## ASX RELEASE

### Operational Update: SM58 G5 Recompletion Begins

- **Recompletion work has begun to change zones from the L2 Stray Sand to the N2 Sand in the SM58 G5 well**

**Byron Energy Limited (Byron or the Company) (ASX: BYE)** is pleased to provide the following update on the Company's recompletion operation on the South Marsh Island G5 (SM58G5) well.

On 15 February 2024, (USCT) a liftboat arrived on location at the Byron operated SM58 G platform to begin operations on the SM58 G5 well. The G5 will be recompleted from the L2 Stray Sand to the N2 Sand using coiled tubing placed on the liftboat. The work is expected to take 21 days to complete.

Byron will make further announcements when the work is finished and the liftboat has left location.

Byron holds a 100% working interest and a 83.33% net revenue interest in the SM58 G5 well.
