entitlement at the Offer Price. Applications under the Top-Up Facility will (subject to the Company ensuring that no issue of New Shares occurs that is contrary to law) be capped in the following manner:

- an Eligible Shareholder:
 - who takes up their full Entitlement; and
 - who holds less than \$500 worth of Shares on the Record Date (calculated based on the Offer Price per Share),

(**\$500 Parcel Holder**), may apply for up to such number of additional New Shares under the Top-Up Facility as is necessary to ensure that immediately following completion of the Offer, the Eligible Shareholder holds \$2,000 worth of Shares (calculated based on the Offer Price per Share);
- an Eligible Shareholder who takes up their full Entitlement, who holds less than 100,000 Shares on the Record Date, and who is not a \$500 Parcel Holder (**Sub 100,000 Holder**), may apply for up to such number of additional New Shares under the Top-Up Facility as is equal to 100% of their Entitlement; and
- an Eligible Shareholder who takes up their full Entitlement, and who holds equal to or greater than 100,000 Shares on the Record Date (**100,000 Holder**), may apply for up to such number of additional New Shares under the Top-Up Facility as is equal to 20% of their Entitlement.

In particular, an Eligible Shareholder will not be issued any additional New Shares under the Top-Up Facility if the issue of such additional New Shares would cause the Company or that Eligible Shareholder to breach any applicable law, including but not limited to section 606 of the Corporations Act.

In November 2022, the Company completed and released a robust and financially viable feasibility study. The Offer will fund the activities following on from the feasibility study, being the project development and ongoing expansion of the resource. In particular, the proceeds of the Offer will be applied principally to advance the Jervois Copper Project and to grow the high-grade resource. The proceeds of the Offer will also add to working capital to strengthen the Company's balance sheet as it moves along the development pathway for the Jervois Copper Project. The Offer is not underwritten, and is subject to a minimum raise condition of \$9 million. Funding in excess of the minimum raise will primarily be used to continue exploration activities with the possibility of adding a third drilling rig to accelerate growing the high-grade resource, and as additional project working capital for project readiness.

The Offer is non-renounceable. Accordingly, Entitlements do not trade on ASX, nor can they be sold, transferred or otherwise disposed of.

Substantial Shareholders, KMP Investments Pte. Ltd. (**KMP**), which has an interest in the Company of approximately 26.13%, entities associated with Denis Wood (**Wood**), which have a joint interest in the

Company of approximately 9.24%, and Marshall Plenty Investments, LLC (**Marshall Plenty**), which has an interest in the Company of approximately 7.27%, have committed to take up their respective Entitlements in full.⁴

The Offer opens on 4 May 2023. The Offer Booklet will be despatched on that same date, along with a personalised Entitlement and Acceptance Form, to Eligible Shareholders. The Offer is expected to close at 5.00pm (Sydney time) on 18 May 2023.

The Offer is being made pursuant to section 708AA of the Corporations Act (as notionally modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 and ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73), which allows the Offer to be offered without a prospectus, provided certain conditions are satisfied.

As a result, the Offer is not being made under a prospectus and it is important for Eligible Shareholders to read and understand the information on the Company and the Offer made publicly available by the Company, prior to taking up all or part of their Entitlement. In particular, please refer to the materials enclosed in Section 5, the Company's interim and annual reports, other announcements made available at www2.asx.com.au (including the Company's 2022 annual report which was released to ASX on 28 September 2022) and all other parts of this Offer Booklet carefully before making any decisions in relation to your Entitlement.

1.2 Eligible Shareholders

The Offer constitutes an offer to **Eligible Shareholders** only, being Shareholders who:

- are registered as a holder of Shares as at the Record Date, being 7.00pm (Sydney time) on 1 May 2023;
- as at the Record Date, have a registered address on the Company's Share register that is in Australia or New Zealand, or are a Shareholder that the Company has otherwise determined is eligible to participate;
- are not in the United States and are not a person (including a nominee or custodian) acting for the account or benefit of a person in the United States (to the extent such person holds Shares for the account or benefit of such person in the United States); and
- are eligible under all applicable securities laws to receive an offer under the Offer.

All Shareholders who are not Eligible Shareholders are Ineligible Shareholders. Ineligible Shareholders will not be entitled to participate in the Offer.

The Company has determined that it would be unreasonable on this occasion to extend the Offer to Ineligible Shareholders, having regard to the number of Shares held by Ineligible Shareholders, the number and value of New Shares that they would be offered, and the costs of complying with the legal and regulatory requirements which would apply to an offer of Shares.

The Company, in its absolute discretion, reserves the right to determine whether a Shareholder is an Eligible Shareholder and therefore able to participate in the Offer, or an Ineligible Shareholder and therefore unable to participate in the Offer. To the maximum extent permitted by law, the Company disclaims all liability in respect of such determination.

⁴ In respect of KMP, subject to compliance with Chapter 6 of the Corporations Act. If to take up its Entitlement in full would result in KMP breaching Chapter 6 of the Corporations Act, it will take up the maximum number of New Shares which it is legally permitted to acquire.

1.3 Capital structure

On the basis that the Company completes the Offer, the Company's indicative capital structure immediately following completion of the Offer will be as follows:

	Number of Shares (if full amount is raised under the Offer)	Number of Shares (if only minimum raise amount is raised under the Offer)	Number of unquoted performance options
Number on issue as at the date of this Offer Booklet	454,588,974	454,588,974	938,000
Number to be issued under the Offer ⁽¹⁾	168,366,287	75,000,000	Nil
Total on issue following the Offer	622,955,261	529,588,974	938,000

Notes:

- (1) This is subject to reconciliation of Entitlements, and assumes that no Shares are issued pursuant to the exercise / vesting of unquoted performance options.

1.4 Effect of the Offer on control

Information in relation to the effect of the Offer on the control of the Company is set out in the Offer cleansing notice released to ASX on 26 April 2023.

The effect and consequence of the issue of New Shares under the Offer on the control of the Company is dependent on a number of factors, including investor demand.

Given the structure of the Offer as a pro-rata offer, if all Eligible Shareholders take up their Entitlements, the ownership interest (and voting power) in the Company of each Eligible Shareholder will remain largely unchanged and the effect on the control of the Company will be negligible. In these circumstances, the voting power of KMP, the Company's largest shareholder (with an interest in the Company prior to the Offer of approximately 26.13%), will remain at approximately 26.13%.

To the extent that any Eligible Shareholder fails to take up their Entitlement, the percentage holding in the Company of that Eligible Shareholder will be diluted by those other Eligible Shareholders who take up some, all or more than their Entitlements. Depending on the percentage of Entitlements taken up (**Take-Up**), KMP's voting power in the Company may also increase. This is shown in the following table, which sets out KMP's voting power in the Company immediately following completion of the Offer in various Take-Up scenarios. Even in these circumstances, however, the Board considers that the Offer will not affect the control of the Company.

KMP's current voting power in the Company ¹	KMP's voting power in the Company immediately following completion of the Offer ²			
	100% Take-Up	75% Take-Up	50% Take-Up	44.55% Take-Up (\$9 million minimum raise)

6 Assumes that KMP does not take up its Entitlement in full in order to comply with Chapter 6 of the Corporations Act.

If no Eligible Shareholders (other than KMP, Wood and Marshall Plenty, who have committed to take up their respective Entitlements in full)⁵ take up their Entitlements (which the Board considers unlikely), then the Offer will not proceed because the minimum raise of \$9 million would not have been achieved.

The voting power in the Company of Ineligible Shareholders will be diluted.

⁵ In respect of KMP, subject to compliance with Chapter 6 of the Corporations Act. If to take up its Entitlement in full would result in KMP breaching Chapter 6 of the Corporations Act, it will take up the maximum number of New Shares which it is legally permitted to acquire.

3. HOW TO APPLY

3.1 Overview of the Offer

Eligible Shareholders are being offered the opportunity to purchase 10 New Shares for every 27 existing Shares held as at the Record Date of 7.00pm (Sydney time) on 1 May 2023, at the Offer Price of \$0.12 per New Share.

You have a number of decisions to make in respect of your Entitlement. You should read this Offer Booklet carefully before making any decisions in relation to your Entitlement.

The Offer is not underwritten, with the Offer subject to a minimum raise condition of \$9 million. Substantial Shareholders, KMP, which has an interest in the Company of approximately 26.13%, Wood, which has an interest in the Company of approximately 9.24%, and Marshall Plenty, which has an interest in the Company of approximately 7.27%, have committed to take up their respective Entitlements in full.⁶ Further details on the Offer are set out below.

The Offer opens on 4 May 2023 and will close at 5.00pm (Sydney time) on 18 May 2023.

3.2 Your Entitlement

Your Entitlement is set out on the accompanying personalised Entitlement and Acceptance Form and has been calculated as 10 New Shares for every 27 existing Shares you held as at the Record Date. If the result is not a whole number, your Entitlement will be rounded up to the nearest whole number of New Shares.

If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have a separate Entitlement for each separate holding.

New Shares issued under the Offer will be fully paid ordinary shares in the Company and will rank equally in all respects with existing Shares on issue.

See Sections 6.1 and 6.12 for information on restrictions on participation.

3.3 Consider the Offer carefully in light of your particular investment objectives and circumstances

The Offer is being made pursuant to provisions of the Corporations Act which allow entitlement offers to be made without a prospectus. This Offer Booklet does not contain all of the information which may be required in order to make an informed decision regarding an application for New Shares offered under the Offer. As a result, it is important for you to read carefully and understand the information on the Company and the Offer made publicly available, prior to deciding whether to take up all or part of your Entitlement or do nothing in respect of your Entitlement. In particular, please refer to this Offer Booklet, your personalised Entitlement and Acceptance Form, the Company's 2022 annual report which was released to ASX on 28 September 2022, and other ASX announcements made available at www.kglresources.com.au (including announcements which may be made by the Company after publication of this Offer Booklet).

Please consult with your stockbroker, solicitor, accountant, financial adviser or other professional adviser if you have any queries or are uncertain about any aspect of the Offer. You should also refer to the "Key Risk Factors" section of the Company's Investor Presentation included in Section 5.

⁶ In respect of KMP, subject to compliance with Chapter 6 of the Corporations Act. If to take up its Entitlement in full would result in KMP breaching Chapter 6 of the Corporations Act, it will take up the maximum number of New Shares which it is legally permitted to acquire.

Payment by BPAY®

For payment by BPAY®, please follow the instructions on the personalised Entitlement and Acceptance Form. You can only make payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions.

If you are paying by BPAY®, please make sure you use the specific biller code and your unique reference number on your personalised Entitlement and Acceptance Form. If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the reference number specific to that holding. If you do not use the correct reference number specific to that holding your application will not be recognised as valid.

- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies.

3.8 Entitlements of Ineligible Shareholders

In compliance with ASX Listing Rule 7.7.1(a) and section 708AA (including section 9A(3)(a)) of the Corporations Act, the Company has determined that it is unreasonable to extend the Offer to Ineligible Shareholders because of the small number of such Shareholders, the number and value of Shares that they hold, and the cost of complying with the applicable regulations in jurisdictions outside of Australia and New Zealand, but it reserves its right to do so (subject to compliance with relevant laws).

The Company, in its absolute discretion, may extend the Offer to any Shareholder if it is satisfied that the Offer may be made to the Shareholder in compliance with all applicable laws. The Company, in its absolute discretion, reserves the right to determine whether a Shareholder is an Eligible Shareholder and therefore able to participate in the Offer, or an Ineligible Shareholder and therefore unable to participate in the Offer. To the maximum extent permitted by law, the Company disclaims all liability in respect of such determination.

Ineligible Shareholders will not receive any payment or value as a result of the issue of any of those New Shares they would have been entitled to subscribe for had they been eligible to participate in the Offer. Entitlements of Ineligible Shareholders may be subscribed for under the Top-Up Facility.

3.9 Issue of additional New Shares under the Top-Up Facility

Any New Shares not taken up by the Closing Date may be made available to those Eligible Shareholders who took up their full Entitlement and applied for additional New Shares under the Top-Up Facility at the same Offer Price (**Eligible Top-Up Facility Participants**). An Eligible Top-Up Facility Participant can apply for additional New Shares under the Top-Up Facility in excess of their Entitlement at the Offer Price. Applications under the Top-Up Facility will (subject to the Company ensuring that no issue of New Shares occurs that is contrary to law) be capped in the following manner:

- an Eligible Top-Up Facility Participant who is a \$500 Parcel Holder may apply for up to such number of additional New Shares under the Top-Up Facility as is necessary to ensure that immediately following completion of the Offer, the Eligible Top-Up Facility Participant holds \$2,000 worth of Shares (calculated based on the Offer Price per Share);
- an Eligible Top-Up Facility Participant who is a Sub 100,000 Holder may apply for up to such number of additional New Shares under the Top-Up Facility as is equal to 100% of their Entitlement; and
- an Eligible Top-Up Facility Participant who is a 100,000 Holder may apply for up to such number of additional New Shares under the Top-Up Facility as is equal to 20% of their Entitlement.

In particular, an Eligible Top-Up Facility Participant will not be issued any additional New Shares under the Top-Up Facility if the issue of such additional New Shares would cause the Company or that Eligible Top-Up Facility Participant to breach any applicable law, including but not limited to section 606 of the Corporations Act.

There is no guarantee that those Eligible Top-Up Facility Participants will receive the number of New Shares applied for under the Top-Up Facility, or any. If Eligible Top-Up Facility Participants apply for more New Shares than are available under the Top-Up Facility, the Directors will give Eligible Top-Up Facility Participants that are \$500 Parcel Holders priority in respect of allocation of New Shares available under the Top-Up Facility, followed by Eligible Top-Up Facility Participants that are Sub 100,000 Holders, followed by Eligible Top-Up Facility Participants that are 100,000 Holders.

If you apply for additional New Shares under the Top-Up Facility and your application is successful (in whole or in part) your New Shares will be issued at the same time that other New Shares are issued under the Offer, subject to compliance with the Corporations Act and the ASX Listing Rules. There is no guarantee you will receive any New Shares under the Top-Up Facility.

To the extent that a shortfall of New Shares remains after the allocation of New Shares under the Top-Up Facility (**Shortfall Shares**), the Directors reserve the right to, at their discretion, invite investors to apply for those Shortfall Shares within three months of the Closing Date. The Board does not presently intend to issue a party Shortfall Shares if the effect would be to increase that party's voting power in the Company to an amount greater than 20%, or to any existing Shareholder that already has voting power in the Company greater than 20%, given the likely cost involved in seeking Shareholder approval under item 7 of section 611 of the Corporations Act, unless another exception under section 611 of the Corporations Act applies to such person or existing Shareholder.

Refund amounts (greater than \$2.00), if any, will be paid in Australian dollars. You will be paid either by cheque sent by ordinary post to your address as recorded on the Share register (the registered address of the first-named in the case of joint holders), or by direct credit to the nominated bank

account as noted on the Share register as at the Closing Date. If you wish to advise or change your banking instructions with the Company's Share Registry you may do so by going to www.linkmarketservices.com.au and following the instructions.

3.10 Brokerage and stamp duty

No brokerage fee is payable by Eligible Shareholders who accept their Entitlement. No stamp duty is payable for subscribing for New Shares under the Offer.

3.11 Enquiries

If you have not received or you have lost your personalised Entitlement and Acceptance Form, or have any questions, please contact the Offer information line on 1800 653 805 (within Australia) or +61 1800 653 805 (outside Australia) between 8.30am and 5.30pm (Sydney time), Monday to Friday. 4. AUSTRALIAN TAX CONSIDERATIONS

4.1 Introduction

This is a general summary of the Australian taxation consequences of the Offer for Eligible Shareholders that hold their shares on capital account for Australian income tax purposes. The category of Shareholders considered in this summary are limited to individuals, complying superannuation entities and certain companies, trusts or partnerships. This summary does not consider the consequences for Shareholders who:

- hold existing Shares, New Shares or Entitlements in a business of share trading or dealing in securities, or otherwise hold their existing Shares, New Shares or Entitlements on revenue account or as trading stock;
- acquired existing Shares in respect of which the Entitlements are issued under an employee share scheme;
- are subject to the 'Taxation of Financial Arrangements' provisions in Division 230 of the *Income Tax Assessment Act 1997* (Cth) in relation to their holding of Shares, New Shares or Entitlements; or
- are tax residents of any jurisdiction other than Australia.

The information contained in this summary is of a general nature and is not intended to address the circumstances of any particular individual or entity.

This summary is based upon the legislation and established interpretation of legislation as at the date of this Offer Booklet, but is not intended to be an authoritative or complete statement of the law as relevant to the circumstances of each Shareholder.

As the taxation implications of the Offer will depend upon a Shareholder's particular circumstances, Shareholders should seek and rely upon their own professional taxation advice before concluding on the particular taxation treatment that will apply to them.

Shareholders that are subject to tax in a jurisdiction outside Australia may be subject to tax consequences in that jurisdiction in respect of the Offer that are not covered by this summary. Such Shareholders should seek and rely upon their own professional taxation advice in relation to the taxation implications of the Offer in any jurisdictions that are relevant to them.

Neither the Company, nor any of its officers or employees, nor its taxation or other advisers, accepts any liability or responsibility in respect of any statement concerning taxation consequences of the Offer.

4.2 Income tax consequences of Entitlements

a) Issue of Entitlements

The issue of Entitlements to Australian resident Shareholders should not, of itself, give rise to any amount of assessable income or capital gain for Shareholders.

b) Exercise of Entitlements

The exercise of Entitlements should not, of itself, result in any amount being included in a Shareholder's assessable income and should not give rise to any capital gain under the CGT provisions.

Eligible Shareholders that exercise their Entitlements will receive New Shares. New Shares will be taken to have been acquired on the day on which the Entitlements were exercised for CGT purposes.

The CGT cost base of each New Share acquired will be the sum of the amount paid to exercise the corresponding Entitlement (i.e. the Offer Price) and any incidental costs in acquiring the New Shares.

c) Lapse of Entitlement

If an Eligible Shareholder does not accept all or part of their Entitlement in accordance with the instructions set out above, then that Entitlement will lapse. There should be no adverse taxation implications for an Eligible Shareholder from the lapse of the Entitlement.

4.3 Income tax consequences of New Shares

The New Shares should constitute CGT assets for CGT purposes.

Dividends paid to Eligible Shareholders in relation to their New Shares should generally be subject to the same income tax treatment as dividends in relation to existing Shares held in the same circumstances.

As outlined above, the CGT cost base of a New Share should generally be equal to the sum of the amount paid to exercise the corresponding Entitlement (i.e. the Offer Price) and any incidental costs in acquiring the New Share. Any future sale of New Shares will constitute a disposal for CGT purposes. A capital gain will arise if the capital proceeds on disposal exceed the CGT cost base of a New Share. A capital loss will arise if the capital proceeds on disposal are less than the reduced CGT cost base of a New Share.

Shareholders may be able to apply carried forward or current year losses to reduce their capital gain on disposal. The ability to utilise losses is dependent on meeting the relevant tests.

Non-corporate Shareholders may be entitled to a concession which discounts the amount of capital gain that is assessed. Broadly, the concession is available where the New Shares have been held for more than 12 months or more prior to disposal. The concession results in a 50% reduction in the assessable amount of a capital gain for an individual Shareholder and a one-third reduction of a capital gain for an Australian tax resident complying superannuation entity Shareholder (including generally where a flow through trust or partnership distributes to such Shareholders), after offsetting any current or carried forward losses.

In relation to trusts or partnerships including limited partnerships, the rules surrounding capital gains and the CGT discount are complex, but the benefit of the CGT discount may flow through to relevant beneficiaries or partners, subject to certain requirements being satisfied.

Australian tax resident Shareholders who hold New Shares on revenue account, as trading stock or are subject to the rules in Division 230 of the *Income Tax Assessment Act 1997* (Cth) concerning the taxation of financial arrangements should seek separate independent professional advice.

4.4 Non-resident CGT withholding

Specific rules can apply to the disposal of certain taxable Australian property under contracts entered into on or after 1 July 2016, whereby a 12.5% non-final withholding tax may be applied. However, the new rules should not apply to the disposal of a New Share on ASX (in accordance with a specific exemption).

4.5 Provision of TFN or ABN

Australian tax legislation imposes withholding tax at the highest marginal rate (currently 45% plus a Medicare levy of 2%) on the payment of distributions on certain types of investments, such as the unfranked part of any dividend, where no TFN or ABN (if applicable) has been provided and no exemption applies. Australian tax resident Shareholders may be able to claim a tax credit/refund (as applicable) in respect of any tax withheld on dividends in their income tax returns.

Shareholders that have not previously provided their TFN or ABN (if applicable) to the Company's Share Registry may wish to do so prior to the Closing Date to ensure that withholding tax is not deducted from any future distribution payable to them.

A Shareholder is not obliged to provide their TFN, or where relevant, ABN, to the Company.

4.6 Other Australian taxes

GST and stamp duty should not generally be payable in relation to the issue or exercise of Entitlements, nor in relation to the acquisition of New Shares.

Eligible Shareholders may, however, be restricted in their ability to claim input tax credits in relation to costs incurred in relation to their acquisition of the New Shares (such as costs relating to professional advice obtained by Shareholders regarding the Entitlement). This will depend on each Eligible Shareholder's particular circumstances and, as such, this should be reviewed by Shareholders prior to making any claim.

Financial information (cont.): Therefore, the non-IFRS financial information / non-GAAP financial measures are not a measure of financial performance, liquidity or value under the Australian Accounting Standards or IFRS and may not be comparable to similarly titled measures presented by other entities, nor should the information be construed as an alternative to other financial measures determined in accordance with Australian Accounting Standards or IFRS. Investors are therefore cautioned not to place undue reliance on any non-IFRS financial information / non-GAAP financial measures included in this presentation.

This presentation also contains pro forma financial information to show the impact of the Offer. The pro forma financial information provided in this presentation is for illustrative purposes only and is not represented as being indicative of KGL's (or anyone else's) views on KGL's future financial condition and/or performance. The pro forma financial information has been prepared on the basis set out in this presentation. Investors should note that the pro forma financial information has not been prepared in accordance with, and does not purport to comply with, Article 11 of Regulation S-X of the rules and regulations of the U.S. Securities and Exchange Commission.

Cautionary note regarding reserves and resources: As an Australian company with securities listed on ASX, KGL is required to report on reserves and mineral resources in accordance with the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Mining companies in other countries may be required to report their mineral reserves and / or resources in accordance with other guidelines (for example, Subpart 1300 of Regulation S-K in the United States). As a result of the adoption of Subpart 1300 of Regulation S-K in 2019, the United States' Securities and Exchange Commission's standards for mining property disclosures are now more closely aligned to the JORC Code requirements. For example, Subpart 1300 of Regulation S-K permits estimates of "measured mineral resources", "indicated mineral resources" and "inferred mineral resources". In addition, the definitions of "proven mineral reserves" and "probable mineral reserves" in Subpart 1300 of Regulation S-K are "substantially similar" to the corresponding standards under the JORC Code. However, despite these similarities, differences remain between the definitions and standards under the JORC Code and those included in Subpart 1300 of Regulation S-K and therefore, there is no assurance that KGL's mineral resource and ore reserve estimates and related disclosures prepared under the JORC Code would be the same as those prepared under Subpart 1300 of Regulation S-K.

While KGL's reserve and resource estimates comply with the JORC Code, they may not comply with the relevant guidelines in other countries (other than NI 43-101 in Canada), and do not comply with Subpart 1300 of Regulation S-K. Therefore, the estimates of reserves, and resources included in this presentation and in the information that KGL is required to file under the ASX Listing Rules may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of United States securities laws or any other reporting regime. You should not assume that any part of quantities reported as "resources" will be converted to reserves under the JORC Code or under Subpart 1300 of Regulation S-K or any other reporting regime or that these amounts can be economically exploited, particularly material classified as "inferred", and you are cautioned not to place undue reliance on those estimates.

Forward-looking statements can generally be identified by the use of forward-looking words such as "expect", "forecast", "estimate", "view", "anticipate", "project", "opinion", "outlook", "guidance", "should", "could", "may", "target", "believe", "intend", "plan" and other similar expressions within the meaning of securities laws of applicable jurisdictions. Key Risk Factors

MATERIAL BUSINESS RISKS (cont.)

Resource and Reserve Estimate Risk

Resource and reserve estimates are expressions of judgement based on knowledge, experience and industry practice. These estimates were appropriate when made but may change significantly when new information becomes available. There are risks associated with such estimates. Resource and reserve estimates are necessarily imprecise and depend to some extent on interpretations, which may ultimately prove to be inaccurate and require adjustment. Adjustments to resource and reserve estimates could affect KGL's future plans and ultimately its financial performance and value. Copper, silver and gold price fluctuations, as well as increased production costs or reduced throughput and/or recovery rates may render resources containing relatively lower grades uneconomic and may materially adversely affect resource and reserve estimations.

Environmental Risk

The operations and activities of KGL are subject to the environmental laws and regulations of Australia. As with most exploration projects and mining operations, KGL's operations and activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. KGL attempts to conduct its operations and activities to the highest standard of environmental obligation, including compliance with all environmental laws and regulations. KGL is unable to predict the effect of additional environmental laws and regulations which may come into effect in the future, including whether any such laws or regulations would materially increase KGL's cost of doing business or affect its operations in any area. However, there can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige KGL to incur significant expenses and undertake significant investments, which could have a material adverse effect on KGL's business, financial condition and performance.

Availability of Equipment and Contractors

Prior to the COVID-19 pandemic, appropriate equipment, including drill rigs, was in short supply. There was also high demand for contractors providing other services to the mining industry. Current economic conditions, global and domestic, and the COVID-19 pandemic have only served to exacerbate these issues. Consequently, there is a risk that KGL may not be able to source all the equipment and contractors required to fulfil its proposed activities. There is also a risk that hired contractors may underperform or that equipment may malfunction, either of which may affect the progress of KGL's activities. The availability of equipment, material and contractors is also a key consideration of KGL's board of directors in relation to the timing of the final investment decision (FID).

Key Risk Factors

MATERIAL BUSINESS RISKS (cont.)

Fluctuations in Copper Price and Australian Dollar Exchange Rate

The copper mining industry is competitive. There can be no assurance that copper, silver and gold prices will be such that KGL can mine its deposits at a profit. Copper, silver and gold prices fluctuate due to a variety of factors including supply and demand fundamentals, international economic and political trends, expectations of inflation, currency exchange fluctuations, interest rates, global or regional consumption patterns and speculative activities. These fluctuations were exacerbated by the worldwide spread of the COVID-19 virus and at this stage, forecast recoveries from the impact of COVID-19 are speculative. Similarly, demand and supply of capital and currencies, forward trading activities, relative interest rates and exchange rates and relative economic conditions can impact exchange rates.

Climate Change Risk

The operations and activities of KGL are subject to changes to local or international compliance regulations related to climate change mitigation efforts, specific taxation or penalties for carbon emissions or environmental damage, and other possible restraints on industry that may further impact KGL and its profitability. While KGL will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that KGL will not be impacted by these occurrences. Climate change may also cause certain physical and environmental risks that cannot be predicted by KGL, including events such as increased severity of weather patterns, incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which KGL operates. KGL is working proactively to increase the level of renewable energy penetration at its Jervois Copper Project, and is considering a range to technologies that could be applied to the Jervois Copper Project for the benefit of all stakeholders.

Macro-Economic Risks

In 2023, the world continues to be impacted by COVID-19, with global supply chains, labour and equipment shortages still being materially affected. Although world economies have largely re-opened, the economic impact of COVID-19 is still being felt. The COVID-19 pandemic also highlighted the severe impact that such a pandemic, epidemic or any other form of health crisis (whether COVID-19 related or otherwise) can have, including on capital markets, and if such a pandemic, epidemic or other form of health crisis were to occur in the future, it may have an adverse impact on KGL's operating and financial performance and financial position.

Inflationary pressures for appropriately skilled labour, oil and capital items are being seen across many industries, including the mining industry, and the recent geopolitical tensions across a number of areas worldwide (including the ongoing conflict between Ukraine and Russia) may also continue to adversely affect capital markets and cause spikes in materials prices, including diesel prices.

Key Risk Factors

GENERAL RISK FACTORS

Mineral exploration and mining may be hampered by circumstances beyond the control of KGL and are speculative operations which by their nature are subject to a number of inherent risks. These include general risk factors such as the following.

Market Risk

As with all stock market investments, there are risks associated with an investment in KGL. Share prices may rise or fall and the price of KGL shares might trade below or above the issue price for the New Shares. The price at which KGL shares trade on ASX may be determined by a range of factors including movements in local and international equity and bond markets, general investor sentiment in those markets, inflation, interest rates, general economic conditions and outlook and changes in the supply of, and demand for, exploration and mining industry securities, changes to government regulation, policy or legislation, changes which may occur to the taxation of companies as a result of changes in Australian and foreign taxation laws, changes to the system of dividend imputation in Australia, and changes in exchange rates. The market for KGL shares may also be affected by a wide variety of events and factors, including variations in KGL's operating results, recommendations by securities analysts, and the operating and trading price performance of other listed exploration and mining industry entities that investors consider to be comparable to KGL. Some of these factors could affect KGL's share price regardless of KGL's underlying operating performance.

Taxation Risk

Any change in KGL's tax status or the tax applicable to holding KGL shares or in taxation legislation or its interpretation, could affect the value of the investments held by KGL, affect KGL's ability to provide returns to shareholders, and/or alter the post-tax returns to shareholders. In addition, an interpretation of Australian tax laws by the Australian Taxation Office that differs to KGL's interpretation may lead to an increase in KGL's tax liabilities and a reduction in shareholder returns. Personal tax liabilities are the responsibility of each individual investor. KGL is not responsible either for tax or tax penalties incurred by investors.

Liquidity Risk

There can be no guarantee that there will continue to be an active market for KGL shares or that the price of KGL shares will increase. There may be relatively few buyers or sellers of KGL shares on ASX at any given time. This may affect the volatility of the market price of KGL shares. It may also affect the prevailing market price at which shareholders are able to sell their KGL shares. This may result in shareholders receiving a market price for their KGL shares that is less or more than the price paid under the Offer.

Key Risk Factors

GENERAL RISK FACTORS (cont.)

Securities Investment Risk

Applicants should be aware that there are risks associated with any securities investment. Securities listed on the stock market, and in particular securities of mining and exploration companies, have experienced extreme price and volume fluctuations that have often been unrelated to the operating performances of such companies. These factors may materially affect the market price of the securities regardless of KGL's performance. The past performance of KGL is not necessarily an indication as to future performance of KGL as the trading price of KGL shares can go up or down. Neither KGL, nor its directors, warrant the future performance of KGL or any return on an investment in KGL.

Economic Factors

The operating and financial performance of KGL is influenced by a variety of general economic and business conditions, including levels of consumer spending, oil prices, inflation, interest rates and exchange rates, supply and demand, industrial disruption, access to debt and capital markets, and government fiscal, monetary and regulatory policies. Changes in general economic conditions may result from many factors including government policy, international economic conditions, significant acts of terrorism, hostilities or war or natural disasters. A prolonged deterioration in general economic conditions, including as a result of an increase in interest rates, rising geopolitical tensions, or a decrease in consumer and business demand, may have an adverse impact on KGL's operating and financial performance and financial position. This risk is heightened in the current uncertain economic environment. Examples of events that have affected (and may continue to affect) global geopolitical conditions include the ongoing conflict in Ukraine, the tensions between China and Taiwan, the United Kingdom ceasing to be a member of the European Union and the European Economic Area on 31 January 2020 (commonly referred to as "Brexit"), the bank failures in 2023 including the collapse of Silicon Valley Bank, Signature Bank and Silvergate Bank, and global trade developments relating to, among other things, the imposition or threatened imposition of trade tariffs and levies by major countries, including the United States and China. KGL's future possible revenues and the KGL share price can be affected by these factors, which are beyond the control of KGL.

Accounting Standards

Australian accounting standards are set by the Australian Accounting Standards Board (AASB) and are outside KGL's control. Changes to accounting standards issued by AASB could materially adversely affect the financial performance and position reported in KGL's financial statements.

Copper Intensity Increasing

- EVs: Aggressive projections suggest that sales could hit 13-18 million in 2025 and 26-43 million in 2030 (Avevedo et al., 2018; International Energy agency, 2019) representing some 30% of the global passenger vehicle fleet electrification could rapidly spread to medium and heavy commercial vehicles starting in the 2020s (Bloomberg New Energy Finance, 2019)
- As EVs utilise material differently to conventional vehicles, their growth faces potential material supply challenges. Copper (Cu) is used in EV batteries, motors, wiring, busbars and charging infrastructure. As such, it is deemed the electrical metal essential for almost all energy applications. While a conventional car contains 23kg of Cu on average, hybrid, plug-in and battery EVs require 40kg, 60kg and 83 kg of Cu per vehicle respectively (International Copper Study Group, 2018)

Copper demand is expected to grow 600%

The need for copper will see demand increasing nearly 600% by 2030, according to Goldman Sachs forecasts, equivalent to 5.4 million tonnes. With North America's EV market set to grow from \$2.7bn in 2021 to \$18.6bn by 2030, the amount of Cu required for EV production alone is estimated to reach 3.7m tonnes by 2040

- <https://www.barclaycard.com.au/blog/how-electricvehicles-are-driving-the-copper-boom> (Sept 2021)

In 2022, Bloomberg NEF estimated that Europe's net-zero transition strategy would cost a staggering \$5.3 trillion. Each major channel of renewable energy is highly copper-intensive. Wind energy, for instance, consumes 1.4 tons of copper per MW. Solar PV installations require 65% more, while offshore wind facilities use more than thrice that volume.

Moreover, Anderson believes that due to the intermittent nature of renewable power, replacement with traditional energy generation is not on a 1-to-1 basis. According to his estimates, it is over 3 MW of power and related storage that you need to build to replace one MW of base load.

Robust Long-Term Outlook for Copper

- S&P Global¹ forecasts refined copper demand doubling by 2035 from 25 Mt to almost 50 Mt driven by growing demand for renewable energy and EVs under the clean energy transition.
- Wood Mackenzie² note that, given the substantial growth in new mine supply needed to meet zero-carbon targets, the industry will have to deliver new projects at a frequency and consistent level of investment never previously accomplished.
- The additional volume of copper needed means that 9.7 Mt of new mine supply will be required over the next decade from projects that have yet to be sanctioned – equivalent to nearly a third of current refined consumption.
- Investment would need to be more than \$23 billion a year in new projects, which is 64% higher than the average annual spend over the last 30 years.
- Mine supply is expected to peak in 2024.
- A chronic shortfall in copper supply is expected to commence in the later half of this decade driven by robust demand and declining grades and reserves from existing mines, a lack of new discoveries from increased exploration budgets and long lead times from discovery to production of on average 16 years.

Long-term supply gap remains unsolved, with widening mid-term deficits³

ASX Announcement

Entitlement offer to raise up to approximately \$20.2 million

Level 5, 167 Eagle Street
Brisbane QLD 4000
Australia
kgresources.com.au

26 April 2023

KGL Resources Limited (ASX:KGL) (**KGL** or **Company**) is pleased to announce a proposed 10 for 27 pro-rata traditional non-renounceable entitlement offer of fully paid ordinary shares in KGL (**New Shares**) to raise up to approximately \$20.2 million (**Offer**).

The Offer is not underwritten and is subject to a minimum raise condition of \$9 million. Three of KGL's major shareholders, KMP Investments Pte. Ltd., entities associated with Denis Wood, and Marshall Plenty Investments, LLC, have committed to take up their respective entitlements in full, which would provide funding of \$8.6 million.¹

In November 2022, the Company completed and released a robust and financially viable feasibility study. The Offer will fund the activities following on from the feasibility study – (1) the project development and (2) ongoing expansion of the resource.

Executive Chairman, Denis Wood, commented:

"We completed the Feasibility Study in November 2022 and since that time have been working on de-risking and preparing for the project. We also recommenced drilling in March 2023 with some exciting targets to explore. Proceeds from the Offer, if fully subscribed, will allow the Company to continue with these activities well into 2024. My opinion is that the current share price is well below the intrinsic value of the Company, especially considering the forthcoming copper shortages the world faces. We have sought to structure the Offer in such a way that is fair to all shareholders, which has meant some limitations on the top-up facility under the Offer but priority has been given to smaller shareholders. I encourage you to review the Offer information booklet, when released, and look forward to your ongoing support."

Project Development

The current work streams include mine plan optimisation and tenders for contracts with experienced contractors for construction, mining and operations. The Company is also implementing a risk management plan which is critical to being able to meet delivery timelines and desired outcomes. Project commencement will be subject to market conditions but anticipated copper deficits and higher incentive prices for copper are likely to improve development options and returns for shareholders.

Resource Expansion

The opportunity exists to focus on growing the high-grade resource at Jervois given the outlook for chronic shortfalls in copper over the next decade.

Recent drilling success at Marshall Deepes and Rockface demonstrate potential to expand the high-grade resource with the potential to extend mine life to drive capital efficiencies, cashflow and IRR improvements.

Offer

Ratio	10 New Shares for every 27 existing fully paid ordinary shares in KGL held
Offer Price for New Shares	\$0.12 per New Share
Size	Up to approximately 168.4 million New Shares
Gross proceeds (minimum)	\$9 million
Gross proceeds (maximum)	Up to approximately \$20.2 million

¹ In respect of KMP Investments Pte. Ltd., subject to compliance with Chapter 6 of the *Corporations Act 2001* (Cth). If to take up its entitlement under the Offer in full would result in KMP Investments Pte. Ltd. breaching Chapter 6 of the *Corporations Act 2001* (Cth), it will take up the maximum number of New Shares which it is legally permitted to acquire.

6. ADDITIONAL INFORMATION

This Offer Booklet (including the ASX Announcements in Section 5) and enclosed personalised Entitlement and Acceptance Form have been prepared by the Company.

This Offer Booklet is dated 4 May 2023 (other than the ASX Announcements, which were released to ASX on 26 April 2023) and are also available at www.kglresources.com.au. The information in this Offer Booklet remains subject to change without notice and the Company is not responsible for updating such information.

There may be additional announcements made by the Company after the date of this Offer Booklet and throughout the period that the Offer is open that may be relevant to your consideration of whether to take up, or do nothing in respect of, your Entitlement. Therefore, it is prudent that you check whether any further announcements have been made by the Company (by visiting ASX's website at www.asx.com.au, or the Company's website at www.kglresources.com.au) before submitting your application to take up your Entitlement.

No party other than the Company has authorised or caused the issue of the information in this Offer Booklet, or takes any responsibility for, or makes, any statements, representations or undertakings in respect of, such information.

No person is authorised to give any information, or to make any representation, in connection with the Offer that is not contained in this Offer Booklet. Any information or representation that is not in this Offer Booklet may not be relied on as having been authorised by the Company or its related bodies corporate in connection with the Offer.

The information in this Offer Booklet is important and requires your immediate attention.

You should read the information in this Offer Booklet carefully and in its entirety before deciding how to deal with your Entitlement. In particular, you should consider the risk factors outlined in the "Key Risk Factors" section of the Company's Investor Presentation included in Section 5, any of which could affect the operating and financial performance of the Company or the value of an investment in the Company.

You should consult your stockbroker, solicitor, accountant, financial adviser or other professional adviser to evaluate whether or not to participate in the Offer.

6.1 Ineligible Shareholders

This Offer Booklet contains an offer of New Shares to Eligible Shareholders in Australia and New Zealand and has been prepared in accordance with section 708AA of the Corporations Act (as notionally modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 and ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73).

As set out in Section 1.2, Eligible Shareholders are those persons who:

- are registered as a holder of Shares as at the Record Date, being 7.00pm (Sydney time) on 1 May 2023;
- as at the Record Date, have a registered address on the Company's Share register that is in Australia or New Zealand, or are a Shareholder that the Company has otherwise determined is entitled to participate;
- are not in the United States and are not a person (including a nominee or custodian) acting for the account or benefit of a person in the United States (to the extent such person holds Shares and is acting for the account or benefit of a person in the United States); and

- are eligible under all applicable securities laws to receive an offer under the Offer.

All Shareholders who do not satisfy the criteria to be Eligible Shareholders are Ineligible Shareholders. Ineligible Shareholders are not entitled to participate in the Offer, unless the Company otherwise determines.

The restrictions upon eligibility to participate in the Offer arise because the Company has determined, pursuant to ASX Listing Rule 7.7.1(a) and section 708AA (including section 9A(3)(a)) of the Corporations Act, that it would be unreasonable to extend the Offer to Ineligible Shareholders. This decision has been made after taking into account the number of non-residents in Australia and New Zealand on the Company's Share register, the relatively small number and value of New Shares to which those Shareholders would otherwise be entitled, and the potential costs of complying with legal and regulatory requirements in the jurisdictions in which the Ineligible Shareholders are located in relation to the Offer.

The Company, in its absolute discretion, may extend the Offer to any Shareholder if it is satisfied that the Offer may be made to the Shareholder in compliance with all applicable laws. The Company, in its absolute discretion, reserves the right to determine whether a Shareholder is an Eligible Shareholder or an Ineligible Shareholder. To the maximum extent permitted by law, the Company disclaims all liability in respect of such determination.

Ineligible Shareholders will not receive any payment or value as a result of the issue of any of those New Shares they would have been entitled to subscribe for had they been eligible to participate in the Offer.

By returning a completed personalised Entitlement and Acceptance Form or making a payment by BPAY®, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

6.2 Ranking of New Shares

New Shares issued under the Offer will be fully paid and rank equally in all respects with existing Shares on issue from their time of issue. The rights and liabilities attaching to the New Shares are set out in the Company's constitution, a copy of which is available at www.kglresources.com.au.

6.3 Risks

The Company's Investor Presentation details important factors and risks that could affect the financial and operating performance of the Company. You should refer to the "Key Risk Factors" section of the Company's Investor Presentation released to ASX on 26 April 2023 which is included in Section 5. You should consider these factors in light of your personal circumstances, including financial and taxation issues, before making a decision in relation to your Entitlement.

6.4 Reconciliation, and the rights of the Company

The Offer and the calculation of Entitlements is a complex process. There may be a need to undertake a reconciliation of Entitlements. If reconciliation is required, it is possible that the Company may need to issue additional New Shares to ensure that the relevant investors receive their appropriate allocation of New Shares.

The Company also reserves the right to reduce the size of an Entitlement or number of New Shares allocated to Eligible Shareholders, or persons claiming to be Eligible Shareholders or other applicable investors, if the Company believes in its complete discretion that their claims are overstated or if they or their nominees fail to provide information requested to substantiate their claims. In that case, the Company may, in its discretion, require the relevant Shareholder to transfer excess New Shares at its

direction at the Offer Price per New Share. If necessary, the relevant Shareholder may need to transfer existing Shares held by them or to purchase additional Shares on-market to meet this obligation. The relevant Shareholder will bear any and all losses caused by subscribing for New Shares in excess of their Entitlement and any actions they are required to take in this regard.

By applying under the Offer, those doing so irrevocably acknowledge and agree to do the above as required by the Company in its absolute discretion. Those applying acknowledge that there is no time limit on the ability of the Company to require any of the actions set out above.

6.5 No cooling off rights

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your application once it has been accepted.

6.6 Rounding of Entitlements

Where fractions arise in the calculation of an Entitlement, they will be rounded up to the nearest whole number of New Shares.

6.7 Trading of Entitlements

Your Entitlement is personal and cannot be traded on ASX, transferred, assigned or otherwise dealt with. If you do not take up your Entitlement by the Closing Date, being 5.00pm (Sydney time) on 18 May 2023, your Entitlement will lapse.

6.8 Quotation and trading of New Shares

The Company will apply for quotation of the New Shares on ASX in accordance with the ASX Listing Rule requirements. Trading of New Shares will, subject to ASX approval, occur shortly after allotment. If ASX does not grant quotation of the New Shares, the Company will repay all Application Monies (without interest). It is expected that trading on ASX of New Shares to be issued under the Offer will commence at 10.00am (Sydney time) on 26 May 2023 on a normal settlement basis. Application Monies will be held by the Company on trust for applicants until the New Shares are allotted. No interest will be paid on Application Monies.

It is the responsibility of applicants to determine the number of New Shares allotted and issued to them prior to trading in the New Shares. The Company will have no responsibility and disclaims all liability (to the maximum extent permitted by law) to persons who trade New Shares they believe will be issued to them before they receive their holding statements, whether on the basis of confirmation of the allocation provided by the Company or failure to maintain their updated details with the Company's Share Registry or otherwise, or who otherwise trade or purport to trade New Shares in error or which they do not hold or are not entitled to.

If you are in any doubt as to these matters, you should first consult with your stockbroker, solicitor, accountant, financial adviser or other professional adviser.

6.9 Notice to nominees and custodian

If the Company believes you hold Shares as a nominee or custodian you will have received, or will shortly receive, a letter in respect of the Offer. Nominees and custodians should consider carefully the contents of that letter.

Persons acting as nominees for other persons must not take up Entitlements on behalf of, or send any documents related to the Offer to, any person in the United States or any person that is acting for the account or benefit of a person in the United States. Persons in the United States and persons acting for the account or benefit of persons in the United States will not be able to take up or exercise Entitlements and may receive no value for any such Entitlements held.

The Company is not required to determine whether or not any registered holder or investor is acting as a nominee or custodian or the identity or residence of any beneficial owners of Shares or Entitlements. Where any person is acting as a nominee or custodian for a foreign person, that person, in dealing with its beneficiary, will need to assess whether indirect participation in the Offer by the beneficiary complies with applicable foreign laws. The Company is not able to advise on foreign laws.

Nominees and custodians may not send copies of this Offer Booklet, the accompanying Entitlement and Acceptance Form, or the accompanying ASX Announcements (including the Company's Investor Presentation included as part of this Offer Booklet), or any other material relating to the Offer, to persons in the United States or to any person acting for the account or benefit of a person in the United States (to the extent such person holds Shares and is acting for the account or benefit of a person in the United States) or in any other jurisdiction outside Australia or New Zealand.

Nominees and custodians may not submit an application or otherwise accept the Offer on behalf of a person in the United States or any other country outside Australia and New Zealand.

6.10 Not investment advice

This Offer Booklet is not a prospectus, product disclosure statement or other form of disclosure document under the Corporations Act and has not been lodged with ASIC. It is also not financial product advice and has been prepared without taking into account your investment objectives, financial circumstances or particular needs. The Company is not licensed to provide financial product advice in respect of the New Shares. This Offer Booklet does not purport to contain all the information that you may require to evaluate a possible application for New Shares, nor does it purport to contain all the information which would be required in a prospectus prepared in accordance with the requirements of the Corporations Act. It should be read in conjunction with the Company's other periodic statements and continuous disclosure announcements lodged with ASX, which are available at www.kglresources.com.au.

Before deciding whether to apply for New Shares, you should consider whether they are a suitable investment for you in light of your own investment objectives and financial circumstances and having regard to the merits or risks involved. If, after reading the information in this Offer Booklet, you have any questions about the Offer, you should contact your stockbroker, solicitor, accountant, financial adviser or other professional adviser or call the Offer information line on 1800 653 805 (within Australia) or +61 1800 653 805 (outside Australia) between 8.30am and 5.30pm (Sydney time), Monday to Friday.

Nominees and custodians may not distribute any part of this Offer Booklet in the United States or in any other country outside Australia except:

- that Australian nominees may send this Offer Booklet and related offer documents to beneficial Shareholders who are professional or institutional Shareholders in other countries (other than the United States) listed in, and to the extent permitted under, the "Foreign Selling Jurisdictions" set out in the Company's Investor Presentation included in Section 5; and
- to beneficial Shareholders in other countries (other than the United States) where the Company may determine it is lawful and practical to make the Offer.
